The Author of this work has enjoyed peculiar advantages for the study of the important issues now agitating the United States. A resident during five years in that country, he witnessed many of the occurrences herein related, while professional duties in connection with the press during the last Presidential election introduced him as it were behind the scenes and afforded him the opportunity of becoming personally acquainted with many of the leaders of opinion in the American Republic. Englishmen and Europeans generally have hitherto felt little interest with regard to transatlantic concerns.
