The Innocent Perception:

The Innocent Perception Frank F. Atanacio, Zaccaria, April, 2003-11-01 This novel has begun to penetrate the nightmarish realms of non ordinary reality Its dramatic accounts will keep you gasping for air when the main character journeys through his own mind searching for peace for his son who died in an accident He is visited by his sister who also died several years back and she wants him to contemplate suicide She emcees the story until the main character is challenged by evil within He questions the existence of God and he sees visions of past loves and friends The healing of his soul comes in several parts as he chooses to help his son who is being victimized in the after life He needs to stop a dark winged creature and needs to help stop the invasion of evil souls called A a A Breathers A a A He was told by a visiting spirit that in order to save the recently dead many of the living must die ItA a s a challenging novel that may put you at odds with God and may make you think that life after death is simply an innocent perception Allen Santoro has challenged the darkness even when his conscious mind is fully awake His thoughts of saving the people he loves keep him flickering in the darkness His mind is tossed in a whirlwind and he believes that suicide is the only way to recover the wounded souls Lessons in Perception Paul Taberham, 2018-06-19 Lessons in Perception seeks to clarify notoriously elusive themes of the avant garde with the use of existing research from the field of psychology There is a long standing history of reference to psychological concepts in relation to avant garde film such as its unique relationship to memory visual perception narrative comprehension and synesthesia Yet direct analysis of these topics in light of existing psychological research remains largely unexplored until now More broadly the aim of the book is to frame avant garde filmmaking practice as a form of practical psychology In doing so two principal arguments are proposed first that many avant garde filmmakers draw creative inspiration from their own cognitive and perceptual capacities and touch on topics explored by actual psychologists secondly that as practical psychologists avant garde filmmakers provide lessons in perception that offer psychological experiences that are largely unrehearsed in commercial cinema **A Course in Miracles** , 2008-06 This volume contains the original Course in Miracles text as well as the Course for Miracles for Teachers and The 360 Lessons Overwhelming Methodology of Deception Max Adam Duncan, 2022-05-04 There was a dilemma with writing this book In order to understand the tip of the iceberg it s necessary to understand the iceberg Unfortunately if you don t believe the tip of the iceberg you re certainly not going to believe the iceberg Jesus said If I tell you earthly things and you don t believe me how can I tell you heavenly things It took me about ten years but I finally made the iceberg believable and understandable to most people The book involves government conspiracy which is the very tip of the iceberg The book explains the iceberg first and works its way up to conspiracy To understand the iceberg it was necessary to push the envelope of the conventional realm of perceived reality and go into metaphysics galactic allies and galactic enemies The book explains how humanity is going to go through a transitional period and into a new paradigm of experience Although this book often quotes from God what we call God and
