Making Another World Possible Peter Ryley, 2013-07-18

This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com

Making Another World Possible identifies the British contribution to the genealogy of modern green and anti capitalist thinking by examining left libertarian ideologies in the late 19th and early 20th century Britain and highlighting their influence on present day radical thought As capitalism heralded the triumph of technology greater production and a new urban industrial society some imagined alternatives to this notion of progress based on endless economic growth The book examines the development of ideas from these dissidents who included communists class warriors free thinkers secularists and Christian communitarians All shared the same beliefs that the benefits of industrialism could only be realized through equality and that urban culture depended on a healthy agriculture and harmony with the natural world concerns that are still of great importance today This distinctive history of anarchist ideas reappraises the work of thinkers and revises the historical picture of the radical milieu in 19th and 20th century Britain It will be an essential resource to anyone researching the history of ideas and studying anarchism

Culture, Philanthropy and the Poor in Late-Victorian London Geoffrey A. C. Ginn, 2017-04-21 2018 Choice Outstanding Academic Title

The Late Victorian cultural mission to London s slums was a peculiar effort towards social reform that today is largely forgotten or misunderstood The philanthropy of middle and upper class social workers saw hundreds of art exhibitions concerts of fine music evening lectures clubs and socials debates and excursions mounted for the benefit of impoverished and working class Londoners Ginn s vivid and provocative book captures many of these in detail for the first time In refreshing our understanding of this obscure but eloquent activism Ginn approaches cultural philanthropy not simply as a project of class self interest nor as fanciful missionary aestheticism Rather he shows how liberal aspirations towards adult education and civic community can be traced in a number of centres of moralising voluntary effort Concentrating on Toynbee Hall in Whitechapel the People s Palace in Mile End Red Cross Hall in Southwark and the Bermondsey Settlement the discussion identifies the common impulses animating practical reformers across these settings Drawing on new primary research to clarify reformers underlying intentions and strategies Ginn shows how these were shaped by a distinctive diagnosis of urban deprivation and anomie In rebutting the common view that cultural philanthropy was a crudely paternalistic attempt to impose rational recreation on the poor this volume explores its sources in a liberal minded social idealism common to both religious and secular conceptions of social welfare in this period

Culture Philanthropy and the Poor in Late Victorian London appeals to students and researchers of Victorian culture moral reform urbanism adult education and philanthropy who will be fascinated by this underrated but lively aspect of the period s social activism

Victorian Visions of Suburban Utopia Nathaniel Robert Walker, 2020-11-17 The rise of suburbs and disinvestment from cities have been defining features of life in many countries over the course of the twentieth century In *Victorian Visions of Suburban Utopia* Nathaniel Walker asks why did we abandon our dense complex urban places and seek to find the best of the city and the country in the flowery suburbs While looking back at the architecture and urban design of the 1800s offers some answers Walker argues that a great missing piece of the story can be found in Victorian utopian literature The replacement of cities with high tech suburbs was repeatedly imagined and breathlessly described in the socialist dreams and science fiction fantasies of dozens of British and American authors Some of these visionaries such as Robert Owen Edward Bulwer

Lytton Edward Bellamy William Morris Ebenezer Howard and H G Wells are enduringly famous while others were street vendors or amateur chemists who have been all but forgotten Together they fashioned strange and beautiful imaginary worlds built of synthetic gemstones lacy metal colonnades and unbreakable glass staffed by robotic servants and teeming with flying carriages As varied as their futuristic visions could be Walker reveals how most of them were unified by a single desperate plea for humanity to have a future worth living we must abandon our smoky poor chaotic Babylonian cities for a life in shimmering gardens *Dictionary Catalogue of the Illinois State Library* Illinois State Library,1912
