The Original Programme of the Theosophical Society prefaced by introductory notes historical letters and documents by Boris de Zirkoff Compiler and Editor of H P Madame Blavatsky Collected Writings There is no religion higher than Truth Moreover there is and can be but one absolute Truth in Kosmos The majority of the public Areopagus is generally composed of self appointed judges who have never made a permanent deity of any idol save their own personalities their lower selves And he who believes his own religion on faith will regard that of every other man as a lie and hate it on that same faith Theosophy is not a religion It is Religion itself a Divine Science embracing every science in life moral and physical and a sublime code of Ethics Theosophy is Religion and the Theosophical Society the Universal Church of Morality The Theosophical Movement is the great moral but silent force Human life devoid of all its world ideals and beliefs becomes deprived of its higher sense and meaning But the world ideals can never completely die out Exiled by the fathers they will be received with open arms by the children The Theosophical Movement was reborn in 1875 and so the cyclic evolution of theosophical ideals continues

Roger Brownsword, 2023-11-06 This book analyses discontent with law and assesses the prospect of better governance by technology In the first part of the book where the context is low tech the range of discontent with law is examined the underlying reasons for such discontent are identified namely the human nature of the legal enterprise its reliance on rules and the pluralistic nature of human communities and the reasonableness of such discontent is assessed In the second part of the book where the context is high tech with new tools becoming available to undertake governance functions the question is whether discontent with law is further provoked or to the contrary is eased While new technologies provoke further discontent with law s claimed authority its ineffectiveness and its principles positions and policies they also promise more effective and efficient ways of achieving order The book closes with some reflections on the ambivalence that humans might experience when faced with the choice between law s governance and apparently better performing governance by technology That law s governance is imperfect is undeniable that humans should quest after better governance is right but the shape of our technological futures is unclear This accessibly written book will appeal to scholars and students who are working in the broad and burgeoning field of law regulation and technology as well as to legal theorists political scientists and sociologists with interests in the impact of new technology Corporate Compliance and Ethics Institute ,2009

Would I Lie to You? Judi Ketteler,2021-01-26 What would it mean to commit to unconditional honesty and what impact might that have on our lives Inspired by her popular New York Times article How Honesty Could Make You Happier award winning journalist Judi Ketteler takes a deep dive into the hard truths about honesty from the personal to the political We re incensed by politicians who lie and corporations that cheat but when it comes to our own honesty choices we often barely notice So what happens when we do notice Judi Ketteler thought of herself as an honest person And yet she knew it wasn t the whole story How often was Judi engaging in the same dishonest behavior she was condemning in others To answer that

question she started her Honesty Journal and set out to confront her perennial fear of speaking the truth in a range of situations including with friends her kids and even inside her complicated marriage The result is a timely consideration of the joys and pains of truth in a world that seems committed to lying **Here, There and Everywhere** Robin Richardson, 2004
