Coming of Age in the Afro-Latin American Novel Bonnie S. Wasserman, 2022. This book is the first study of recent coming-of-age novels from Brazil and the Spanish-speaking Caribbean. I investigate the divide in Afro-Latin American research that usually favors either Hispanic America or Brazil but not both. I argue that contemporary novelists have adapted the coming-of-age novel to explore central themes in the Afro-Latin American experience such as Blackness, African religions and folkloric traditions, and immigration. While there is no firm consensus on the term Blackness, scholars typically use the term to describe the social, cultural, and historical experience of Afro-descendants in the diaspora. The Afro-Latin American bildungsromans examined in this study include a number of religions such as Catholicism, Spiritism, and syncretic folk religions as well as Santería and Umbanda, reflecting the variety of beliefs in Latin America. I have found that young people turn to religions and spiritual traditions in time of need. Going on a journey as part of one's personal development is one of the central themes of many bildungsroman, and this pertains too in Afro-Latin American novels. Caribbean characters are depicted as immigrating to the United States, whereas few Brazilians have enough resources to travel to North America and instead move to larger cities within their own country.

Hispanic Caribbean Utilizing the theme of fluidity and travel Fluid Bodies analyzes novels graphic novels theatre and performance art These works demonstrate how transgender and queer bodies redefine belonging particularly national belonging through global movement and community making practices Through these genres the text follows the movement of transgender and queer identities from textual spaces to spaces of the body The gradual movement from text to body as it occurs in these genres demonstrates the variety of representational strategies that dismantle binary readings of gender sexuality and nationality Transgender visibility is a pressing social issue and today s transgender moment will be a social and political necessity for years to come Of particular importance are representations of transgender and or queer people of color The field of transgender representation is growing and Fluid Bodies adds to the visibility of transgender and queer identity from the Hispanic Caribbean By investigating the relationship between novels graphic novels theatre and performance art Fluid Bodies emphasizes how each work plays on and against the separation of language and the body and how Hispanic Caribbean authors and artists represent transgender and queer identity in order to redefine cultural and national belonging in various geographic spaces

Out of Bounds Dara E. Goldman, 2008 *Out of Bounds* teases out the intricacies of a territorial conception of nationhood in the context of a global reorganization that ostensibly renders historical boundaries irrelevant Hispanic Caribbean writers have traditionally pointed toward the supposed perfect equivalence of island and nation and have explained local culture as a direct consequence of that equation The major social political and demographic shifts of the twentieth century increasingly call this equation into question yet authors continue to assert its existence and its centrality in the evolution of Caribbean identity The author contends that traditional forms of identification have not been eviscerated by globalization instead they have persisted and in some cases have been intensified by recent geopolitical shifts *Out of Bounds* underscores the ongoing role of the nation as the site of identity formation In this manner the book presents Hispanic Caribbean cultural production as a case study that acutely dramatizes the paradoxical status of traditional demarcations of self definition in an increasingly globalized context
