The Maya and Climate

Change Kenneth E. Seligson, 2023 One of the most well known things about the Classic Maya civilization is that it collapsed which leads to many questions about what happened Geared toward a general audience this book argues that Classic Maya civilization did not in fact collapse in the literal sense of the word Instead it shifts the focus to the 700 plus years of societal growth and environmental conservation that preceded the transformation of Maya civilization about 1 000 years ago Drawing on archaeological environmental and historical evidence it explores the many ways that Maya communities addressed the challenges of climate change and other tropical environment stressors
