The Hyperactive Child And The Family:

The Hyperactive Child and the Family John F. Taylor,1983 The Hyperactive Child Book Patricia Kennedy,Leif G. Terdal, Lydia Fusetti,1994-08-15 The mother of a hyperactive child a pediatrician and a child psychologist offer a practical up to date guide to treating educating and living with a child with attention deficit hyperactivity disorder Your Hyperactive Child Barbara Ingersoll,2011-05-04 The authoritative handbook provides a wealth of urgently needed information to help parents of a hyperactive child understand and cope with their child s baffling behavior 100 Questions & Answers about Your Child's Attention Deficit Hyperactivity Disorder Ruth D. Nass,Fern Leventhal,2005 The only volume available to provide the doctor s and patient s view This book is an invaluable resource for anyone coping with the physical and emotional turmoil of this disorder

The Hyperactive Child and the Family John F. Taylor,1980 A clinical psychologist offers practical guidance for parents teachers and counselors of hyperactive children by providing a checklist of hyperactive behavior evaluating the three methods of treatment and telling how to help the hyperactive child face the realities of daily life *The Heredity of Behavior Disorders in Adults and Children* D.L. Pauls,S.M. Singer,S.G. Vandenberg,2012-12-06 Current trends in morbidity suggest that by the beginning of the twenty first century psychiatric illness may become the most pressing problem in public health in many of the advanced countries As ably demonstrated by Vandenberg Singer and Pauls the principal identifiable etiology of the major psychiatric disorders is heredity if progress is to be made in prevention and treatment of these disorders it may have to come from improved understanding of their inheritance A relentless increase has been observed in the frequency of mood disorders primarily major depression but also manic depressive illness appearing earlier and more frequently in each age cohort born since approximately 1940 Because major depression is a recurrent disorder whose episodes increase in frequency with age the number of observed depressions can be expected to increase dramatically as these people reach middle and old age The rate of suicide has also increased enormously according to birth cohort Starting with people born around 1935 the rate of suicide between 15 and 19 years of age has increased more than 10 times from the earliest to the most recent birth cohorts What is not clear is if there will be a compensatory reduction in suicide rate as this cohort ages because people likely to commit suicide will have done so earlier or if this presages a general increase in suicide comparable to the increase in mood disorders and perhaps a function of them

Intervention with Hyperactive Children Marvin J. Fine,2012-12-06 Hyperactivity has historically been a major concern of parents and teachers Over the years the term has come to mean many things to different persons For some the term is synonymous with brain damage and the prescribed course of treatment is medical For others the term is a catch all covering almost any behaviors that are found to be obtrusive or disruptive by the child s caretakers In recent years there has been a great outcry by some over the use and abuse of the term as a justification for controlling the child Others have expressed great concern over the excessive inappropriate or poorly monitored use of drug therapy with regard to hyperactivity The current interest in

hyperactive children is reflected in several major books Cantwell 1975 Feingold 1975 Fine 1977 Ross and Ross 1976 Wender 1973 Safer and Allen 1976 Stewart and Olds 1973 The number of published papers and symposia over the last several years is also voluminous The main questions posed by practitioners revolve around intervention with the hyperactive child The growing literature on intervention has identified a variety of approaches with demonstrated utility including drug therapy behavior modification biofeedback sensory motor training cognitive training environmental manipulations and family therapy
