The Idea Of Revelation In Recent Thought:

The Idea of Revelation in Recent Thought John Baillie, 1956 Nothing is more central to Christian thought or has been from the beginning than the belief that God has revealed Himself His mind and His will to man The ideal of revelation continues to present its challenge in men's lives and the great philosophers no less than the community of believers have wrestled with it Dr John Baillie reminds us that the question has not always been thought difficult that throughout the greater part of Christian history any intelligent schoolboy could have stated the meaning of revelation in terms not contradictory to the formulation of it by St Thomas Aquinas The value of this small book can hardly be exaggerated While Dr Baillie carefully compares and summarizes the positions of modern theologians his main concern is with the impact of revelation in men's lives The wisdom the sincerity and objectivity with which he approaches his subject make this a truly distinguished contribution to the theological literature addressed to a general reader **Systematic Theology, Volume 1, Fourth Edition** James Leo Garrett, 2014-09-14 Rivals the major systematic theologies of this century Baptist History and Heritage Journal July 1996 One of the characteristics of Garrett's system that needs especially to be noted is its balanced judicious and nearly invariably objective presentation of materials While holding true to the teachings of his own Baptist faith Garrett so carefully and judiciously presents alternatives that teachers and students from other confessional and denominational positions will find his work instructive Consensus 1997 If one is searching for an extensive exposition of the biblical foundations and historical developments of the various loci of systematic theology there is no more complete presentation in a relatively short work than this Pastors will especially find this feature to be a real help in teaching theology It is an indispensable contribution to the task of systematic theology Journal of the Evangelical Theological Society September 1999 Many students and pastors will find all they need here and will in addition be helped to relate their knowledge to recent developments in the theological world The Churchman A Journal of Anglican Theology 1991 A gold mine of helpful material The Christian Century May 29 June 5 1991 No book that I know is more loaded with biblical and theological facts than this one The prodigious research that must have gone into the preparation of this volume is truly mind boggling Faith and Mission Fall 1991 Garrett has provided a massive and scholarly systematic theology from a thoroughly conservative and comprehensive viewpoint The work is well documented in both biblical and historical scholarship and will prove to be a classic William Hendrickson Southern Baptist Theological Seminary One of the most comprehensive concise books of its type available it should receive wide use in the classroom and in the study Robert H Culpepper Southern Baptist Theological Seminary **A Critical Study on T. F. Torrance's Theology of Incarnation** Man Kei Ho, 2008 This book analyses T F Torrance's theology of incarnation His theology is built upon several crucial presuppositions This book examines these presuppositions and their role within the framework of Torrance's theology It explores its unitary structure by analyzing his fundamental methods in hermeneutics dialectics natural theology and natural science In particular the study

addresses the internal incoherence inconsistency and seemingly paradoxical nature of his writings such as the integration of dualistic ideas into a unitary theological structure and highlights the impact of Barthian theology on his theological formulation

Christian Theology, Volume One Thomas N. Finger, 2020-03-09 Thomas N Finger has chosen an approach to the systematic presentation of Christian Theology which I also have taken since the publication of my Theology of Hope in 1964 He begins with the goal with eschatology With that goal in mind a new light is cast on every single doctrine of Christian theology the light of redemption and the work of the theologian becomes a labor of hope This is a theology of the way With the kingdom of God kept steadily in view it becomes an invitation to walk the way of Jesus Tom Finger s theological prospectus makes a brilliant contribution to ecumenical theological dialogue from the Anabaptist tradition He offers an eschatologically oriented theology for which I can only congratulate him Jurgen Moltmann Professor of Theology University of Tübingen While many systematic theological texts are shaped by academic discussion of ancient thought and or modern philosophies Finger centers on the kerygma of the biblical text that the last things or eschatological events expected at history s climax had already occurred through Jesus life death and resurrection though they were not yet fully realized To present eschatology as a living hope that always has motivated and still motivates Christians and Christian communities in all things Finger does not follow the discipline s traditional order where eschatology appears last but places it first Volume II will culminate with the doctrine of God which usually comes first This is hardly to minimize God s importance but to maximize it as the Christian faith s most profound mystery Volume I begins with eschatology to present it as a dynamic boundless atmosphere in which theological reflection unfolds While this dynamism envelops Christian life and mission it is not merely subjective It is hope for the transformation of all creation It is not only celebrative for it also struggles against the gruesome evils that seek to dominate all things From this vantage point eschatology in Volume I seeks to articulate the significance of the resurrection the last judgment heaven and hell the return of Christ and the millenium s coming These reflections lead to revelation beginning from the final revelation of Jesus Christ 1 Peter 1 3 13 Revelation s dimensions are treated as personal as historical extending forwards from Genesis and as propositional or its way of conveying its contents These point theological reflection to revelation s center Jesus Christ chiefly to his saving work in his life death and resurrection Here the strengths and weaknesses of the traditional substitutionary and moral influence theories are examined But when placed within their revelational or historical sequence Jesus conflict with the powers of evil stands out These prove to be gigantic systemic forces which have always ordered but also imprisoned humankind such as the Roman Empire Yet their horror and power stretch beyond any social or psychological explanation In Jesus life and death these powers appear to conquer him But through his resurrection Jesus conquers them This drama is best articulated by the Christus Victor approach in which Jesus with his Father and Spirit defeats these powers but does not totally destroy them This is why their eschatological reign is already present but evil is not yet destroyed until the end

The Faith of the Christian Church

Tyron Inbody, 2005-04-14 Tyron Inbody has taught the basics of Christian theology for more than twenty five years. Having seen over the years what issues and questions his students bring to class, he now offers this engaging, accessible introduction to all the major beliefs of the Christian faith. Meant especially but not exclusively for readers new to theology, Inbody's *Faith of the Christian Church* covers twelve traditional areas of Christian teaching: theology, revelation, faith, God, creation, suffering, and evil, humankind, Jesus Christ, salvation, church, sacraments, and the end times. Inbody also dives into provocative topics not usually treated in introductory texts: creationism, the devil, miracles, the virgin birth, and more. The book's broad-ranging perspective, which intentionally defies labels, commends it to individuals and small groups from many church traditions. Quote boxes and illustrations drawn from popular culture make the text visually interesting and enjoyable to read. Inbody does not hide his own stance on issues but presents a full range of interpretations and openly points readers to other possibilities they can pursue. *The Faith of the Christian Church* offers just enough questions to provoke reflection and just enough answers to encourage readers to form their own grasp on the Christian faith.

Scripture, Metaphysics, and Poetry Robert MacSwain, 2016-04-01 This book offers a critical edition of arguably the greatest work of English theology in the 20th century: Austin Farrer's *Bampton Lectures*, published as *The Glass of Vision* in 1948. Farrer was an interdisciplinary genius who made original contributions to philosophy, theology, and biblical studies, as well as to our understanding of the role of imagination in human thought and Christian doctrine. According to Farrer, the three primary themes of these lectures are scripture, metaphysics, and poetry, individually and in relation to each other. The lectures defend his famous theory of divine revelation through images rather than propositions or events, a provocative account of the place of metaphysical reasoning in theology, and a literary approach to the Biblical text that was decades ahead of its time and is still controversial. *The Glass of Vision* has generated a rich and interesting interdisciplinary conversation that has lasted for decades, starting with commentators such as Helen Gardner and Frank Kermode. In addition to Farrer's full text, this critical edition also contains an introduction to the significance and context of Farrer's thought and a selection of thirty years' worth of commentary by leading British and European theologians and literary scholars: David Brown, Ingolf Dalferth, Hans Haug, Douglas Hedley, David Jasper, and Gerard Loughlin. Of interest to literary and biblical scholars, theologians, and philosophers, this book holds particular value for those exploring the nature of imagination in contemporary thought and scholarship.

The Christian Story Gabriel Fackre, 1987 This is a print-on-demand book and is therefore non-returnable. As a pastoral systematic, *The Christian Story* rises from and strives to be a resource to the life and witness of the church and its leadership. The first volume, revised edition 1984, offered an introductory overview of the basic Christian doctrine. Now turning his attention to the individual doctrines, Gabriel Fackre here surveys a spectrum of views on authority from inerrantist to experientialist and sets forth an alternative perspective along ecumenical and narrative lines. The author's search for a full-orbed position affirms Scripture as the source, the church and its traditions as resource, the world of human experience as setting, the Gospel as substance, and Christ as the

center of authority A detailed analysis of hermeneutical issues is included in the book *The quest for evangelical catholicity* leads to a restatement of the fourfold method of scriptural interpretation common sense critical scholarship canonical perspective and the contextualization process personal and social An extensive exegesis of a key Christological text John 14 6 illustrates how this method works

Introduction to Christianity Paul Hessel, 2020-12-17 Originally published in 1958 Introduction to Christianity considers the nature of Christianity as a life shared in an historical continuing community Divided into five parts the book is a comprehensive interpretation of Christianity as a people created by God's activity in history with a focus on the proclamation of the Gospel It highlights and examines the relevance of Christian doctrine to reflections on the meaning of life and considers the significance of this at a time in which attitudes towards religion are increasingly ambiguous Introduction to Christianity is ideal for those with an interest in the history of Christianity Christian theology and religious philosophy

The Oxford Handbook of Philosophical Theology Thomas P. Flint, Michael Rea, 2011-03-17 Philosophical theology is aimed primarily at theoretical understanding of the nature and attributes of God and of God's relationship to the world and its inhabitants During the twentieth century much of the philosophical community both in the Anglo American analytic tradition and in Continental circles had grave doubts about our ability to attain any such understanding In recent years the analytic tradition in particular has moved beyond the biases that placed obstacles in the way of the pursuing questions located on the interface of philosophy and religion The result has been a rebirth of serious widely discussed work in philosophical theology The Oxford Handbook of Philosophical Theology attempts both to familiarize readers with the directions in which this scholarship has gone and to pursue the discussion into hitherto under examined areas Written by some of the leading scholars in the field the essays in the Handbook are grouped in five sections In the first Theological Prolegomena articles focus on the authority of scripture and tradition on the nature and mechanisms of divine revelation on the relation between religion and science and on theology and mystery The next section Divine Attributes focuses on philosophical problems connected with the central divine attributes aseity omnipotence omniscience and the like In Section Three God and Creation essays explore theories of divine action and divine providence questions about petitionary prayer problems about divine authority and God's relationship to morality and moral standards and various formulations of and responses to the problem of evil The fourth section Topics in Christian Philosophy examines philosophical problems that arise in connection with such central Christian doctrines as the trinity the incarnation the atonement original sin resurrection and the Eucharist Finally Section Five Non Christian Philosophical Theology introduces readers to work that is being done in
