The Idea Of A Christian University In Today's World:

The Idea of a Christian University in Today's World Ben C. Fisher, 1989 **The Idea of a Christian College** Todd C. Ream, Perry L. Glanzer, 2013-10-28 In 1975 Arthur F Holmes published *The Idea of a Christian College*. At the time he could not have imagined his book would gather such a large following. This work's thoughtful yet accessible style made it a long standing choice for reading lists on Christian college and university campuses across the country and around the world. Countless numbers of first year students have read and discussed his book as part of their introduction to the Christian college experience. However enough has changed since 1975 in both the Church and Academy to now merit a full scale reexamination. In this book Todd C Ream and Perry L Glanzer account for changes in how people view the Church and themselves as human agents and propose a vision for the Christian college in light of the fact that so many Christian colleges now look and act more like research universities. Including topics such as the co curricular common worship and diversity Ream and Glanzer craft a vision that strives to see into the future by drawing on the riches of the past. First year students as well as new faculty members and administrators will benefit from the insights in this book in ways previous generations benefitted from Arthur Holmes's efforts.

From Piety to Professionalism--and Back? Patricia Wittberg, 2006-01-01 *From Piety to Professionalism D and Back* argues that the dissolution ties with institutions has greatly affected denominations especially specific denominational subgroups such as Catholic religious orders Protestant deaconesses or women's missionary societies D in profoundly important ways shifting or obliterating their recruitment bases altering the backgrounds and expectations of their leaders and often causing fundamental transformations in the very identity and culture of the groups themselves.

Christianity and Critical Realism Andrew Wright, 2013-05-07 One of the key achievements of critical realism has been to expose the modernist myth of universal reason which holds that authentic knowledge claims must be objectively pure uncontaminated by the subjectivity of local place specific time and particular culture. Wright aims to address the lack of any substantial and sustained engagement between critical realism and theological critical realism with particular regard to a the distinctive ontological claims of Christianity b their epistemic warrant and intellectual legitimacy and c scrutiny of the primary source of the ontological claims of Christianity namely the historical figure of Jesus of Nazareth. As such it functions as a prolegomena to a much needed wider debate guided by the under labouring services of critical realism between Christianity and various other religious and secular worldviews. This important new text will help stimulate a debate that has yet to get out of first gear. This book will appeal to academics graduate and post graduate students especially but also Christian clergy ministers and informed laity and members of the general public concerned with the nature of religion and its place in contemporary society.

Morgan, 2018-12-10 Our world is growing increasingly complex and confused a unique and urgent context that calls for a grounded and fresh approach to Christian higher education Christian higher education involves a distinctive way of thinking about teaching learning scholarship curriculum student life administration and governance that is rooted in the historic Christian faith In this volume twenty nine experts from a variety of fields including theology the humanities science mathematics social science philosophy the arts and professional programs explore how the foundational beliefs of Christianity influence higher education and its disciplines Aimed at equipping the next generation to better engage the shifting cultural context this book calls students professors trustees administrators and church leaders to a renewed commitment to the distinctive work of Christian higher education for the good of the society the good of the church and the glory of God *The Fearless Christian University* John W. Hawthorne, 2025-02-13 A bold vision for Christian higher education What is Christian higher education and what makes it distinctive Sociologist and educator John Hawthorne laments the fact that fear has become a defining characteristic of many Christian universities today fear of mission drift public relations crises demographic change culture wars and more Hawthorne argues that when colleges focus their energies on such concerns they fail to prepare students for constructive lives in a post Christian society Proposing a dramatically different vision Hawthorne argues that the long term success of today's Christian university rests upon its ability to be fearless He encourages Christian schools to center student questions and experiences to pursue research that meets real needs in the church and society and to participate boldly in their cultural contexts Hawthorne's proposal draws on his decades of experience as a scholar and practitioner of Christian higher education combining insights from administration and teaching roles in five different Christian universities with historical and sociological literature on conservative evangelicals and their institution building *The Fearless Christian University* is essential reading for faculty administrators trustees donors and alumni and offers a clarion call to all who care about the future of Christian higher education *The Christian College (Renewed Minds)* William C. Ringenberg, 2006-04-01 When it first appeared in 1984 *The Christian College* was the first modern comprehensive history of Protestant higher education in America Now this second edition updates the history

featuring a new chapter on the developments of the past two decades a major introduction by Mark Noll a new preface and epilogue and a series of instructive appendixes **The Vocation of the Christian Scholar** Richard T. Hughes, 2005-05-02

Richard T Hughes's highly praised book on the relationship between Christian faith and secular learning originally titled *How Christian Faith Can Sustain the Life of the Mind* is now available in this revised and expanded edition which speaks more directly to the subject of vocation In a substantial new preface Hughes recounts his own vocational journey telling how he drew on Christian theology to discover his talents and how best to use them Another new chapter explores the vocation of Christian colleges and universities including the purposes and goals of church related education Drawing from the Catholic Reformed Lutheran and Anabaptist traditions Hughes shows how the Christian scholar can embrace paradox rather than dogmatism His reflections provide a compelling argument that faith properly pursued nourishes the openness and curiosity that make a life of the mind possible Praise for the original edition In this beautifully written sermonic essay Richard Hughes defines the virtues needed for sound scholarship and good teaching As Hughes powerfully and persuasively argues the Christian scholar has ample Christian warrant to be humble in the face of diversity open to the challenge of competing perspectives and fully engaged in the cooperative rigorous and imaginative search for truth *The Christian Century* Following the examples of George Marsden and Mark Noll Hughes encourages Christians not to forsake their calling as scholars nor to be discouraged by the enormity of their task but to keep on integrating faith and contemporary culture *Reformed Review* In this book Richard Hughes mentors all of us who want to be both Christians and scholars But even for those who do not teach and would not wear the name scholar this book is a valuable model of what it means to serve God humbly in one's chosen vocation *New Wineskins* Everybody who is concerned with Christian education should read this little book *Journal of Education and Christian Belief*

The Scandal of the Evangelical College Martin Spence, 2025-06-30 Despite heady claims about Christ centeredness Evangelical colleges are scandalously secular institutions in thrall to the regnant assumptions of the market economy and mainstream higher education Paradigms intended to integrate faith and learning often ironically fracture and distort Christianity Even the spiritual dimensions of the Christian college presumed to keep it safe from religious declension are prone to secularizing tendencies because the American Evangelical culture from which the college receives its spiritual cues and from which it accepts its donors money is itself captive to a set of sub biblical economic social and political assumptions This book argues that the cause of the scandal is the absence of the church in the imagination of the Evangelical college It therefore proposes that the mission and practice of the Evangelical college should be to summon equip and renew the people of God While this may sound like a return to an obsolete bible school model of Christian education the ecclesial vision only sounds narrow because we lack a robust understanding of the vocation of the church itself By simultaneously restricting our vision of the Evangelical college while broadening our understanding of the church a more fully evangelical educational endeavor might emerge
