The Intellectual In Politics:

The Intellectual in Politics H. Malcolm Macdonald, 1966 Three Intellectuals in Politics: Blum, Rathenau, Marinetti James Joll, 2020-04-03

L on Blum 1872 1950 Walther Rathenau 1867 1922 and Filippo Tommaso Marinetti 1876 1944 were all men who had made careers in other fields before they entered political life They were all men who were aware that the development of machines and of mechanised industry had created a new age and they were all concerned to come to terms with it Moreover they all belonged to a European intellectual and artistic world that was truly international and although they never met they had friends and acquaintances in common They were all men of ideas who were in one way or another compelled to go into politics because of the intellectual position they had reached All three experienced the difficulties and frustrations which confront the man of theory in the world of practice and all of them suffered as a result of becoming politicians Entry into politics led to Rathenau's death it endangered Blum's life and made nonsense of Marinetti's The careers of all three men raise the question of how far a man of intelligence or imagination sensibility or originality independence or scrupulousness can in fact stand up to the strain of the ruthless machine politics of the twentieth century and whether the intellectual in politics is not always going to be doomed to failure because of the nature of his own virtues This book is an attempt to give accounts of the character ideas and influence of three Europeans born into the apparently stable world of middle class commerce and industry in the second half of the nineteenth century who realised that that world was changing understood the nature of the changes and helped influence their course James Joll Introduction Three Intellectuals in Politics Each individual study is an admirable vignette Joll is a master of the today rarely practiced art of essay He includes everything worth knowing about a man within a brief compass he possesses an unerring eye for the telling detail along with the significant generalization he combines subjective sympathy with objective criticism in dealing with very different types of men He writes an excellent style and wears his scholarship lightly Klaus Epstein Jewish Social Studies Each essay is in itself first rate This is the political generation that first came to grips with the advanced technology produced by the industrial revolution that first struggled with the social problems ensuing from this technology that came to political maturity during the first great technological war of our era and that lived on to see at least the shadow of a second Furthermore as intellectuals these men are three unusually articulate representatives of that generation Being at the same time three very different men as different Joll suggests as the nations that produced them they can be seen to constitute three aspects of European man encountering the twentieth century Ronald Sanders The New Leader Professor Joll's broad use of the words politics and intellectual is more than justified by the intrinsic interest of the lives of these three men and their usefulness as introductions to the political and cultural atmosphere of France Germany and Italy in the early twentieth century John Ratte Commonweal L on Blum Walther Rathenau and F T Marinetti are the subjects of separate biographic essays here No matter what heights they reached in elective or appointive office it is peculiar that none of these men was able to fulfill his socio

economic aspirations or influence his countrymen to do so during his lifetime None of the three is remembered for what he considered his best achievements and each suffered the humility of recognizing his own failure and impotence This is not a book of hero stories These essays are valuable principally for their historical perspective on the era between the wars Kirkus Reviews Intellectuals in Politics Jeremy Jennings, Tony Kemp-Welch, 2013-04-15 After an introduction to the major issues confronting intellectuals this book explores the various aspects of the intellectual's role including philosophers and academics who have tried to define the function of the intellectual how intellectuals have assumed the status of the conscience of the nation and the voice of the oppressed the interaction of intellectuals with Marxism the place of the intellectual in American society Covering regions as diverse as Israel Algeria Britain Ireland central Europe and America this collection considers the question of whether the intellectual can still lay claim to the language of truth In answering this study tells us much about the modern world in which we live Coverage includes the following thinkers Gramsci Weber Yeats Auden Levy Mailer Walzer Marx and many more The Intellectual in Politics, 1966 **Daniel Patrick Moynihan** Robert A. Katzmann, 2004-03-17 For more than a generation Daniel Patrick Moynihan has inhabited the worlds of ideas and politics and has nourished both Contributors here examine Moynihan's many areas of intellectual concern and influence ethnicity social policy international relations public works and public architecture and not the least government secrecy **The Intellectual in Politics** H. Malcolm Macdonald, 1966 **The Intellectual in Modern Chinese History** Timothy Cheek, 2016-01-05 This vivid narrative history of Chinese intellectuals and public life provides a guide to making sense of China today Timothy Cheek presents a map and a method for understanding the intellectual in the long twentieth century from China's defeat in the Sino Japanese war in 1895 to the Prosperous China since the 2008 Beijing Olympics Cheek surveys the changing terrain of intellectual life over this transformative century in Chinese history to enable readers to understand a particular figure idea or debate The map provides coordinates to track different times different social worlds and key concepts The historical method focuses on context and communities during six periods to make sense of ideas institutions and individual thinkers across the century Together they provide a memorable account of the scenes and protagonists and arguments and ideas of intellectuals and public life in modern China *The Intellectual in Politics* Max Beloff Baron Beloff, 1970-01-01 *Romain Rolland and the Politics of the Intellectual Engagement* David Fisher, 2017-07-05 This intellectual portrait of Romain Rolland 1866-1944 French novelist musicologist dramatist and Nobel prizewinner in 1915 focuses on his experiments with political commitment against the backdrop of European history between the two world wars Best known as a biographer of Beethoven and for his novel *Jean Christophe* Rolland was one of those nonconforming writers who perceived a crisis of bourgeois society in Europe before the Great War and who consciously worked to discredit and reshape that society in the interwar period Analyzing Rolland's itinerary of engaged stands David James Fisher clarifies aspects of European cultural history and helps decipher the ambiguities at the heart of all forms of intellectual engagement

Moving from text to context Fisher organizes the book around a series of debates Rolland's public and private collisions over specific committed stands introducing the reader to the polemical style of French intellectual discourse and offering insight into what it means to be a responsible intellectual Fisher presents Rolland's private ruminations extensive research and reexamination of the function and style of the French man of letters He observes that Rolland experimented with five styles of commitment oceanic mysticism linked to progressive democratic politics free thinking linked to antiwar dissent pacifism and ultimately Gandhism antifacism linked to anti imperialism antiracism and all out political resistance to fascism and most controversially fellow traveling as a form of socialist humanism and the positive side of antifascism Fisher views Rolland's engagement historically and critically showing that engaged intellectuals of that time were neither naive propagandists nor dupes of political parties David James Fisher makes a case for the committed writer and hopes to re ignite the debate about commitment For him Romain Rolland sums up engagement in a striking dialectical formula The Neoconservatives Peter Steinfels, 2013-11-19 In 1979 Peter Steinfels identified a new movement and predicted it would be the decade's most enduring legacy to American politics In a new Introduction he describes its evolution from a reaction to Sixties social change into an entrenched political force promoting an assertive even belligerent foreign policy The Neoconservatives traced the origins and described the beliefs of a movement that had barely been labeled Four decades later the neoconservatives have become the neocons advising presidential candidates manning think tanks churning out books op eds TV interviews and policy proposals They played a key role in pushing the nation into the war in Iraq and continue to argue for an assertive American foreign policy whether toward Iran Afghanistan North Korea or China that does not hesitate to act unilaterally with military power The Neoconservatives probes the roots of this movement as it describes its early days with portraits of Irving Kristol Daniel P Moynihan Daniel Bell Nathan Glazer Samuel Huntington and others Peter Steinfels was the first critic to understand and gauge an emerging philosophy that would grow into an enduring force at the forefront of American foreign policy making The Neoconservatives is an important contribution to our political history

Unveiling the Magic of Words: A Report on "**The Intellectual In Politics**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring.
