The Hungarians A Divided Nation:

The Hungarians Stephen Borsody, 1988 Nationalism and Territory George W. White, 2000 Why do nations come into conflict What factors lead to the horrors of ethnic cleansing This timely book offers clear eyed answers to these questions by exploring how national identity is shaped by place focusing especially on Serbia Hungary and Romania Moving beyond studies of nationalism that consider only the economic and geostrategic value of territory George W White shows that the very core of national identity is intimately bound to specific places Indeed nations define themselves in terms of spaces that have historical linguistic and religious meaning as Serbs have clearly demonstrated in Kosovo These territories are concrete expressions of a nation's identity both past and present With his detailed analysis of the places that define national identity in Southeastern Europe White convincingly shows why territorial disputes so often escalate into war *Between State and Nation* M. Waterbury, 2010-11-14 Based on a qualitative study of Hungary and its changing relationship to the 3 million ethnic Hungarians in neighbouring states this book argues that it is not the ties of ethnicity but the political interests of kin state elites that drives states in Eastern Europe to take action on behalf of ethnic kin in neighboring states **Stalin's Legacy in Romania** Stefano Bottoni, 2018-05-29 This study explores the little known history of the Hungarian Autonomous Region HAR a Soviet style territorial autonomy that was granted in Romania on Stalin's personal advice to the Hungarian Székely community in the summer of 1952 Since 1945 a complex mechanism of ethnic balance and power sharing helped the Romanian Communist Party RCP to strengthen with Soviet assistance its political legitimacy among different national and social groups The communist national policy followed an integrative approach toward most minority communities with the relevant exception of Germans who were declared collectively responsible for the German occupation and were denied political and even civil rights until 1948 The Hungarians of Transylvania were provided with full civil political cultural and linguistic rights to encourage political integration The ideological premises of the Hungarian Autonomous Region followed the Bolshevik pattern of territorial autonomy elaborated by Lenin and Stalin in the early 1920s The Hungarians of Székely Land would become a titular nationality provided with extensive cultural rights Yet on the other hand the Romanian central power used the region as an instrument of political and social integration for the Hungarian minority into the communist state The management of ethnic conflicts increased the ability of the PCR to control the territory and at the same time provided the ruling party with a useful precedent for the far larger nationalization of the Romanian communist regime which starting from the late 1950s resulted in ethnicized communism an aim achieved without making use of pre war nationalist discourse After the Hungarian revolution of 1956 repression affected a great number of Hungarian individuals accused of nationalism and irredentism In 1960 the HAR also suffered territorial reshaping its Hungarian born political leadership being replaced by ethnic Romanian cadres The decisive shift from a class dictatorship toward an ethnicized totalitarian regime was the product of the Gheorghiu Dej era and as such it represented the logical outcome of a long standing ideological fouling of

Romanian communism and more traditional state building ideologies Irredentism Thomas Ambrosio, 2001-09-30 The idea of national unification has long been a powerful mobilizing force for nationalist thinkers and ethnic entrepreneurs since the rise of nationalist ideology in the late 1700s This phenomenon came to be known as irredentism During the Cold War irredentist projects were largely subordinated to the ideological struggle between East and West After the Cold War however the international system has witnessed a proliferation of such conflicts throughout Europe and Asia Ambrosio integrates both domestic and international factors to explain both the initiation and settlement of irredentist conflicts His central argument is that irredentist states confront two potentially contradictory forces domestic nationalism and pressure from the international community Irredentist leaders are forced to reconcile their nationalist policies with pressures from the international plane At the same time irredentist leaders exploit perceived windows of opportunity in pursuit of their nationalist goals Ambrosio examines in depth the past present and possible irredentist projects of Serbia Croatia Hungary and Armenia within a theoretical and comparative framework His conclusions yield significant theoretical findings and important policy implications for both scholars of ethnic conflicts nationalism and international relations and policy makers *Talk of the Nation* Zsuzsa Csergo, 2018-07-05 How can democratization coupled with transnational integration resolve conflicts over cultural difference in places that are marked by legacies of nationalist competition This book explores that question through a comparative study of contestations over language use in the heart of the post Communist region Zsuzsa Csergo notes that newly independent governments looked to rejoin the West in particular the European Union while at the same time asserting control over the institutions they considered key to the reproduction of national cultures These national projects resulted in renewed salience for minority language rights and a complicated politics triggering EU concerns about the treatment of regional cultural minorities Csergo's field research in Romania Hungary and Slovakia leads her to make a bold claim about the primacy of domestic politics in the construction of democratic solutions to the conundrum of nation building and minority rights *Talk of the Nation* breaks new ground by focusing on both majority and minority political elites and parties in interethnic relations Csergo challenges arguments about the overwhelming importance of international influence Her book demonstrates that the role of domestic political actors in interethnic reconciliation is not merely that of compliance with international requirements or effectiveness in responding to external pressure they are largely guided by the internal democratic process *"Ligeti's Laments: Nostalgia, Exoticism, and the Absolute"* Amy Bauer, 2017-07-05 When the Hungarian composer György Ligeti passed away in June 2006 he was widely feted as being one of the greatest composers of our time His complete published works were recorded during his lifetime and his music continues to inspire a steady stream of performances and scholarship Ligeti's *Laments* provides a critical analysis of the composer's works considering both the compositions themselves and the larger cultural implications of their reception Bauer both synthesizes and challenges the prevailing narratives surrounding the composer's long career and uses the theme of lament to inform a discussion of specific

musical topics including descending melodic motives passacaglia and the influence of folk music But Ligeti laments in a larger sense his music fuses rigour and sensuality tradition and the new and influences from disparate high and low cultures with a certain critical and ironic distance reflected in his spoken commentary as well as in the substance of his music The notions of nostalgia exoticism and the absolute are used to relate works of different eras and genres along with associated concepts of allegory melancholy contemporary subjectivity and the voice *Expanding European Unity - Central and Eastern Europe*, 2023-08-14 Since the fall of the Berlin wall in 1989 the former Communist countries of Central and Eastern Europe have been pushing for a quick return to Europe The project of expanding European unity is in full progress however so far none of the former Soviet bloc countries have been able to join the European Union Technical problems related to financial management and administrative matters still have to be overcome but more fundamental issues are also at stake what are the borders of Central and Eastern Europe And will the eastward expansion of the European Union be conducted on the basis of western images and stereotypes of the East This volume examines the state of affairs after ten years of attempts to further enlarge the Union Written by authors from the East as well as the West some of the articles focus on the general issue of how to distinguish between Western Central and Eastern Europe while others discuss the specific situation of the countries that are closest to joining the European Union Poland the Czech Republic and Hungary **Rule of Law in Crisis** Martin Belov, 2022-12-30 This book addresses the current crisis that threatens the rule of law and has led to the need for its adjustment as normative concept legal principle and pragmatic guideline for the behaviour of political players Rule of law is a pillar of the constitutional orders and a key principle of national international and EU law Yet rule of law is subject to pressure for change in the face of emergency crisis and transition This book explores how constitutional crisis emergency constitutionalism and constitutional polycrisis assert pressures for the transformation of rule of law and thus produce a state of flux It examines the rule of law from the viewpoint of constitutional imaginaries memory politics and identity politics It critically assesses the responses given by the EU and its member states to the current crisis The work also provides an analysis of the most important challenges to rule of law stemming from the performance of constitutional courts including the risks of judicial activism politicization of the courts and judicialization of politics The book will be an invaluable resource for researchers academics and policy makers working in the areas of Constitutional Law and Political Science **The Cold War** Spencer C.
