The Individual And The Nature Of Mass Events A Seth:

The Individual and the Nature of Mass Events Jane Roberts, Seth (Spirit), 1982 Extending the idea that we create our own reality Seth explores the connection between personal beliefs world events

The Individual and the Nature of Mass Events Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks Speaking exclusively through Jane Roberts Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs But how do our realities merge and combine to form mass reactions such as the overthrow of governments the birth of a new religion wars epidemics earthquakes and new periods of art architecture and technology In this pioneering work Seth explores the connection between personal beliefs and world events He pinpoints the unconscious and often negative beliefs pervading science and religion medicine and mythology and offers thought provoking reflections on Darwinism Freudianism religions cults and medical beliefs With fascinating and inspiring implications Seth asserts that the personal impulses we are often taught to see as dangerous chaotic or contradictory are instead crucial to the best interests of the species and the natural world for they lead us to live not only as loving caretakers but as partners with other species Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events Jane Roberts Speaking for Seth

The Nature of Personal Reality (A Seth Book) Jane Roberts, 2011-10-01 In this perennial bestseller Seth challenges our assumptions about the nature of reality and shows us how we create our personal reality through our conscious beliefs about ourselves others and the world His message is clear we are not at the mercy of the subconscious or helpless before forces we cannot understand We are Gods couched in creaturehood Seth says We are given the ability to form our experience as our thoughts and feelings become actualized Seth was one of my first metaphysical teachers He remains a constant source of knowledge and inspiration in my life Marianne Williamson I would like to see the Seth books as required reading for anyone on their spiritual pathway The amazing in depth information in the Seth books is as relevant today as it was in the early 70s when Jane Roberts first channeled this material Louise Hay

The Magical Approach (A Seth Book) Jane Roberts, 2011-08-01 In *The Magical Approach* Seth invites us to look at the world through another lens a magical one Seth reveals the true magical nature of our deepest levels of being and explains how we have allowed ourselves to become inhibited by our own beliefs and conventional thinking *The Magical Approach* teaches us how to live our lives spontaneously creatively and according to our own natural rhythms It helps us to discover and tune into our natural instinctive behavior By applying the principles in this book readers will learn to trust their impulses and discover the highest expression of their creativity We are speaking about an approach to life a magical or natural approach to life that is man s version of the animal s natural instinctive behavior in the universe Jane Roberts Speaking for Seth

The Nature of the Psyche Jane Roberts, 2011-07-08 Seth speaking exclusively through Jane Roberts reveals a startling new concept of self answering questions about the secret language of love human sexuality the real origins and incredible powers of dreams and

how we choose our physical death sometimes years in advance For the first time Seth explains Why love is the basic language from which all others spring The bisexual nature of humanity and its biological and spiritual importance The true basis of homosexuality and lesbianism along with their private and social effects The benefits of recalling our dreams and consciously participating in them How dreams can prevent chronic illnesses by providing important therapeutic information Simple exercises you can do to expand your awareness of the deeper portions of your psyche and stretch your abilities to their fullest potential The psyche is a gestalt of aware energy in which your own identity resides inviolate yet ever changing as you fulfill your potentials You are your psyche s living expression its human manifestation Yet you allow yourselves often to become blind to brilliant aspects of your own existence Jane Roberts Speaking for Seth

The Psyche as Interaction: Electromagnetic Patterns of Conscious Energy Manya J. Long, 2014-06-13 The Psyche as Interaction begins as a journey to explain one person s paranormal experiences Manya Long looks closely at the fields of mathematics physics psychology music religion neurophysiology and parapsychology Along the way she finds many things connecting each of these fields together Her intention when she began was merely to answer questions about her own unique experiences However she quickly realized what she was looking at had the potential to change the way we all view the world This book explains her journey findings and the conclusions she came to

Handbook of Spiritualism and Channeling, 2015-03-31 Bringing together scholars from different disciplines and geographies the Brill Handbook of Spiritualism and Channeling presents modern spirit possession in a variety of contexts Weaving together the interrelated movements of Spiritualism along with its specific Franco and Latin American currents articles explore the nineteenth century beginnings of s ances and trance mediumship Channelling an heir to Spiritualism begun in the 1970s and still flourishing today is brought into direct conversation with its predecessors with a view to showing both continuity and disjuncture as the products of new cultural and religious needs The Brill Handbook marks the first extensive collection on these two interrelated movements and examines themes such as gender race performance and technology in each instance

Rough Metaphysics Peter Skafish, 2023-04-25 A powerful case for why anthropology should study outsiders of thought and their speculative ideas What sort of thinking is needed to study anomalies in thought In this trenchantly argued and beautifully written book anthropologist Peter Skafish explores this provocative question by examining the writings of the medium and rough metaphysician Jane Roberts 1929 1984 Through a close interpretation of her own published texts as well as those she understood herself to have dictated for her cohort of channeled personalities including one named Seth who would inspire the New Age movement Skafish shows her intuitive and dreamlike work to be a source of rigorously inventive ideas about science ontology translation and pluralism Arguing that Roberts s writings contain philosophies ahead of their time he also asks How might our understanding of speculative thinking change if we consider the way untrained writers occult visionaries and their counterparts in other cultural traditions undertake it What can outsider thinkers teach us about the limitations of

even our most critical intellectual habits *Rough Metaphysics* is at once an ethnography of the books of a strange and yet remarkable writer a commentary on the unlikely philosophy contained in them and a call for a new way of doing and undoing philosophy through anthropology and vice versa In guiding the reader through Roberts s often hallucinatory world of concepts Skafish also develops a series of original interpretations of thinkers from William James to Claude L vi Strauss to Paul Feyerabend who have been vital to anthropologists and their fellow travelers Seductively written and surprising in its turns of thought *Rough Metaphysics* is a feast for anyone who wants to learn how to think something new especially about thought

Acorns: Windows High-Tide Foghat Joshua Morris, 2013-01-23 *Acorns* delineates the future of humanity as a reunification of intellect with the Deep Self Having chosen to focus upon ego established securely by the time of Christ much more beta brain wave development will destroy our species and others which process has already begun We create our own realities through beliefs intents and desires and we were in and out of probabilities constantly Feelings follow beliefs not the other way around

Miller's Illustrated, Industrial-Strength Metaphysics Jim Miller, 2010-08-05 The author uses the story of his life as a vehicle to tell what he has learned along the way about metaphysics It is not a scholarly treatise but the record of one person s attempt to understand what lies beyond the physical From another point of view the book can be seen as a comment on the gods of organized religion and a project to pose a metaphysical alternative
