Performative Histories, Foundational Fictions Anu Koivunen, 2003-09-17 Films are integral to national imagination Promotional publicity markets domestic films not only as entertaining exciting or moving but also as topical and relevant in different ways Reviewers assess new films with reference to other films and cultural products as well as social and political issues Through such interpretive framings by contemporaries and later generations popular cinema is embedded both in national imagination and endless intertextual and intermedial frameworks Moreover films themselves become signs to be cited and recycled as illustrations of cultural social and political history as well as national mentality In the age of television old films continue to live as history and memory In *Performative Histories Foundational Fictions* Anu Koivunen analyzes the historicity as well as the intertextuality and intermediality of film reception by focusing on a cycle of Finnish family melodrama and its key role in thinking about gender sexuality nation and history Close reading posters advertisements publicity stills trailers review journalism and critical commentary she demonstrates how *The Women of Niskavuori* 1938 and 1958 *Loviisa* 1946 *Heta Niskavuori* 1952 *Aarne Niskavuori* 1954 *Niskavuori Fights* 1957 and *Niskavuori* 1984 have operated as sites for imagining our agrarian past our Heimat and heritage as well as the strong Finnish woman or the weak man in crisis Based on extensive empirical research Koivunen argues that the *Niskavuori* films have mobilized readings in terms of history and memory feminist nationalism and men s movement left wing allegories and right wing morality as well as realism and melodrama Through processes of citation repetition and re cycling the films have acquired not only a heterogeneous and contradictory interpretive legacy but also an affective force

Alexandra Noor

Nieftagodien, Phil Bonner, 2008-11-01 *Alexandra A History* is a social and political history of one of South Africa s oldest townships It begins with the founding of Alexandra as a freehold township in 1912 and traces its growth as a centre of black working class life through the early years before the Nationalist government through the struggles of the apartheid era and into the present day Declared as a location for natives and coloureds Alexandra became home to a diverse population where stand owners tenants squatters hostel dwellers workers and migrants from every corner of the country converged to make a new life for themselves near the economic hub of Johannesburg The stories of ordinary people are at the core of the township s history Based on numerous life history interviews with residents and previously unexamined archive sources the book portrays in vivid detail the daily struggles and tribulations of the people of Alexandra A significant focus is the rich history of political resistance in which political organisations and civic movements organised bus boycotts anti removal and anti pass campaigns and mobilised for housing and a better life for the township s residents But the book also tells the stories of daily life of the making of urban cultures and of the infamous Spoilers and Msomi gangs Over weekends Alexandra came alive as soccer matches church services and shebeens vie for the attention of residents *Alexandra A History* highlights the social

complexities of the township which at times caused tension between different segments of the population Above all else despite a long history of hardship and adversity the community spirit of the people of Alexandra expressed in a fiercely loyal love of their township home has repeatedly triumphed and endured **Distortion and Love** Nigel Rapport,2016-07-07 In this ground breaking book a theory of distortion of the way in which the processes of human life are subject to interference diversion and transformation is developed by way of the art of one of Britain s greatest twentieth century painters and that art s public reception Devoted to his native village of Cookham on Thames Stanley Spencer painted not only landscapes and portraits with loving detail but also the memory feelings which he felt were a sacred part of his consciousness Yet Spencer was also a controversial public figure with some taking the view that his visionary paintings were ugly distortions of human life even marks of an immoral nature Examining how Spencer lived his vision how he painted it and wrote it and also how his attempts to communicate that vision were received by his contemporaries and have continued to be interpreted since his death the author posits distortion as key an intrinsic aspect both of human creation and of human interaction What we intend to make to say to do and have done often mutates in the process of being expressed or put into effect we live amid distortion Love the affective appreciation of one another is then a means by which we accommodate distortion and its consequences in our lives An illustration through Stanley Spencer s story of significant aspects of a human condition this book will appeal across disciplines including to art historians and students of Spencer s work as well as to scholars of anthropology with interests in creativity perception and interpretation *The Big Picture Making Sense Out of Life and Religion* Sean Williams,2009-06-01 This book points out the undeniable similarities between The Gospel of Thomas the psychedelic experience the mystic path and the near death experience in order to put together the big picture and expose the truth about our existence Can you put together the similarities and understand the TRUTH that organized religion and the government have sought to keep from us Do you have the ears to HEAR Bonhoeffer's New Beginning Andrew D. DeCort,2018-09-15 Bonhoeffer s New Beginning investigates the ethics of making new beginnings after devastating moral rupture The work argues that new beginnings must be made in order to sustain the fundamental convictions that it is good to exist and that life in the world with others should be loved without exclusion Bonhoeffer s ethics of new beginning is set in conversation with the thought of four moral philosophers Friedrich Nietzsche Hannah Arendt Jonathan Glover and Jonathan Lear DeCort argues that Bonhoeffer s ethics of new beginning opens and energizes a more promising world affirming moral vision with radical hope for new beginnings vis vis the perceived absence of God in the face of devastation **Handbook of the Theosophical Current** ,2013-01-08 Few religious currents have been as influential as the Theosophical Yet few currents have been so under researched and the Brill Handbook of the Theosophical Current thus represents pioneering research A first section surveys the main people and events involved in the Theosophical Society from its inception to today and outlines the Theosophical worldview A second substantial section covers most significant religions to emerge in the wake of the

Theosophical Society Anthroposophy the Point Loma community the I AM religious activity the Summit Lighthouse Movement the New Age theosophical UFO religions and numerous others Finally the interaction of the Theosophical current with contemporary culture including gender relations art popular fiction historiography and science are discussed at length

William Penn and Early Quakerism Melvin B. Endy Jr., 2015-03-08 William Penn is justly famous for his part in the political development of colonial America Yet he was also one of the leading Quaker theologians of the seventeenth century and the most important translator of Quaker religious thought into social and political reality and his life and works cannot be fully understood without a knowledge of his religious hopes and ideals Melvin Endy goes beyond the political histories biographies and histories of Quakerism to provide a comprehensive account of Penn's religious thought its influence on his political thought and activity and the significance of his life and thought to the Quaker movement His assessment of Penn's place in the Quaker movement and his discussion of Penn's thought in relation to Puritan Spiritualist Anglican and pre-Enlightenment developments has led to an understanding of Quakerism that differs from the recent tendency to stress strongly its Puritan origins and affinities Because of the revisionist nature of this interpretation and the author's conviction that early Quaker thought has never been adequately related to its intellectual milieu this study of Penn has been developed into a vehicle for a new analysis of aspects of early Quaker thought Finally the Pennsylvania venture is examined and assessed as a laboratory in which the vision of a society run according to the principles of a spiritual religion was put to the test Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Dorothy Richardson's 'Art of Memory'* Elisabeth

Bronfen, 2024-07-30 Addresses the question of how identity is formed as a result of corporeal and cultural positioning by mapping Dorothy Richardson's early modernist text *Pilgrimage* against our postmodern interest in real and imagined geographies **James P. Cannon and the Emergence of Trotskyism in the United States, 1928-38** Bryan D.

Palmer, 2021-10-25 Bryan D. Palmer reinterprets the history of labour and the left in the United States during the 1930s through a discussion of the emergence of Trotskyism in the most advanced capitalist country in the world Focussing on James P. Cannon the founder of American Trotskyism Palmer builds on his previously published and award winning book *James P. Cannon and the Origins of the American Revolutionary Left 1890-1928* 2007 with a deeply researched and elegantly written study of Cannon and the Trotskyist movement in the United States from 1928-38 Situating this dissident communist movement within the history of class struggle both national and international Palmer examines how Cannon and others fought to revive a combative trade unionism thwart fascism and the drift to war refuse Stalinism's many degenerations and

build a new Party and a new International both of which would be dedicating to reviving and realizing the possibilities of revolutionary socialism The result is a study that provides a definitive account of the largest and most influential Trotskyist movement in the world in the 1930s a mobilization whose history recasts understandings of the more extensively studied experience of United States working class militancy and the place of the Comintern affiliated Communist Party within it
