The Impact Of Liberalizing International Aviation Bilaterals The Case Of The Northern German Region:

The Impact of Liberalizing International Aviation Bilaterals: The Case of the Northern German Region Holger Hinsch, Benedikt Mandel, Harmut Wolf, David Gillen, 2019-07-15 This title was first published in 2001 This is a study of liberalization in the aviation industry especially bilateral agreements It looks at intra country impacts of air service agreements and quantifies the impact on the northern German region The authors assess the potential impact of air transport liberalization for the German economy and travelers and how its outcomes would impact Hamburg Airport and the Hamburg economy The study focuses on a comprehensive review of institutional and regulatory environment affecting international air travel the economic implications of changing the rules governing international travel and the policy and airport strategy considerations that arise because of these changes

Liberalizing Europe's Skies - A Failure? An Analysis of Airline Entry and Exit in the Post-liberalized German Airline Market, 1993-2006 Nicole Petrick-Felber, 2014-09 The study examines actual entry and exit dynamics in the German airline market in light of the European liberalization process For this purpose flight schedules data was used to derive entry and exit statistics for a set of chosen inner German routes over a period of thirteen years Data was analysed in cross sectional and longitudinal manner while identifying different entry waves and examining incumbent behaviour with respect to entry deterrence strategies Furthermore the market's concentration and structure was tracked to allow a conclusion with respect to the market's contestability after liberalization The results suggest the existence of remaining structural barriers to entry and depict a rather unsatisfactory overall state of the post liberalized market

Liberalization in Aviation Hartmut Wolf, Peter Forsyth, David Gillen, Kai Hüscherlath, Hans-Martin Niemeier, 2016-05-06 The last few decades have witnessed substantial liberalization trends in various industries and countries Starting with the deregulation of the US airline industry in 1978 regulatory restructuring took place in further network industries such as telecommunications electricity or railways in various countries around the world Although most of the liberalization movements were initially triggered by the worrying performances of the respective regulatory frameworks increases in competition and corresponding improvements in allocative and productive efficiency were typically associated with the respective liberalization efforts From an academic perspective the transition from regulated industries to liberalized industries has attracted a substantial amount of research reflected in many books and research articles which can be distilled to three main questions 1 What are the forces that have given rise to regulatory reform 2 What is the structure of the regulatory change which has occurred to date and is likely to occur in the immediate future 3 What have been the effects on industry efficiency prices and profits of the reforms which have occurred to date Liberalization in Aviation brings together renowned academics and practitioners from around the world to address all three questions and draw policy conclusions The book is divided into five sections in turn dealing with aspects of competition in various liberalized markets the emergence and growth of low cost carriers horizontal mergers and

alliances infrastructures and concluding with economic assessments of liberalization steps so far and proposed steps in the future

Pricing Behaviour and Non-Price Characteristics in the Airline Industry James Peoples, 2012-01-03 Provokes the reader to think critically about the emergence of corporate styles of governance management and leadership in higher education institutions HEIs and ways in which the demands of public management and the knowledge economy has shaped and re shaped scholarly work and identity

International Handbook on the Economics of Tourism L. Dwyer, 2007-09-24 Tourism economics is a rapidly expanding field of research and interest in the subject has been growing steadily over the past decade As a field of study it is one of the small band of areas such as energy and transport economics that draws on and applies developments in general economics This highly accessible and comprehensive Handbook presents a cutting edge discussion of the state of tourism economics and its likely directions in future research Leading researchers in the field explore a wide range of topics including demand and forecasting supply transport taxation and infrastructure evaluation and application for policy making Each chapter includes a discussion of its relevance and importance to the tourism economics literature an overview of its main contributions and themes a critical evaluation of existing literature and an outline of issues for further conceptual and applied research Larry Dwyer and Peter Forsyth have assembled a fascinating Handbook that will be an invaluable and much welcomed reference book for tourism economics scholars and researchers at all levels of academe General economics scholars will also find much to engage them within the book

Air Transport in the 21st Century John F. O'Connell, George Williams, 2016-12-05 Airlines are buffeted by fluctuating political and economic landscapes ever changing competition technology developments globalization increasing deregulation and evolving customer requirements As a consequence all sectors of the air transport industry are in a constant state of flux The principle aim of this book is to review current trends in the airline industry and its related suppliers thereby providing an insight into the forces that are changing its dynamics The factors that are reshaping the structure of the industry are examined with a view to identifying the key issues whose impact will be critical in the future The book features two very distinct sections The first contains short contributions from industry executives at CEO VP level from airlines aircraft engine manufacturers safety and navigational provider organisations who have set out their take of where the airline industry is heading This commercial input sets the scene for the book and provides the bridge to the second section which is composed of 18 chapters written by distinguished academic authors Each chapter presents a valuable insight into a specific area of the air transport industry including airlines airports cargo deregulation the environment navigation strategy information technology security and tourism The shared objective of the authors is to describe and explain the core competencies that are determining the current shape of the industry and to examine the forces that will change its direction

going forward The book is written in a management style and will appeal to all levels of personnel who work for airlines across the world It is also written for airport authorities aerospace manufacturers regulatory and government transportation agencies researchers and students of aviation management transport studies tourism and the wider air transport industry

Tourism Economics and Policy Larry Dwyer, Peter Forsyth, Wayne Dwyer, 2010-10-27 Tourism Economics and Policy combines a comprehensive treatment of economic concepts and applications in tourism contexts Topics include tourism demand and forecasting tourism supply and pricing measuring the impacts and benefits of changes in tourism demand tourism investment and infrastructure tourism taxation aviation tourism and the environment including climate change and destination competitiveness The text provides an excellent basis for students to appreciate the relevance of economic analysis to the solution of real life tourism issues and as an input into tourism policy formulation *The Economic Regulation of Airports* Peter Forsyth, David W. Gillen, Andreas Knorr, Otto G. Mayer, David Starkie, 2017-09-29 This tour d horizon book reviews airport regulation and competition in different regions of the world and contrasts different policy perspectives Organized in four parts the first three examine in turn Australasia North America and Europe while the last section looks at the institutional reforms that have taken place in these regions The book covers the regulation of airports and competition in different regions as well as privatization policy the interaction between airports and airlines and regional economic impacts It also examines the linkages between governance structures and forms of regulation The book s global sweep embraces all the large aviation markets bringing together the ideas and challenges of academic economists airlines airport managers consultants and government regulators As well as looking at different methods degrees and paradigms of regulation it also spells out the stress points in a way that makes essential reading for airport operators airline operations staff as well as academic economists concerned with transport studies It also offers interesting reading and important lessons for those concerned with regulation of the utility industries such as telecommunications water and power generation and distribution where infrastructure can be subject to natural monopoly characteristics and where firms competing in downstream markets are dependent on the investment and operational strategies of the upstream infrastructure operator

Airport Competition Peter Forsyth, David Gillen, Jurgen Muller, Hans-Martin Niemeier, 2016-03-23 The break up of BAA and the blocked takeover of Bratislava airport by the competing Vienna airport have brought the issue of airport competition to the top of the agenda for air transport policy in Europe Airport Competition reviews the current state of the debate and asks whether airport competition is strong enough to effectively limit market power It provides evidence on how travellers chose an airport thereby altering its competitive position and on how airports compete in different regions and markets The book also discusses the main policy implications of mergers and subsidies **Internationale Bibliographie der**
