S. Lewis's List David Werther,Susan Werther,2015-04-09 In 1962 The Christian Century published C S Lewis s answer to the question What books did most to shape your vocational attitude and your philosophy of life Lewis responded with ten titles ranging from Virgil s Aeneid to James Boswell s The Life of Samuel Johnson and from George Herbert s The Temple to Boethius s The Consolation of Philosophy C S Lewis s List brings together experts on each of the ten books to discuss their significance for Lewis s life and work illuminating his own writing through those he most admired **The Beloved Works of C.S. Lewis** Clive Staples Lewis,1987 **The Inklings, the Victorians, and the Moderns** Christopher Butynskyi,2020-01-28 In The Inklings the Victorians and the Moderns the author examines the dynamics of a small group of twentieth century traditionalists who reacted in opposition to the spirit of the intellectual movements of the modern age In particular he draws on the Inklings e g C S Lewis J R R Tolkien Christian humanists such as G K Chesterton and other proponents of the Great Books and classical liberal learning to outline a position that eschewed reactionary rejections of modern thought but sought to transcend its perceived limitations by asserting the continued value of myth religion liberal education and ancient texts They were more than instigators and wished to reconcile and translate conservative traditional ideas within a progressive modern scientific context The author magnifies the intellectual trends in modern Western thought in the twentieth century and provides the historical context for the resistance to the prominent and convincing tenets of modernity Given the myriad responses he focuses on a more conservative response to reductive definitions born out of well intentioned progressivism The author approaches the subject matter from an historical perspective but utilizes an interdisciplinary discourse to create a multi dimensional explanation of the intellectual atmosphere of the twentieth century **The Rhetorical Power of Children's Literature** John H. Saunders,2016-12-21

The Rhetorical Power of Children's Literature is an edited volume with contributions from established and new scholars of rhetoric offering case studies that analyze a full array of genres in children's literature from picture books to young adult novels. Collectively, this volume's contributions interrogate how children's literature is a powerful yet under-examined space of rhetorical discourse that influences one of the most vulnerable segments of our population. This book is singularly unique given that it will be the first collection of essays on children's literature from the distinct perspective of the field of Communication. Beyond topical novelty, the contributors utilize a range of scholarly methods to analyze instances of the rhetoric of children's literature. Consequently, essays in this volume may be read for both their specific topical content and as exemplars for multiple methodological approaches to the study of the rhetoric of children's literature. Collectively, the contributors set out to contribute to our knowledge of how instances of children's literature operate as rhetorical discourses. The volume is organized by case studies approached through critical rhetorical lenses that analyze specific instances of children's literature from two distinct stages of children's developmental reading experiences including pre-early literacy and fluent reading. Structurally, the book includes eight content chapters divided evenly with four chapters analyzing books for young children and four chapters analyzing books targeting audiences from late childhood to adolescence. An overview of each content chapter accompanies this proposal.
