The Inhabited Prairie:

The Inhabited Prairie Terry Evans, Donald Worster, 1998 Widely known for her spectacular photographs of pristine prairie Evans here works at low altitudes to focus on the land as an inhabited place These fifty black and white images document specific locations and disclose some of the contradictions and mysteries about how we live on the prairie *The Prairie* James Fenimore Cooper, 1876 *Ecomedia* Stephen Rust, Salma Monani, Sean Cubitt, 2015-09-07 *Ecomedia* Key Issues is a comprehensive textbook introducing the burgeoning field of ecomedia studies to provide an overview of the interface between environmental issues and the media globally Linking the world of media production distribution and consumption to environmental understandings the book addresses ecological meanings encoded in media texts the environmental impacts of media production and the relationships between media and cultural perceptions of the environment Each chapter introduces a distinct type of media addressing it in a theoretical overview before engaging with specific case studies In this way the book provides an accessible introduction to each form of media as well as a sophisticated analysis of relevant cases The book includes contributions from a combination of new voices and well established media scholars from across the globe who examine the basic concepts and key issues of ecomedia studies The concepts of frames flow and convergence structure a dynamic collection divided into three parts The first part addresses traditional visual texts such as comics photography and film The second part of the book addresses traditional broadcast media such as radio and television and the third part looks at new media such as advertising video games the internet and digital renderings of scientific data In its breadth and scope *Ecomedia* Key Issues presents a unique survey of rich scholarship at the confluence of Media Studies and Environmental Studies The book is written in an engaging and accessible style with each chapter including case studies discussion questions and suggestions for further reading **The Prairie** J. The Prairie Cooper, 1837 **The Prairie** Cooper J.F., Fenimore Cooper's fictitious frontier hero Bumpo is never called by his name but is instead referred to as the trapper or the old man It depicts Natty in the final year of his life still proving helpful to people in distress on the American frontier The book frequently references characters and events from the two books previously published in the *Leatherstocking Tales* as well as the two which Cooper wouldn't write for more than ten years **The Prairie** James Fenimore Cooper, 2025-08-19 Reproduction of the original The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **The Prairie** (□□□) James Fenimore Cooper, 2011-11-15

Katz,2008-12-01 Although the framework of regionalist studies may seem to be crumbling under the weight of increasing globalization this collection of seventeen essays makes clear that cultivating regionalism lies at the center of the humanist endeavor With interdisciplinary contributions from poets and fiction writers literary historians musicologists and historians of architecture agriculture and women this volume implements some of the most innovative and intriguing approaches to the history and value of regionalism as a category for investigation in the humanities In the volume s inaugural essay Annie Proulx discusses landscapes in American fiction comments on how she constructs characters and interprets current literary trends Edward Watts offers a theory of region that argues for comparisons of the United States to other former colonies of Great Britain including New Zealand Australia and Canada Whether considering a writer s connection to region or the idea of place in exploring what is meant by regionalism these essays uncover an enduring and evolving concept Although the approaches and disciplines vary all are framed within the fundamental premise of the humanities the search to understand what it means to be human **Barnstorming the Prairies** Jason Weems,2015-12-29 To

Midwesterners tucked into small towns or farms early in the twentieth century the landscape of the American heartland reached the horizon and then imagination had to provide what lay beyond But when aviation took off and scenes of the Midwest were no longer earthbound the Midwestern landscape was transformed and with it Jason Weems suggests in this book the very idea of the Midwest itself Barnstorming the Prairies offers a panoramic vista of the transformative nature and power of the aerial vision that remade the Midwest in the wake of the airplane This new perspective from above enabled Americans to conceptualize the region as something other than isolated and unchanging and to see it instead as a dynamic space where people worked to harmonize the core traditions of America s agrarian character with the more abstract forms of twentieth century modernity In the maps and aerial survey photography of the Midwest as well as the painting cinema animation and suburban landscapes that arose through flight Weems also finds a different and provocative view of modernity in the making In representations of the Midwest from Grant Wood s iconic images to the Prairie style of Frank Lloyd Wright to the design of greenbelt suburbs Weems reveals aerial vision s fundamental contribution to regional identity to Midwesternness as we understand it Reading comparatively across these images Weems explores how the cognitive and perceptual practices of aerial vision helped to resymbolize the Midwestern landscape amid the technological change and social uncertainty of the early twentieth century

Prairie and Rocky Mountain Adventures John C. Van Tramp,1870 **Correction Lines** Curt Meine,2013-04-10 The last fifteen years have been a period of dramatic change both in the world at large and within the fields of ecology and conservation The end of the Cold War the dot com boom and bust the globalizing economy and the attacks of September 11 among other events and trends have reshaped our worldview and the political environment in which we find ourselves At the

same time emerging knowledge needs and opportunities have led to a rapid evolution in our understanding of the scientific foundations and social context of conservation

Correction Lines is a new collection of essays from one of our most thoughtful and eloquent writers on conservation putting these recent changes into perspective and exploring the questions they raise about the past present and future of the conservation movement The essays explore interrelated themes the relationship between biological and social dimensions the historic tension between utilitarian and preservationist approaches the integration of varied cultural perspectives the enduring legacy of Aldo Leopold the contrasts and continuities between conservation and environmentalism the importance of political reform and the need to retool conservation to address twentyfirst century realities Collectively the essays assert that we have reached a critical juncture in conservation a correction line of sorts *Correction Lines* argues that we need a more coherent and comprehensive account of the past if we are to understand our present circumstances and move forward under unprecedented conditions Meine brings together a deep sense of history with powerful language and compelling imagery yielding new insights into the origins and development of contemporary conservation *Correction Lines* will help us think more clearly about the forces that have changed and are changing conservation and inspire us to address current realities and future needs
