The In Between God:

The Go-Between God John V Taylor, 2021-01-30 John Taylor's most famous book is a reminder that the Holy Spirit urges us toward a communal humanity Taylor's is a message especially pertinent in an age of crushing multinational capitalism and a rising tide of individual greed and fear of the Other Based on his Cadbury lectures delivered in 1967 The Go Between God is now considered one of the most important works ever written on the Holy Spirit and mission This edition contains a new foreword by Jonny Baker

The Oeconomy of the Covenants Between God and Man, Comprehending a Complete Body of Divinity ... Faithfully Translated from the Latin, and Carefully Revised, by William Crookshank, D.D. To which is Prefixed The Life of the Author Herman WITS, 1774

God and the Between William Desmond, 2008-04-15 An original work which rethinks the question of God in a constructive spirit drawing its conclusions by considering ideas received from both philosophy and religion Makes an important new contribution to the ongoing scholarly debates surrounding the intersection of philosophy and religion Suggests that this junction is not just dictated by religion having to prove its credentials to rational philosophy but that it is also a matter of philosophy wondering if religion is the ultimate partner in dialogue Includes discussion of a wide range of significant thinkers both traditional and contemporary such as Plotinus Spinoza Kant Hegel and Nietzsche and his successors Completes a trilogy of works by William Desmond complementing its companion volumes *Being and the Between* and *Ethics and the Between*

The œconomy of the covenants between God and man, tr. and revised by W. Crookshank. To which is prefixed, The life of the author Herman Wits, 1763

Historical Essays on the Worship of God Thomas Kimber, 1890

The Love of God Christopher W. Morgan, 2016-09-30 Our understanding of the love of God has been tragically distorted The comfortable sentimentalized version we commonly encounter today is far from the biblical depiction of God's love Featuring contributions from well known evangelical scholars this multi disciplinary study presents the biblical view of the love of God from the perspectives of systematic theology biblical theology apologetics pastoral theology and ethics The contributors including D A Carson Andreas J K stenberger Raymond C Ortlund Jr Robert L Plummer and many others address a variety of issues related to how God's love is expressed in the Old and New Testaments the Trinity apologetics Christian living social justice and more This addition to the *Theology in Community* series will promote clear sound thinking about what Scripture means when it declares that God is love Part of the *Theology in Community* series

Within the Love of God Anthony Clarke, Andrew Moore, 2014-11-27 The doctrine of God is central to theology for it determines the way in which other regions of Christian doctrine are articulated yet work on this topic in its own right has been occluded recently by treatments of the Trinity or divine passibility This collection of specially commissioned essays presents major treatments of key themes in the doctrine of God motivated by but not restricted to the work of Professor Paul S Fiddes to whom it is offered as a Festschrift It includes invigorating discussions of the biblical and non biblical sources for the doctrine of God and the section on Metaphysics and

the Doctrine of God examines some of the most important conceptual questions arising in contemporary theological debate about the being and nature of God and God's relations to the world. The final section of the book on God and Humanity will be highly relevant to scholars working in the fields of theological anthropology, moral and political theology, on interfaith relations, on theology and literature, or who are interested in the impact of contemporary science on the doctrine of God. The introduction relates the essays in the book to the work of Professor Fiddes and to wider debates in Christian doctrine. This volume brings together a team of internationally distinguished scholars from a wide range of theological, philosophical and religious perspectives and it will stimulate fresh thinking and new debate about this most central of topics in Christian theology.

Miracles and the Kingdom of God Myrick C. Shinall Jr., 2018-03-28 In the last decade or so scholarship on the miracles of Jesus has shifted from reconstructions of the historical Jesus to the questions of why and to what end early Jesus followers told stories about miracles. Myrick Shinall contends that Mark and Q contain two distinct ways of remembering Jesus's miracles in relation to his proclamation of the kingdom of God. He compares three cases of Mark/Q overlaps which feature miracles: the Beelzebul controversy, the commissioning of the disciples, and the testing or temptation narratives, and finds that in Mark the miracles and the kingdom of God both point to Jesus' identity as a divine figure, whereas in Q Jesus and the miracles point instead to the coming kingdom of God. Shinall further argues that these different views represent different strategies for creating group identities for Jesus followers, strategies that came into conflict as the movement's identity coalesced. At length he shows that the mix of high and low Christology in the Synoptic tradition requires reframing of the current debate over how early a high Christology developed in the nascent Jesus movement.

The Self-Disclosure of God William C. Chittick, 2015-03-26 The Self-Disclosure of God offers the most detailed presentation to date in any Western language of the basic teachings of Islam's greatest mystical philosopher and theologian. It represents a major step forward in making available to the Western reading public the enormous riches of Islamic teachings in the fields of cosmology, mystical philosophy, theology, and spirituality. The Self-Disclosure of God continues the author's investigations of the world view of Ibn al Arab, the greatest theoretician of Sufism and the seal of the Muhammadan saints. The book is divided into three parts dealing with the relation between God and the cosmos, the structure of the cosmos, and the nature of the human soul. A long introduction orients the reader and discusses a few of the difficulties faced by Ibn al Arab's interpreters. Like Chittick's earlier work, The Sufi Path of Knowledge, this book is based primarily on Ibn al Arab's monumental work, al-Futūḥāt al-Makkiyyah, The Meccan Openings. More than one hundred complete chapters and subsections are translated, not to mention shorter passages that help put the longer discussions in context. There are detailed indices of sources, Koranic verses, and hadiths. The book's index of technical terminology will be an indispensable reference for all those wishing to delve more deeply into the use of language in Islamic thought in general and Sufism in particular.

God is my theme in this work which you my dearest son Marcellinus suggested and which is due to you by my promise I have undertaken its defence against those who prefer their own gods to the Founder of this city a city surpassingly glorious whether we view it as it still lives by faith in this fleeting course of time and sojourns as a stranger in the midst of the ungodly or as it shall dwell in the fixed stability of its eternal seat which it now with patience waits for expecting until righteousness shall return unto judgment and it obtain by virtue of its excellence final victory and perfect peace A great work this and an arduous but God is my helper an excerpt
