The Humboldt Highroad Of The West:

The Humboldt Dale Lowell Morgan, 1943 The Humboldt Project Robert Autobee, 1993 *Rivers of America* Dale L. Morgan, 1943 History of travel to Utah and California by Mormons and others Includes numerous accounts of Native Americans The Humboldt Current Aaron Sachs, 2007-07-31 A masterly and beautifully written account of the impact of Alexander von Humboldt on nineteenth century American history and culture The naturalist and explorer Alexander von Humboldt 1769 1859 achieved unparalleled fame in his own time Today however he and his enormous legacy to American thought are virtually unknown In *The Humboldt Current* Aaron Sachs traces Humboldt's pervasive influence on American history through examining the work of four explorers J N Reynolds Clarence King George Wallace and John Muir who embraced Humboldt's idea of a chain of connection uniting all peoples and all environments A skillful blend of narrative and interpretation that also discusses Humboldt's influence on Emerson Whitman Thoreau Melville and Poe *The Humboldt Current* offers a colorful passionate and superbly written reinterpretation of nineteenth century American history *Utah Historians and the Reconstruction of Western History* Gary Topping, 2003 Among historians of Utah and the American West few names have greater resonance than Bernard DeVoto Dale Morgan Juanita Brooks Wallace Stegner and Fawn Brodie Each of these writers made enduring contributions not only to our knowledge of the American West but also to our view of the region and its history In many ways their writing set the standard for scholarship and interpretation and their influence is still felt today Yet they were not flawless As Gary Topping explains in this the first comprehensive appraisal of their work each had serious shortcomings DeVoto and Stegner master storytellers distorted their histories with excessive use of literary and artistic techniques Morgan the thorough researcher failed to see larger contexts and interpretive possibilities Brooks courageous in finding damning new information on the Mountain Meadows massacre stopped short of drawing conclusions that might alienate her from her fellow Mormons and Brodie psychobiographer extraordinaire nonetheless succumbed to reading too much into the lives of her subjects based on her own emotions and conflicts All five writers experienced Mormon Utah in the formative stages of their lives and whether they wanted to or not fashioned their work on the American West under that indelible influence Topping shows ultimately how despite weaknesses each created exemplary models of diligent research and narrative elegance while establishing new traditions in western historical scholarship *The Mountainous West* William Wyckoff, Larry M. Dilsaver, 1995-01-01 Traditional interpretations of the American West have concentrated on the importance of its aridity to the region's cultural evolution and development But the West is marked by a second fact of physical geography that distinguished it from the experiences of settlers from the east As pioneers struggled with the climate west of the hundredth meridian they were also confronted by mountains strewn across the region and offering their own set of limitations and opportunities This volume focuses on these green islands of the Mountainous West that have witnessed patterns of settlement and development distinct from their lowland neighbors In thirteen essays the contributors address the

mountains by means of five themes the mountains as barriers to movement islands of moisture a zone of concentrated resources an area of government control and a restorative sanctuary The focus ranges from California s Sierra Nevada to the Rocky Mountains of Colorado Utah and Montana William K Wyckoff is an associate professor Department of Earth Sciences Montana State University He is the author of *The Developer s Frontier The Making of the Western New York Landscape* and of articles in many journals including *The California Geographer* *Social Science Journal* *Geographical Review* and *Journal of Historical Geography* Lary M Dilsaver is a professor in the Department of Geology and Geography University of South Alabama The author with William Tweed of *Challenge of the Big Trees A Resource History of Sequoia and Kings Canyon National Parks* he has also written articles in journals such as *Geographical Review* *Annals of Tourism Research* and *Yearbook of the Association of Pacific Coast Geographers* *Water and Related Land Resources, Humboldt River Basin, Nevada: Pine Valley sub-basin* United States. Department of Agriculture. Economic Research Service, 1962 **The Last Outlaws** Thom Hatch, 2013-02-05 The Old West was coming to an end Two legendary outlaws refused to go with it As leaders of the Wild Bunch Butch Cassidy and the Sundance Kid executed the most daring bank and train robberies of their day For several years at the end of the 1890s the two friends along with a revolving band of thieves eluded law enforcement while stealing from the rich bankers and Eastern railroad corporations who exploited Western land until they rode headlong into the twentieth century In *The Last Outlaws* Thom Hatch brings these memorable characters to life like never before From their early holdup attempts to that fateful day in Bolivia Hatch draws on a wealth of fresh research to go beyond the myth and provide a compelling new look at these legends of the Wild West Includes Photographs **Water and Related Land Resources, Humboldt River Basin, Nevada** , 1962 **Water and Related Land Resources, Humboldt River Basin, Nevada: North Fork Sub-Basin** , 1962
