The Inequality Of Pay:

The Inequality of Pay Henry Phelps Brown, 1979-04-12 Oxford University Press 1979 04 01 1979 Paperback Book Condition Used Very Good USED PAPERBACK VERY GOOD CONDITION PUBLISHED IN 1979 CLEAN TIGHT TEXT WITH NORMAL READING WEAR TO COVER NAME TO FRONT FACING PAGE *The Inequality of Pay* Ernest Henry Phelps Brown, 1977-01-01 *The Gender Pay Gap* The New York Times Editorial Staff, 2018-12-15 Despite increasing awareness the gender pay gap has yet to close In 2018 women still earned about eighty cents for every dollar men did and that number changes when factoring in a woman's education level profession and ethnicity These articles explore the discussion surrounding the gender pay gap and highlight how our understanding of it has evolved in the past decade Beginning with Obama's signing of the Lilly Ledbetter Fair Pay Act in his first weeks as president and leading to some of the complicated economics of paid family leave these articles explore the factors that create a gender pay gap and point to possible solutions Legalizing Gender Inequality Robert L. Nelson, William P. Bridges, 1999-05-28 Legalizing Gender Inequality challenges existing theories of gender based pay inequality The book argues that earnings differentials cannot be explained adequately by market forces or society wide sexism and that the court's reliance upon these theories has tended to legitimate and to legalize a crucial dimension of gender inequality **Income Inequalities in the Former Soviet Union and Its Republics** Henryk Flakierski, 2017-07-05 This study analyses the newly available statistical evidence on income distribution in the former Soviet Union both by social group and by republic and considers the significance of inequalities as a factor contributing to the demise of the Communist regime Among the topics covered are wage distribution interbranch and skill differentials and distribution in terms of gender education and age income distribution for the former USSR as a whole and wage and income distribution patterns for each republic with analysis of regional differences **The New Geography of Global Income Inequality** Glenn Firebaugh, 2009-07 The surprising finding of this book is that contrary to conventional wisdom global income inequality is decreasing Critics of globalization and others maintain that the spread of consumer capitalism is dramatically polarizing the worldwide distribution of income But as the demographer Glenn Firebaugh carefully shows income inequality for the world peaked in the late twentieth century and is now heading downward because of declining income inequality across nations Furthermore as income inequality declines across nations it is rising within nations though not as rapidly as it is declining across nations Firebaugh claims that this historic transition represents a new geography of global income inequality in the twenty first century This book documents the new geography describes its causes and explains why other analysts have missed one of the defining features of our era a transition in inequality that is reducing the importance of where a person is born in determining his or her future well being Inequality James K. Galbraith, 2016 Over the past thirty years the issue of economic inequality has emerged from the backwaters of economics to claim center stage in the political discourse of America and beyond a change prompted by a

troubling fact numerous measures of income inequality especially in the United States in the last quarter of the twentieth century have risen sharply in recent years Even so many people remain confused about what exactly politicians and media persons mean when they discuss inequality What does economic inequality mean How is it measured Why should we care Why did inequality rise in the United States Is rising inequality an inevitable feature of capitalism What should we do about it Inequality What Everyone Needs to Know takes up these questions and more in plain and clear language bringing to life one of the great economic and political debates of our age Inequality expert James K Galbraith has compiled the latest economic research on inequality and explains his findings in a way that everyone can understand He offers a comprehensive introduction to the study of economic inequality including its philosophical and theoretical origins the variety of concepts in wide use empirical measures and their advantages and disadvantages competing modern theories of the causes and effects of rising inequality in the United States and worldwide and a range of policy measures The topic of economic inequality is going to become only more important as we approach the 2016 presidential elections This latest addition to the popular What Everyone Needs to Know series from Oxford University Press will tell you everything you need to know to make informed opinions on this significant issue

Comparing European Workers David Brady, 2011-04-07 This first of two companion volumes places the labor markets workplaces jobs and workers of Europe in comparative perspective and focuses on the politics economics sociology and history of work and workers in Europe It compares contemporary patterns and the recent history of European workers with other models of work worldwide

The Economic System and Income Distribution in Yugoslavia Henryk Flakierski, 2016-07-22 This is the second volume in the author's ongoing inquiry into the extent of income inequality in the East European socialist countries and the effect of market oriented reforms on patterns of income distribution Although there has been remarkably little empirical research on this question in part because of the problem of obtaining reliable data both proponents and opponents of reforms voice strong views on this subject with both sides however tending to grant the assumption that decentralization and the increased use of market mechanisms will increase inequality In this study as in the preceding volume Economic Reform and Income Distribution A Case Study of Hungary and Poland Henryk Flakierski undertakes a study of the data in order to shed light on this question this time with reference to the most decentralized of the East European economies and the one in which marketization of the economy has been most advanced
