Rogers, Mary Ann Rogers, 1991 This work proposes a new approach to literary history that locates the historicity of a literary work of art in the visual image that initiates the work and is fundamental to it a visual metaphor of which the text is the verbalization **Gwenevere and the Round Table** Wendy Berg, 2012 The new book by Wendy Berg puts her acclaimed Red Tree White Tree into practice It shows how the Round Table was an actual practical system of magic demonstrated by Gwenevere who was its prime interpreter within the court of the Round Table Central to the book is the concept of five Faery kingdoms described in the legends with which Gwenevere was closely associated Lyonesse Sorelois Gorre and Oriande about the central Grail kingdom of Listenois The book comprises a graded series of meditations practical magical exercises guided visualisations and a full ritual which take the reader into each of the Faery kingdoms in turn guided by Gwenevere to experience the various challenges and gifts that they each represent The fourth kingdom Oriande takes the reader into the Round Table of the Stars an experiential journey through 12 constellations which very neatly and remarkably demonstrates the continuing work of the Round Table into the future **The Current of Romantic Passion** Jeffrey Cane Robinson, 1991 Deftly probing the ambivalence of Romantic writers on the subjects of passion and beauty Robinson shows how this ambivalence is also central to the experience of the modern critic in Western society Is the reader's experience of beauty in art an escape from troubling reality Or does desire for beauty spur social criticism and reform Does the representation of erotic passion as a sign of social critique exist to be transcended for disinterested spirituality Or is such passion the very site of the struggle for individual and class rights Robinson explores the problematic place of passion and beauty in Romanticism's radical sentiments and reformist politics Tracing the intertwining of desire and disturbance of eros and subversion his meditations encompass poems novels diaries key terms such as Rousseau's sentiment of existence writers characteristic forms of expression or habits of mind Wordsworth's or grammar figures in literary works Goethe's Werther Byron's Lambro problems of genre the relationship of the Romantic poem and the Romantic essay the problem of closure the nature of a scene and larger political questions feminism in Romantic literature erotic passion and representations of radicalism Evoking the original meaning of

Omcawr,2014-05 We have come to a stage where we have to choose a purpose Whether to make human mind a fact gathering machine or a tool for realization Whether to overstuff the mind with data and or to use it as a breather of novelty We have reached the saturation point of information which we cannot decide how to use for humanity We have marvelous understanding of universe and our existence and whether duality or non duality best defines it We have understood a lot regarding God individual soul and regarding universality of humanity Beyond that we ever remain helpless insecure and disease ridden creatures of course violent and over competitive too Our relentless intellectual expedition is taking away one serious purpose of our existence To move from the contingent subject position and enter into the real subjective awareness of both inner and outer world is the missing purpose The ABC talks about that purpose Whether to keep pressing absurd intellectual understanding of this pointless universe or defer it for awhile and come to a bit of realization It talks about putting phased end to institutionalized construction of intellectual mind which eats away the best years of life It talks about silently entering into depths of realization that surpasses all understanding *The Great Lakes* James Oliver Curwood,1909 **Kandinsky's Quest** Igor Aronov,2006 This book studies Vasily Kandinsky s 1866 1944 pre 1908 figurative art that formed the basis for his later abstractions It analyzes many published and unpublished facts of the artist s life and work and brings together numerous historical comparative data from painting literature the social sciences ethnography folklore esthetics and philosophy This study penetrates deeply into Kandinsky s inner world and breaks new ground by interpreting the artist s enigmatic early imagery as his personal many layered
