Museums and the First World War Gaynor Kavanagh, 2014-05-15 The book is concerned with how during four demanding dislocating and world changing years that most Victorian of institutions the museum was forced or prompted to meet the extraordinary test of war on the home front Museums were no more immune from the pressures of war than any other institution and the changes in museums during this period some long term others transitory do much to explain the nature and character of museums in Britain today Their history reveals and reflects the broader history of the home front and the willing stumbling confused efforts to do the right thing at the right time They were far away from the fighting the despair and degradation of the battlefields But they were in some measure not only close to but part of a society carrying both its fears and expectations for those operating in a war which disassembled all their lives The discussion covers the progress of museums from just before the advent of war in August 1914 to the immediate post war period 1920 although this is set in the context of museum developments before and after this span of time Museums are considered in relation to the tensions and prevalent conditions of this period Further the nature and effect of the experience of them and the public services they provide in both the long and short term are examined **The British Empire and the First World War** Ashley

Jackson, 2017-06-26 The British Empire played a crucial part in the First World War supplying hundreds of thousands of soldiers and labourers as well as a range of essential resources from foodstuffs to minerals mules and munitions In turn many imperial territories were deeply affected by wartime phenomena such as inflation food shortages combat and the presence of large numbers of foreign troops This collection offers a comprehensive selection of essays illuminating the extent of the Empire's war contribution and experience and the richness of scholarly research on the subject Whether supporting British military operations aiding the British imperial economy or experiencing significant wartime effects on the home fronts of the Empire the war had a profound impact on the colonies and their people The chapters in this volume were originally published in Australian Historical Studies The Journal of Imperial and Commonwealth History First World War Studies or The Round Table The Commonwealth Journal of International Affairs *The First World War, 1914-18* Christine Hatt, 2006 Takes a fresh look at history by using documents as the starting point for studying major events or periods in the past This work

draws on a range of sources from diaries and letters to speeches and legal documents It explores the political situation that provided the breeding ground for war

Imperial War Museum Book of the War at Sea 1914-18 Julian Thompson, 2011-07-22 Based on gripping first hand testimony from the archives of the Imperial War Museum this book reveals what it was really like to serve in the Royal Navy during the First World War It was a period of huge change for the first time the British navy went into battle with untried weapon systems dreadnoughts submarines aircraft and airships Julian Thompson blends insightful narrative with never before published stories to show what these men faced and overcame Officers and men from admirals down to the youngest sailors faced the same dangers at sea in often terrible weather conditions with the ever present prospect of being blown to pieces or choking to death trapped in a compartment or turret as they plunged to the bottom of the sea In their own words they share their experiences from long patrols and pitched battles in the cold rough water of the North Sea to the perils of warfare in the Dardanelles from the cat and mouse search for Vice Admiral Graf von Spee in the Pacific to the dangerous raids on Ostend and Zeebrugge We see what it was like to spend weeks in the cramped smelly submarines of the period or to attack U boats from unreliable airships

British Women's Histories of the First World War Maggie Andrews, Alison Fell, Lucy Noakes, June Purvis, 2020-06-29 This lively collection of essays showcases recent research into the impact of the conflict on British women during the First World War and since Looking outside of the familiar representations of wartime women as nurses munitionettes and land girls it introduces the reader to lesser known aspects of women's war experience including female composers musical responses to the war changes in the culture of women's mourning dress and the complex relationships between war motherhood and politics Written during the war's centenary the chapters also consider the gendered nature of war memory in Britain exploring the emotional legacies of the conflict today and the place of women's wartime stories on the contemporary stage The collection brings together work by emerging and established scholars contributing to the shared project of rewriting British women's history of the First World War It is an essential text for anyone researching or studying this history This book was originally published as a special issue of *Women's History Review*
