The Inner Experience Notes On Contemplation:

The Inner Experience Thomas Merton, William H. Shannon, 2012-09-11 Now in paperback revised and redesigned This is Thomas Merton's last book in which he draws on both Eastern and Western traditions to explore the hot topic of contemplation meditation in depth and to show how we can practice true contemplation in everyday life Never before published except as a series of articles one per chapter in an academic journal this book on contemplation was revised by Merton shortly before his untimely death The material bridges Merton's early work on Catholic monasticism mysticism and contemplation with his later writing on Eastern especially Buddhist traditions of meditation and spirituality This book thus provides a comprehensive understanding of contemplation that draws on the best of Western and Eastern traditions Merton was still tinkering with this book when he died it was the book he struggled with most during his career as a writer But now the Merton Legacy Trust and experts have determined that the book makes such a valuable contribution as his major comprehensive presentation of contemplation that they have allowed its publication *The Inner Experience* Thomas Merton, 1983

The Inner Experience Thomas Merton, 1983 *Thomas Merton's Dark Path* William H. Shannon, 1987-03-01 In the mystical tradition the dark or apophatic way has a long history It is the way of John of the Cross of Meister Eckhart of Julian of Norwich of the anonymous author of *The Cloud of Unknowing* and of Thomas Merton This dark path of contemplation that Merton followed wrote about extensively and considered the focal point of his life is the subject of William H. Shannon's book **Thomas Merton and the Inclusive Imagination** Ross Labrie, 2001 Thomas Merton 1915-1968 was a Roman Catholic priest a Trappist monk a social activist and a poet Author of the celebrated autobiography *The Seven Storey Mountain* Merton has been described as the most important American religious writer of the past hundred years One of the notable characteristics of Merton's writing both in poetry and in prose was his seamless intermingling of religious and Romantic elements an intermingling that because of his gifts as a writer and because of his enormous influence has had the effect of making widespread a distinctive form of religious thought and expression In *Thomas Merton and the Inclusive Imagination* Ross Labrie reveals the breadth of Merton's intellectual reach by taking an original and systematic look at Merton's thought which is generally regarded as eclectic and unsystematic *Merton's Palace of Nowhere* James Finley, 2018-02-02 For forty years James Finley's *Merton's Palace of Nowhere* has been the standard text for exploring reflecting on and understanding the rich vein of Thomas Merton's thought Spiritual identity is the quest to know who we are to find meaning to overcome that sense of Is this all there is Merton's message cuts to the heart of this universal quest and Finley illuminates that message as no one else can As a young man of eighteen Finley left home for an unlikely destination the Abbey of Gethsemani where Thomas Merton lived as a contemplative Finley stayed at the monastery for six maturing years and later wrote this *Merton's Palace of Nowhere* in order to share a taste of what he had learned on his spiritual journey under the guidance of one of the great religious figures of our time At the heart of the quest

for spiritual identity are Merton's illuminating insights leading from an awareness of the false and illusory self to a realization of the true self. Dog-eared, tattered, underlined copies of this book are found on the bookshelves of retreat centers, parish libraries, and the homes of spiritual seekers everywhere. This anniversary edition brings a classic to a new generation and includes a new preface by Finley.

Comparative Approaches to Compassion Ramin Jahanbegloo, 2022-06-30 Ramin Jahanbegloo develops the concept of compassion as a practical and ethical response to the problems of today's world. Examining the power of compassion through the lens of multiple world religions, he explores ahimsa in Buddhism, Jainism, and Hinduism, and neighbourly love in Christianity, before synthesizing the two concepts in the Gandhian theory of non-violence and its impact on Muslim and Christian thinkers such as Abdul Ghaffar Khan and Martin Luther King Jr. Jahanbegloo considers the idea of a compassionate civilization based on the nonviolent democratic theory put forward by Gandhi with Swaraj and completed by Martin Luther King Jr with the Beloved Community. By scrutinizing compassion in various religious and ethical traditions and exploring the relevance of *homo fragilis*, Jahanbegloo's comparative approach enriches our understanding of nonviolence as a universal philosophy and practice for the 21st century. He shows that nonviolence is not only a mode of thinking and a way of life but also a powerful strategy of social and political transformation.

The Oxford Handbook of Christian Monasticism Bernice M. Kaczynski, 2020-09-29 The Handbook takes as its subject the complex phenomenon of Christian monasticism. It addresses for the first time in one volume the multiple strands of Christian monastic practice. Forty-four essays consider historical and thematic aspects of the Catholic, Eastern Orthodox, Oriental Orthodox, Protestant, and Anglican traditions, as well as contemporary new monasticism. The essays in the book span a period of nearly two thousand years, from late ancient times through the medieval and early modern eras on to the present day. Taken together, they offer not a narrative survey but rather a map of the vast terrain. The intention of the Handbook is to provide a balance of some essential historical coverage with a representative sample of current thinking on monasticism. It presents the work of both academic and monastic authors, and the essays are best understood as a series of loosely linked episodes forming a long chain of enquiry and allowing for various points of view. The authors are a diverse and international group who bring a wide range of critical perspectives to bear on pertinent themes and issues. They indicate developing trends in their areas of specialisation. The individual contributions and the volume as a whole set out an agenda for the future direction of monastic studies. In today's world, where there is increasing interest in all world monasticisms, where scholars are adopting more capacious global approaches to their investigations, and where monks and nuns are casting a fresh eye on their ancient traditions, this publication is especially timely.
