The Illusion Of Power Political Theater In The English Renaissance:

The Illusion of Power Stephen Orgel, 1975-03-04 Presents a study of political theater in the English Renaissance discussing the differences between a public playhouse and a private or court theater and looking at masques and the role of king in the Renaissance court

Staging Spectatorship in the Plays of Philip Massinger Joanne Rochester, 2017-03-02 The playwrights composing for the London stage between 1580 and 1642 repeatedly staged plays within and other metatheatrical inserts Such works present fictionalized spectators as well as performers providing images of the audience stage interaction within the theatre They are as much enactments of the interpretive work of a spectator as of acting and as such they are a potential source of information about early modern conceptions of audiences spectatorship and perception This study examines on stage spectatorship in three plays by Philip Massinger head playwright for the King's Men from 1625 to 1640 Each play presents a different form of metatheatrical inset from the plays within of *The Roman Actor* 1626 to the masques within of *The City Madam* 1632 to the titular miniature portrait of *The Picture* 1629 moving thematically from spectator interpretations of dramatic performance the visual spectacle of the masque to staged readings of static visual art All three forms present a dramatization of the process of examination and allow an analysis of Massinger's assumptions about interpretation perception and spectator response

The Oxford Handbook of English Prose 1500-1640 Andrew Hadfield, 2013-07-04 *The Oxford Handbook of English Prose 1500-1640* is the only current overview of early modern English prose writing The aim of the volume is to make prose more visible as a subject and as a mode of writing It covers a vast range of material vital for the understanding of the period from jestbooks newsbooks and popular romance to the translation of the classics and the pioneering collections of scientific writing and travel writing from diaries tracts on witchcraft and domestic conduct books to rhetorical treatises

designed for a courtly audience from little known works such as William Baldwin's *Beware the Cat* probably the first novel in English to The Bible The Book of Common Prayer and Richard Hooker's eloquent statement of Anglican belief The Laws of Ecclesiastical Polity The work not only deals with the range and variety of the substance and types of English prose but also analyses the forms and styles of writing adopted in the early modern period ranging from the Euphuistic nature of prose fiction inaugurated by John Lyly's mannered novel to the aggressive polemic of the Marprelate controversy from the scatological humour of comic writing to the careful modulations of the most significant sermons of the age and from the pithy and concise English essays of Francis Bacon to the ornate and meandering style of John Florio's translation of Montaigne's famous collection Each essay provides an overview as well as comment on key passages and a select guide to further reading

Men Viewing Women as Art Objects Christoph E. Schweitzer, 1998 Varied images of women studied in a variety of German texts as a springboard for plot or character A man looks at the portrait of a woman and then sets out to liberate her and make her his own Die Zauberflöte Maria Stuart an oldman while looking at the picture of his youthful beloved reminisces about his failed courtship Storm's Immensee These are just two of many uses of art works depicting women discussed in this book The art work can displace the living woman as in Hauff's Die Bettlerin vom Pont des Arts in Jensen's Gradiva and in Schimmang's Intimität A man looking at a painting of himself E.T.A. Hoffmann's Die Fermate or a man looking at a sculpture comes to appreciate the beauty of the female figure both in art and life Stifter's Der Nachsommer The innovative approach which in part goes back to theories developed by Lessing in his Laokoon yields via a close reading of a variety of the texts new insights into their structure and meaning

The Surprising Effects of Sympathy David Marshall, 1988 Through readings of works by Marivaux Diderot Rousseau and Mary Shelley David Marshall provides a new interpretation of the eighteenth century preoccupation with theatricality and sympathy Sympathy is seen not as an instance of sensibility or natural benevolence but rather as an aesthetic and epistemological problem that must be understood in relation to the problem of theatricality Placing novels in the context of eighteenth century writing about theater fiction and painting Marshall argues that an unusual variety of authors and texts were concerned with the possibility of entering into someone else's thoughts and

feelings He shows how key eighteenth century works reflect on the problem of how to move touch and secure the sympathy of readers and beholders in the realm of both art and life Marshall discusses the demands placed upon novels to achieve certain effects the ambivalence of writers and readers about those effects and the ways in which these texts can be read as philosophical meditations on the differences and analogies between the experiences of reading a novel watching a play beholding a painting and witnessing the spectacle of someone suffering The Surprising Effects of Sympathy traces the interaction of sympathy and theater and the artistic and philosophical problems that these terms represent in dialogues about aesthetics moral philosophy epistemology psychology autobiography the novel and society Performing Power Maria Berlova, 2021-04-19 Performing Power explores 18th century fabrication of the royal image by focusing on the example of King Gustav III 1746 1792 one of Sweden s most acclaimed and controversial monarchs who conspicuously chose theater as the primary media for his image making and role construction The text postulates that Gustav III was motivated by theater s ability to aid him in fulfilling Enlightenment s tenet of broadly educating the populace and inculcating it with royal ideology That he was an amateur actor stage director and playwright were other engines driving his choice The project challenges and expands the commonly accepted perception of Gustav III s contribution to Swedish theater which has generally been limited to founding its National Opera developing its national drama and forming its national dramatic repertoire Maria Berlova presents Gustav III as a performing King who strategically used political events as a framework through which he could embody the image of the ideal or enlightened monarch as presented by Voltaire Through this Performing Power explores the tight relationship and complex bond between theatrical arts and politics This unique study will be of great interest to students and scholars in theater studies 18th century culture and politics
