Pacific Cooperation John Ravenhill, Vinod Aggarwal, Paul M Evans, Pauline Kerr, 2019-06-20 Long divided by cultural economic and political differences the Asia Pacific region has little history of multilateral cooperation Alliances that once linked individual countries with one or the other superpower fostered deep mistrust among neighbouring states The end of the Cold War however has created new opportunities for multilateral coo **Handbook of Global Economic Policy** Stuart Nagel, 2019-02-21 Written by over 20 leading international economists this book offers win win scenarios to economic problems As in the other volumes of this set of public policy handbooks the Handbook of Global Economic Policy employs a unique organizational principle from viewing economic problems from conservative and liberal perspectives to developing practical non ideological solutions to the problems and finally testing the solution s feasibility in terms of economic administrative political psychological legal international and technological obstacles The authors confront conventional wisdom about tradeoffs between unemployment and inflation economic growth and displaced workers and c *European Security* Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet

threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it
