Japan and the Pacific, 1540-1920 Matsuda Koichiro, 2017-05-15 This volume seeks to capture the rich array of images that define Japan's encounters with the Pacific Ocean Contemporary Japanese most readily associate Pacific with the devastating war that their country fought over a half century ago The ensuing occupation realized a situation that this people had striven to avoid ever since the Portuguese first arrived in 1543 their subjugation by a foreign power But the Pacific Ocean also extended Japan's overseas contacts From antiquity Japanese and their neighbours crossed it to trade ideas and products From the mid 16th century it carried people from more distant lands Europe and America and thus expanded and diversified Japan's cultural and economic exchange networks From the late 19th century it provided the highway to transport Japanese imperial expansion in Northeast Asia and later to encourage overseas migration into the Pacific and the Americas The studies selected for inclusion in this volume along with the introduction explain how the Pacific Ocean thus nurtured images of both threat and opportunity to the island nation that it surrounds

Foreign Friends

David P. Fields, 2019-04-19 The division of Korea in August 1945 was one of the most consequential foreign policy decisions of the twentieth century Despite the enormous impact this split has had on international relations from the Cold War to the present comparatively little has been done to explain the decision In Foreign Friends Syngman Rhee American Exceptionalism and the Division of Korea author David P Fields argues that the division resulted not from a snap decision made by US military officers at the end of World War II but from a forty year lobbying

campaign spearheaded by Korean nationalist Syngman Rhee. Educated in an American missionary school in Seoul, Rhee understood the importance of exceptionalism in American society. Alleging that the US turned its back on the most rapidly Christianizing nation in the world when it acquiesced to Japan's annexation of Korea in 1905, Rhee constructed a coalition of American supporters to pressure policymakers to right these historical wrongs by supporting Korea's independence. Following the attack on Pearl Harbor, Rhee and his Korean supporters reasoned that the American abandonment of Korea had given the Japanese a foothold in Asia, tarnishing the US claim to leadership in the opinion of millions of Asians. By transforming Korea into a moralist tale of the failures of American foreign policy in Asia, Rhee and his camp turned the country into a test case of American exceptionalism in the postwar era. Division was not the outcome they sought, but their lobbying was a crucial yet overlooked piece that contributed to this final resolution. Through its systematic use of the personal papers and diary of Syngman Rhee as well as its serious examination of American exceptionalism, *Foreign Friends* synthesizes religious, intellectual, and diplomatic history to offer a new interpretation of US-Korean relations.

Asian Settler Colonialism Jonathan Y. Okamura, Candace Fujikane, 2008-08-31 *Asian Settler Colonialism* is a groundbreaking collection that examines the roles of Asians as settlers in Hawai'i. Contributors from various fields and disciplines investigate aspects of Asian settler colonialism to illustrate its diverse operations and impact on Native Hawaiians. Essays range from analyses of Japanese, Korean, and Filipino settlement to accounts of Asian settler practices in the legislature, the prison, industrial complex, and the US military, to critiques of Asian settlers' claims to Hawai'i in literature and the visual arts.

Korean American Pioneer Aviators Edward T. Chang, Woo Sung Han, 2015-04-29 *Korean American Pioneer Aviators: The Willows Airmen* is the untold story of the brave Korean men who took to the skies more than twenty years before the Tuskegee Airmen fought in World War II. The tale of the Willows Aviation School connects Korean American and Korean American aviation history. The book also correctly identifies the first Korean aviator and ties the origin of the Korean Air Force to the Korean American community who started the Willows Aviation School in 1920.

[The Oxford Handbook of Asian American History](#) David Yoo, Eiichiro Azuma, 2016 *The Oxford Handbook of Asian American History* brings together 27 essays that engage the state of the field with historiographically informed but creative approaches to this diverse and vibrant area. The chapters trace Asian American history from the beginning of the migration flows toward the Pacific Islands and the American continent to Japanese American incarceration and Asian American participation in World War II, from the experience of exclusion, violence, and racism to the social and political activism of the late twentieth century. The authors explore many of the key aspects of the Asian American experience, including politics, economy, intellectual life, the arts, education, religion, labor, gender, family, urban development, and legal history.
