My Search for the Illusion of Age Seaton Ducote, 2010-02-01 One of the greatest anxieties of life in America stems from a socially imposed time factor that is accepted in mass without question This accepted time factor holds us in the grips of anxious and mad ambition until our monetary goals are reached by the age of 40 or 50 years of age If we have not achieved the great American dream within this time period a personal crisis begins for many people who believe that they have run out of time and are over the hill This social time factor sets the stage for physical and mental decline

Age of Fracture Daniel T. Rodgers, 2012-09-03 In the last quarter of the twentieth century the ideas that most Americans lived by started to fragment Mid century concepts of national consensus managed markets gender and racial identities citizen obligation and historical memory became more fluid Flexible markets pushed aside Keynesian macroeconomic structures Racial and gender solidarity divided into multiple identities community responsibility shrank to smaller circles In this wide ranging narrative Daniel Rodgers shows how the collective purposes and meanings that had framed social debate became unhinged and uncertain Age of Fracture offers a powerful reinterpretation of the ways in which the decades surrounding the 1980s changed America Through a contagion of visions and metaphors on both the intellectual right and the intellectual left earlier notions of history and society that stressed solidity collective institutions and social

circumstances gave way to a more individualized human nature that emphasized choice agency performance and desire On a broad canvas that includes Michel Foucault Ronald Reagan Judith Butler Charles Murray Jeffrey Sachs and many more Rodgers explains how structures of power came to seem less important than market choice and fluid selves Cutting across the social and political arenas of late twentieth century life and thought from economic theory and the culture wars to disputes over poverty color blindness and sisterhood Rodgers reveals how our categories of social reality have been fractured and destabilized As we survey the intellectual wreckage of this war of ideas we better understand the emergence of our present age of uncertainty
