Maxine Greene

The Imaginations New Beginning:

The Imagination's New Beginning Frederick J. Hoffman, 1967 Inventing New Beginnings Asher D.

Biemann, 2009-01-01 Inventing New Beginnings is the first book length study to examine the conceptual underpinnings of the Jewish Renaissance or return to Judaism that captured much of German speaking Jewry between 1890 and 1938 The book addresses two very fundamental yet hitherto strangely understated questions What did the term renaissance actually mean to the intellectuals and ideologues of the Jewish Renaissance and how did this understanding relate to wider currents in European intellectual and cultural history of the nineteenth and early twentieth centuries It also addresses the larger question of how we can contemplate renaissance as a mode of thought that is conditioned by the consciousness and experience of modernity and that extends to our present time **Arendt, Augustine, and the New Beginning** Stephan

Kampowski, 2008-12-08 A splendid piece of scholarship on a major twentieth century thinker often overlooked This book presents an original scholarly analysis of the work of political theorist Hannah Arendt focusing on an area hitherto ignored the ways in which Augustine s thought forms the foundation of Arendt s work Stephan Kampowski here offers readers a valuable overview of central aspects of Arendt s thought addressing perennial existential and philosophical questions at the heart of every human being **Releasing the Imagination** Maxine Greene, 2000-02-02 This remarkable set of essays

defines the role of imagination in general education arts education aesthetics literature and the social and multicultural context The author argues for schools to be restructured as places where students reach out for meanings and where the previously silenced or unheard may have a voice She invites readers to develop processes to enhance and cultivate their own visions through the application of imagination and the arts Releasing the Imagination should be required reading for all educators particularly those in teacher education and for general and academic readers Choice Maxine Greene with her customary eloquence makes an impassioned argument for using the arts as a tool for opening minds and for breaking down the barriers to imagining the realities of worlds other than our own familiar cultures There is a strong rhythm to the thoughts the arguments and the entire sequence of essays presented here American Journal of Education Releasing the Imagination gives us a vivid portrait of the possibilities of human experience and education s role in its realization It is a welcome corrective to current pressures for educational conformity Elliot W Eisner professor of education and art Stanford University Releasing the Imagination challenges all the cant and cliché littering the field of education today It breaks through the routine the frozen the numbing the unexamined it shocks the reader into new awareness William Ayers associate professor College of Education University of Illinois Chicago Unlock My Imagination Nikith Vinod, 2024-02-07 Unlock my Imagination will captivate young readers and inspire them to see the world better It will unlock the doors to a world where dreams take flight The unique poems spark the imagination to creativity and encourage young minds to explore the beauty of nature and the beautiful things surrounding them This poetry collection expresses thoughts reflections of life and feelings capturing nature s

mysteries and expressing ideas in a rhyming verse Unlock my Imagination is a passport to a world where the possibilities are endless to a child s imagination This book is perfect for kids of all ages **The Return of Nature** John Sallis,2016-09-30 A reflection on the urgent need for a new philosophical understanding of and relationship with nature John Sallis dismantles the traditional conception of nature in this book of imagination and the cosmos In the thought of Emerson Hegel and Schelling Sallis discerns the seeds of an understanding of nature that goes against the modern technological assault on natural things and opens a space for a revitalized approach to the world He identifies two fundamental reorientations that philosophical thought is called on to address today the turn to the elemental in nature and the turn from nature to the cosmos at large He traces the elusive course of the imagination as if coming from nowhere and describes the way in which it bears on the relation of humans to nature Sallis s account demonstrates that a renewal of our understanding of nature is one of the prime imperatives we demand from philosophy today Inspiring for anyone looking to open up their mind to the reflection on other ways to live more closely in tune with their own nature and to the nature that is around them

Phenomenological Reviews **Islands, Identity and the Literary Imagination** Elizabeth McMahon,2016-07-09 Australia is the planet s sole island continent This book argues that the uniqueness of this geography has shaped Australian history and culture including its literature Further it shows how the fluctuating definition of the island continent throws new light on the relationship between islands and continents in the mapping of modernity The book links the historical and geographical conditions of islands with their potent role in the imaginaries of European colonisation It prises apart the tangled web of geography fantasy desire and writing that has framed the Western understanding of islands both their real and material conditions and their symbolic power from antiquity into globalised modernity The book also traces how this spatial imaginary has shaped the modern man who is imagined as being the island s mirror The inter relationship of the island fantasy colonial expansion and the literary construction of place and history created a new man the dislocated and alienated subject of post colonial modernity This book looks at the contradictory images of islands from the allure of the desert island as a paradise where the world can be made anew to their roles as prisons as these ideas are made concrete at moments of British colonialism It also considers alternatives to viewing islands as objects of possession in the archipelagic visions of island theorists and writers It compares the European understandings of the first and last of the new worlds the Caribbean archipelago and the Australian island continent to calibrate the different ways these disparate geographies unified and fractured the concept of the planetary globe In particular it examines the role of the island in this process specifically its capacity to figure a graspable globe in the mind The book draws on the colonial archive and ranges across Australian literature from the first novel written and published in Australia by a convict on the island of Tasmania to both the ancient dreaming and the burgeoning literature of Aboriginal and Torres Strait Islanders in the twenty first century It discusses Australian literature in an international context drawing on the long traditions of literary islands across a range of cultures

The book's approach is theoretical and engages with contemporary philosophy which uses the island and the archipelago as a key metaphor. It is also historicist and includes considerable original historical research.

Threads of Imagination Simra Sayeed, Florina Jasmine Niculescu, 2025-10-12. *Threads of Imagination: A Collection of Young Voices* brings together the creative brilliance of young storytellers from Sharda World School Agra, India and Mircea cel Bătrân National College, Constanța, Romania. This anthology is more than just a collection of short stories and prose; it is a celebration of youthful imagination woven across continents. Each piece reflects the writer's unique perspectives, emotions, and dreams while also revealing the shared values that unite us all. Born out of an international collaboration and cultural exchange, *Threads of Imagination* showcases how creativity knows no boundaries. These young authors prove that when minds connect beyond borders, stories become bridges linking hearts, cultures, and the limitless world of ideas.

The Prophetic Imagination Walter Brueggemann, 2001. In this challenging and enlightening treatment, Brueggemann traces the lines from the radical vision of Moses to the solidification of royal power in Solomon to the prophetic critique of that power with a new vision of freedom in the prophets. Here he traces the broad sweep from Exodus to Kings to Jeremiah to Jesus. He highlights that the prophetic vision and not only embraces the pain of the people but creates an energy and amazement based on the new thing that God is doing. In this new edition, Brueggemann has completely revised the text, updated the notes, and added a new preface.

The Imagination Gift Micah J. Kenney, 2020-03-12. Nine-year-old Leonard Whitten's family seems to have it all: money, big house, expensive cars, successful family business. But that all amounts to nothing in God's eyes as they soon learn. Temptation wreaks through their house like the odor of a skunk as it tears them apart so that the one thing that can bring them back together again is faith in God. Leonard must learn what to do and journeys to a whole new world in his sleep to figure it out. The world of Bu Zing seems to resemble his own reality in the effect that it's a kingdom of chaos and the only way to save it is to put the Prince of Peace on the Throne. It is a feat that many families need to perform around the globe, but will the Whittens be one of them that succeeds?
