The Inland Ice And Other Stories:

The Inland Ice and Other Stories Éilís Ní Dhuibhne, 1997 This collection of short stories from one of Ireland's finest writers deals with obsessive love. The people in these stories are passionate, flawed, and often selfish but ultimately vindicated by the power of their humanity and reason.

Handbook of Research on Translating Myth and Reality in Women Imagery Across Disciplines Ciolăneanu, Roxana, Marinescu, Roxana-Elisabeta, 2020-11-13 Women have been represented in art, literature, music, and more for decades with the image of the woman changing through time and across cultures. However, rarely has a multidisciplinary approach been taken to examine this imagery and challenge and possibly reinterpret old, women-related myths and other taken-for-granted aspects, e.g., grammatically inclusive gender. Moreover, this approach can better place the ideologies as myth creators and propagators, identify and deconstruct stereotypes and prejudices, and compare them across cultures with the view to spot universal vs. culturally specific approaches as far as women's studies and interpretations are concerned. It is important to gather these perspectives to translate and unveil new interpretations to old ideas about women and the feminine that are universally accepted as absolute, impossible to challenge, and invalidated truths. The *Handbook of Research on Translating Myth and Reality in Women Imagery Across Disciplines* is a comprehensive reference book that provides an interdisciplinary and multidisciplinary perspective on the perception and reception of women across time and space. It tackles various perspectives: gender studies, linguistic studies, literature, and cultural studies, discourse analysis, philosophy, anthropology, sociology, etc. Its main objective is to present new approaches and propose new answers to old questions related to gender inequalities, stereotypes, and prejudices about women and their place in the world. Covering significant themes that include the ethics of embodiment, myth of motherhood at the crossroad of ideologies, translation of women's experiences and ideas across cultures, and discourses on women's rehabilitation and dignification across centuries, this book is critical for linguists, professionals, researchers, academicians, and students working in the fields of women's studies, gender studies, cultural studies, and literature, as well as other related categories such as political studies, education studies, philosophy, and the social sciences.

The Island of the Women and Other Stories George Mackay Brown, G Mackay Brown, 2014-03-27 In these six stories, George Mackay Brown leads us back along the sweep of Orkney's past and beyond, even that to the remoteness of fable. He reveals the timelessness of the lived moment and the constants of island life in the harvest of sea and land and the compulsions of voyage and homecoming.

Immigrant Women's Voices and Integrating Feminism Into Migration Theory Nyemba, Florence, Chitiyo, Rufaro, 2020-12-25 Migration is a multifaceted phenomenon that plays a critical role in today's world, yet there have been few attempts to look beneath the surface of the mass movements of people. Particularly, the changing face of migration is becoming more feminized with women increasingly moving as independent or single migrants rather than as the wives, mothers, or daughters of male migrants. Yet in literature on migration, the voices of women are still silent. This creates an urgent need to advance academic research on female

international migration by examining women as independent migrants

Immigrant Women's Voices and Integrating Feminism Into Migration Theory comprehensively documents the experiences of immigrant women across the globe and the important theories that define their experiences. The chapters give firsthand accounts of women speaking about their own experiences on migration and topics associated with women and migration. This book aims to give women their own voice and to stand apart from previous literature in which male relatives spoke on behalf of immigrant women to tell their stories for them. While highlighting topics on women in migration including feminism, gendered social roles, first person narratives, and the female identity, this book is ideally for professionals in social science disciplines as well as practitioners, stakeholders, researchers, academicians, and students wanting to expand their knowledge on women and migration, gender violence, and women empowerment.

The Female and the Species Maureen O'Connor, 2010. Describing the Irish as female and bestial is a practice dating back to the twelfth century while for women inside and outside of Ireland, their association with children, animals, and other savages has had a long history. A link among systems of oppression has been asserted in recent decades by some feminists, but linking women's rights with animal advocacy can be controversial. This strategy responds to the fact that women's inferiority has been alleged and justified by appropriating them to nature, an appropriation that colonialism has also practiced on its racial and cultural others. Nineteenth-century feminists braved such associations; for instance, often asserting vegetarianism as a form of rebellion against the dominant culture. Vegetarianism and animal advocacy have uniquely Irish implications. This study examines a tradition of Irish women writers deploying the natural as a gesture of resistance to paternalist regulation of female energies and as a self-consciously elaborated stage for the performance of Irish identity. They call into question the violent dislocations and disavowals required by figurative practices, particularly when utilizing Irish topography, an already unnatural cultural construct shaped by conflict and suffering.

Folk Women and Indirection in Morrison, N Dhuibhne, Hurston, and Lavin Jacqueline Fulmer, 2017-11-30. Focusing on the lineage of pivotal African American and Irish women writers, the author argues that these authors often employ strategies of indirection via folkloric expression when exploring unpopular topics. This strategy holds the attention of readers who would otherwise reject the subject matter. The author traces the line of descent from Mary Lavin to N Dhuibhne and from Zora Neale Hurston to Toni Morrison, showing how obstacles to free expression, though varying from those Lavin and Hurston faced, are still encountered by Morrison and N Dhuibhne. The basis for comparing these authors lies in the strategies of indirection they use, as influenced by folklore. The folkloric characters these authors depict, wild denizens of the Otherworld and wise women of various traditions, help their creators insert controversy into fiction in ways that charm rather than alienate readers. Forms of rhetorical indirection that appear in the context of folklore, such as signifying practices, masking, sly civility, and the grotesque or bizarre, come out of the mouths and actions of these writers' magical and magisterial characters. Old traditions can offer new ways of discussing issues such as sexual expression, religious beliefs, or issues of reproduction. As differences between

times and cultures affect what can and cannot be said folkloric indirection may open up a vista to discourses of which we as readers may not even be aware Finally the folk women of Morrison N Dhuibhne Hurston and Lavin open up new points of entry to the discussion of fiction rhetoric censorship and folklore The Fortunate Island, and Other Stories Charles Heber Clark,2023-08-03 Reproduction of the original *Irish Women Writers and the Modern Short Story* Elke D'hoker,2016-07-28 This book traces the development of the modern short story in the hands of Irish women writers from the 1890s to the present George Egerton Somerville and Ross Elizabeth Bowen Mary Lavin Edna O'Brien Anne Enright and Claire Keegan are only some of the many Irish women writers who have made lasting contributions to the genre of the modern short story yet their achievements have often been marginalized in literary histories which typically define the Irish short story in terms of its oral heritage nationalist concerns rural realism and outsider hero Through a detailed investigation of the short fiction of fifteen prominent writers this study aims to open up this critical conceptualization of the Irish short story to the formal properties and thematic concerns women writers bring to the genre What stands out in thematic terms is an abiding interest in human relations whether of love the family or the larger community In formal terms this book traces the overall development of the Irish short story highlighting both the lines of influence that connect these writers and the specific use each individual author makes of the short story form **Spreading Misandry** Paul Nathanson,Katherine K. Young,2001 Paul Nathanson and Katherine Young argue that men have routinely been portrayed as evil inadequate or as honorary women in popular culture since the 1990s These stereotypes are profoundly disturbing the authors argue for they both reflect and create a hatred and thus further fracture an already fractured society In *Spreading Misandry* they show that creating a workable society in the twenty first century requires us to rethink feminist and other assumptions about men The first in an eventual three part series *Spreading Misandry* offers an impressive array of evidence from everyday life case studies from movies television programs novels comic strips and even greeting cards to identify a phenomenon that is just now being recognised as a serious cultural problem Discussing misandry the sexist counterpart of misogyny the authors make clear that this form of hatred must not be confused with reverse sexism or anger and should neither be trivialised nor excused They break new ground by discussing misandry in moral terms rather than purely psychological or sociological ones and refer critically not only to feminism but to political ideologies on both the left and the right They also illuminate the larger context of this problem showing that it reflects the enduring conflict between the Enlightenment and romanticism inherent flaws in postmodernism and the dualistic us versus them mentality that has influenced Western thought since ancient times A groundbreaking study *Spreading Misandry* raises serious questions about justice and identity in an increasingly polarised society It is important for anyone interested in ethics gender popular culture or are just concerned about the society we are creating *Spreading Misandry* does make a convincing argument that since the 1990s Men have become society's official scapegoats and held responsible for all evil Women are society's official victims and held responsible
