The need to strengthen intellectual property protection is a mandatory initiative in the era of globalization and market competition. Failure to protect original products from theft and copying creates a precedent base and encourages the use of other people's work freely. Therefore, intellectual property has the right to be protected to stimulate creative activities.

Creating conditions for the protection of intellectual development is an important and in-demand initiative. Without an opportunity to rely on the protection of original digital content or tangible goods, authors and manufacturers lose their entrepreneurial goals and cannot operate to their full potential. Photographers posting their shots want to be sure that their creative products are their own cultural creations, which is natural (Tanning, 2022). At the same time, when speaking of creativity, this is challenging to achieve absolute distinctions in the works of different authors because thoughts and
