history contain so many compounded disasters they seem to be inspired by disaster movies In the early 2020s the Covid 19 pandemic upended the world and thrust populations into a state of uncertainty and fear as seen in movies like *Outbreak* *The Towering Inferno* or *Armageddon* Birthed from the author s original research on disaster movies this book argues that the life cycle of Covid closely parallels various apocalyptic films from the personas of the main players to the strike of the cataclysm itself To view the Covid pandemic through the language of disaster movies the book identifies those that mirror predict each stage of the Covid pandemic analyzing the similarities between the films and real life events A filmography of the featured disaster movies concludes the book *American Disaster Movies of the 1970s* Scott Freer,2023-10-19 *American Disaster Movies of the 1970s* is the first scholarly book dedicated to the disaster cycle that dominated American cinema and television in the 1970s Through examining films such as *Airport* 1970 *The Poseidon Adventure* 1972 *Two Minute Warning* 1976 and *The Swarm* 1978 alongside their historical contexts and American contemporaneous trends the disaster cycle is treated as a time bound phenomenon This book further contextualises the cycle by drawing on the longer cultural history of modernist reactions to modern anxieties including the widespread dependence on technology and corporate power Each chapter

considers cinematic precursors such as the ark movie and contemporaneous trends such as New Hollywood vigilante and blaxploitation films as well as the immediate American context the end of the civil rights and countercultural era the Watergate crisis and the defeat in Vietnam As Scott Freer argues the disaster movie is a modern demotic form of tragedy that satisfies a taste for the macabre It is also an aesthetic means for processing painful truths and many of the dramatized themes anticipate present day monstrosities of modernity

The Shadow Government Len Bracken,2002 This book presents the alarming evidence that nation states actively engage in terror and also

passively allow terror to be visited upon their citizens It is not just liberation movements and radical groups that deploy terrorist tactics for offensive ends States use terror defensively to directly intimidate their citizens and to indirectly attack themselves or harm their citizens under a false flag Their motivation To provide pretexts for otherwise unwanted wars or to gain increased police powers Statesmen have executed indirect terrorism in various ways but most plots tend to involve the pretence of blind eyes misdirection and cover ups that give the statesmen plausible deniability The sinking of the Lusitania the bombing of Pearl Harbour the October Surprise the first World Trade Center bombing the Oklahoma City bombing and other well known incidents suggest that terrorism is often successfully used by states to take the offensive against enemies at home and abroad Was 9 11 such an indirect defensive attack Len Bracken traces the clues circumstantially connecting a multi armed hydra of oil interests the CIA FBI diplomats and statesmen to the September 11 attacks and examines whether they were engineered or allowed as a pretext for the war in Afghanistan The subsequent anthrax attack targeting Democratic senators is considered in light of the controversial USA Patriot Acts rights encroaching measures and the act s easy passage under conditions of terror A shadow government appears to have covered the land like black ice
