The Imperial Way:

Handbook of Confucianism in Modern Japan Shaun O'Dwyer, 2025-10-01 In mainstream assessments of Confucianism's modern genealogy there is a Sinocentric bias which is in part the result of a general neglect of modern Japanese Confucianism by political and moral philosophers and intellectual historians during the post war era This collection of essays joins a small group of other studies bringing modern Japanese Confucianism to international scholarly notice largely covering the time period between the Bakumatsu era of the mid 19th century and the 21st century The essays in this volume can be read for the insight they provide into the intellectual and ideological proclivities of reformers educators and philosophers explicitly reconstructing Confucian thought or more tacitly influenced by it during critical phases in Japan's modernization imperialist expansionism and post 1945 reconstitution as a liberal democratic polity They can be read as introductions to the ideas of modern Japanese Confucian thinkers and reformers whose work is little known outside Japan and sometimes barely remembered inside Japan They can also be read as a needful corrective to the above mentioned Sinocentric bias in the 20th century intellectual history of Confucianism For those Confucian scholars currently exploring how Confucianism is or can be made compatible with democracy at least some of the studies in this volume serve as a warning They enjoin readers to consider how Confucianism was also rendered compatible with the authoritarian ultranationalism and militarism that captured Japan's political system in the 1930s and brought war to the Asia Pacific region

Confucianism at War Shaun O'Dwyer, 2024-12-16 This is the first book length study of wartime Confucianism in any language providing new insights into key developments in Confucian thought and ideology in East Asia in the 1930s and 1940s In standard scholarship on the ideologies driving nation building and imperialism during the era of Japanese expansionism that began in 1931 Confucianism is rarely referenced and relegated to the background This volume brings together the work of scholars who argue for a revision of this standard view It includes studies of Japanese Chinese colonial Manchurian and Korean intellectuals and reformers who contributed to expansionist collaborationist or nationalist ideology building during the war Contrary to the assumption that Confucianism was an anachronism rendered irrelevant by the Westernizing political reforms and revolutions of the early twentieth century the chapters in this book show that Confucianism remained a potent and also contested cultural resource for promoting national cohesion war mobilization and expansionism in East Asia between the Japanese invasion of Manchuria in 1931 and the end of World War II in 1945 This book will appeal to scholars and students of Asian studies nationalism studies postcolonial studies religious studies and philosophy In particular it is essential reading for those interested in nationalism and modern Confucian thought in East Asia

Hirohito: The Shōwa Emperor in War and Peace Ikuhiko Hata, 2007-07-12 This is a most important new work on Emperor Hirohito by one of Japan's leading historians Ikuhiko Hata Following the untimely death of Marius B Jansen Emeritus Professor University of Princeton in December 2000 who had been actively collaborating with the author and translator of the original Japanese edition Hirohito Tenno itsutsu no ketsudan first published in 1987 and republished in 1994 it was inevitable that there would be a delay in publication of the English edition which is finally now available In his extended Foreword as editor referring to the nature of Hirohito's power Jansen states We are left with puzzles that will probably never be resolved Clearly as Professor Hata and others have shown the Emperor Hirohito had immense power but the condition of retaining it was judicious restraint in exercising it In offering a view on the merits of Hata's research Jansen points to the hitherto unknown plots in parallel but unrelated by both the Army and Navy to preserve and if necessary resuscitate the imperial line in the event the victors decided to depose Hirohito Jansen also points to the merits of Hata's particular focus on the contribution Hirohito made to Japan in its post war relations with the United States Jansen added substantive notes to help place the author's material in historical and historiographical perspective The book which is not a biography or a general history of the

Showa era focuses on five decisions taken by Emperor Hirohito which the author considers the key turning points of his reign these concern the 26 February 1936 insurrection of young army officers the termination of the Pacific War the post war constitution the issue of abdication and the San Francisco Peace Treaty

Bad Water Robert Stolz,2014-03-12 *Bad Water* is a sophisticated theoretical analysis of Japanese thinkers and activists efforts to reintegrate the natural environment into Japan's social and political thought in the late nineteenth century and early twentieth The need to incorporate nature into politics was revealed by a series of large scale industrial disasters in the 1890s The Ashio Copper Mine unleashed massive amounts of copper arsenic mercury and other pollutants into surrounding watersheds Robert Stolz argues that by forcefully demonstrating the mutual penetration of humans and nature industrial pollution biologically and politically compromised the autonomous liberal subject underlying the political philosophy of the modernizing Meiji state In the following decades socialism anarchism fascism and Confucian benevolence and moral economy were marshaled in the search for new theories of a modern political subject and a social organization adequate to the environmental crisis With detailed considerations of several key environmental activists including Tanaka Shizuo *Bad Water* is a nuanced account of Japan's environmental turn a historical moment when for the first time Japanese thinkers and activists experienced nature as alienated from themselves and were forced to rebuild the connections

Zen at War Brian Victoria,2006-06-22 A compelling history of the contradictory often militaristic role of Zen Buddhism this book meticulously documents the close and previously unknown support of a supposedly peaceful religion for Japanese militarism throughout World War II Drawing on the writings and speeches of leading Zen masters and scholars Brian Victoria shows

that Zen served as a powerful foundation for the fanatical and suicidal spirit displayed by the imperial Japanese military. At the same time the author recounts the dramatic and tragic stories of the handful of Buddhist organizations and individuals that dared to oppose Japan's march to war. He follows this history up through recent apologies by several Zen sects for their support of the war and the way support for militarism was transformed into corporate Zen in postwar Japan. The second edition includes a substantive new chapter on the roots of Zen militarism and an epilogue that explores the potentially volatile mix of religion and war. With the increasing interest in Buddhism in the West this book is as timely as it is certain to be controversial.

Contemporary Views on the Holocaust R.L. Brahm, 2012-12-06 This book is the second in a series of studies published under the auspices of the Institute for Holocaust Studies of the Graduate School and University Center of The City University of New York. Like the first book it is an outgrowth of the lectures and special studies sponsored by the institute during the 1981-82 and 1982-83 academic years. This volume is divided into five parts. Part I, Ethics and the Holocaust, contains a pioneering investigation of one of the most neglected areas in Holocaust studies. Francine Klagsbrun, a well-known writer and popular lecturer, provides an erudite overview of the value of life in Jewish thought and tradition. With full understanding of the Talmudic scholars' position on Jewish ethics and using concrete examples of the life and death dilemmas that confronted many Jews in their concentration camp experiences, Klagsbrun provides dramatic evidence of the triumph of moral and ethical principles over the forces of evil during the Holocaust, this darkest period in Jewish history. The next two chapters, grouped under the heading 'The Allies and the Holocaust', deal with the failure of the Western Allies to respond to the desperate needs of the persecuted Jews of Europe during the Second World War. The first is by Professor Bela Vago, an authority on the Holocaust and East Central European history at the University of Haifa.
