The Triggering Procedure of the International Criminal Court Héctor Olásolo,2005-10-01 The Rome Statute unlike the statutes of the International Criminal Tribunals for the former Yugoslavia and for Rwanda creates a permanent court whose dormant jurisdiction covers the territory and includes the nationals of States Parties and is universal in cases where the Security Council makes a referral Besides unlike the ad hoc tribunals which have jurisdiction over specific crisis situations whose personal territorial and temporal parameters have been defined in their respective statutes by the UN Security Council in the case of the ICC it is not possible to determine a priori in which situations the ICC will be involved As a result the most relevant activity of the Court is the determination of those situations regarding which the dormant jurisdiction of the Court will be triggered The book The Triggering Procedure of the International Criminal Court constitutes the first comprehensive analysis of the proceedings that prior to any criminal investigation aim to make such a fundamental determination *Introduction to International Criminal Law* Curtis F. highly controversial successes at prevention and intervention carried out in the 1990s and early 2000s Further chapters examine latest efforts to develop an effective genocide early warning system and examine the complexity of and barriers to prevention The pros and cons of sanctions and the problems of enforcement and evaluation their effectiveness are then discussed Conflicts between state sovereignty and the protection of threatened populations are examined both in historical context and by incorporating the latest thinking Later chapters treat the issue of intervention why and how it has met with only limited success Concentrating on Rwanda and Srebrenica chapter 8 discusses various peace operations that were abject failures and those that were moderately successful The concept of an anti genocide regime is examined in terms of progress in developing such a regime as well as what the international community must do in order to implement it Chapters discuss key issues related to post genocidal periods those that need to be addressed in order to establish stability in a wounded land and populace as well as to prevent future genocides The final chapter asks whether bringing perpetrators to justice has any impact in breaking impunity ensuring deterrence and bringing about reconciliation The contributors to the volume are all noted scholars some of whom specialize in the study of genocide and others who specialize in such areas as early warning peacekeeping and sanctions Fact-Finding without Facts Nancy A. Combs,2010-07-30 Fact Finding Without Facts explores international criminal fact finding empirically conceptually and normatively After reviewing thousands of pages of transcripts from various international criminal tribunals the author reveals that international criminal trials are beset by numerous and severe fact finding impediments that substantially impair the tribunals ability to determine who did what to whom These fact finding impediments have heretofore received virtually no publicity let alone scholarly treatment and they are deeply troubling not only because they raise grave concerns about the accuracy of the judgments currently being issued but because they can be expected to similarly impair the next generation of international trials that will be held at the International Criminal Court After setting forth her empirical findings the author considers their conceptual and normative implications The author concludes that international criminal tribunals purport a fact finding competence that they do not possess and as a consequence base their judgments on a less precise more amorphous method of fact finding than they publicly acknowledge **The Failures of Ethics** John K. Roth,2015-07-30 Defined by deliberation about the difference between right and wrong encouragement not to be indifferent toward that difference resistance against what is wrong and action in support of what is right ethics is civilization s keystone The Failures of Ethics concentrates on the multiple shortfalls and shortcomings of thought decision and action that tempt and incite us human beings to inflict incalculable harm Absent the overriding of moral sensibilities if not the collapse or collaboration of ethical traditions the Holocaust genocide and other mass atrocities could not have happened Although these catastrophes do not pronounce the death of ethics they show that ethics is vulnerable subject to misuse and perversion and that no simple reaffirmation of ethics as if nothing disastrous had happened will do Moral and religious authority has been fragmented and weakened by the accumulated ruins of history and

the depersonalized advances of civilization that have taken us from a bloody twentieth century into an immensely problematic twenty first What nevertheless remain essential are spirited commitment and political will that embody the courage not to let go of the ethical but to persist for it in spite of humankind s self inflicted destructiveness Salvaging the fragmented condition of ethics this book shows how respect and honor for those who save lives and resist atrocity deepened attention to the dead and to death itself and appeals for human rights and renewed spiritual sensitivity confirm that ethics contains and remains an irreplaceable safeguard against its own failures
