The Hunting Wind:

The Hunting Wind Steve Hamilton, 2002-04-15 Before he became a private investigator before he served in the Detroit police and long before he retreated to the wintry reaches of Michigan's Upper Peninsula Alex McKnight played ball in the minor leagues He doesn't spend much time thinking about those days at least not until a former teammate comes looking for him The man's here to ask a favor He wants Alex to help him find the woman with whom he had a brief passionate affair three decades ago Who is Alex to deny his friend a chance to ward off a classic midlife chill by rekindling an old flame But as the search deepens McKnight begins to suspect that he hasn't been told the full story And there might just be a reason why this mysterious woman is so hard to find The Hunting Wind continues Steve Hamilton's award winning and New York Times bestselling Alex McKnight series

The Hunting Wind Steve Hamilton, 2001 The calendar said April but April in Paradise is still cold enough to hurt you Alex McKnight is sipping a Canadian beer in the Glasgow Inn when Randy Wilkins a left handed pitcher from his baseball days in Detroit turns up out of the blue Finally he gets to the point Randy's in love with a girl called Maria and wants to find her The only problem being that he last saw her thirty years ago It's a test of friendship to say the least and at first Alex can't think of anything worse But loyalty gets the better of him and together Alex and Randy go back to Detroit where they played baseball together and where as a police officer Alex got shot The bullet is still lodged in his chest Their search for Maria leads them back to the past a strange country which is unsavoury for Randy and painful for Alex The Ojibwa Indian tribe call a driving wind from the north a hunting wind in this case the hunt for Randy's lost love and Alex's lost life

Rule, 2014-09-19 The global demand for clean renewable energy has rapidly expanded in recent years and will likely continue to escalate in the decades to come Wind and solar energy systems often require large quantities of land and airspace so their growing presence is generating a diverse array of new and challenging land use conflicts Wind turbines can create noise disrupt views or radar systems and threaten bird populations Solar energy projects can cause glare effects impact pristine wilderness areas and deplete water resources Developers must successfully navigate through these and myriad other land use conflicts to complete any renewable energy project Policymakers are increasingly confronted with disputes over these issues and are searching for rules to effectively govern them Tailoring innovative policies to address the unique conflicts that arise in the context of renewable energy development is crucial to ensuring that the law facilitates rather than impedes the continued growth of this important industry This book describes and analyses the property and land use policy questions that most commonly arise in renewable energy development Although it focuses primarily on issues that have arisen within the United States the book's discussions of international policy differences and critiques of existing approaches make it a valuable resource for anyone exploring these issues in a professional setting anywhere in the world

Pryke, 2023-08-15 A natural and cultural history of wind from ancient deity to Twister. By turns creative and destructive, wind spreads seeds, fills sails, and disperses the energy of the sun. Worshipped since antiquity, wind has molded planets, determined battles, and shaped the evolution of life on earth. Yet this invisible element remains intangible and unpredictable. In this book, Louise M. Pryke explores wind's natural history as well as its cultural life in myth, religion, art, and literature. Beyond these ancient imaginings, Pryke also traces how wind inspired modern scientific innovations and appeared in artistic works as diverse as the art of Van Gogh, the poetry of Keats, and the blockbuster film **Wind Cave National Park, South Dakota--** United States.
