Stonehenge Michael Parker Pearson,Stonehenge Riverside Project (England),2012-06-07 Our knowledge about Stonehenge has changed dramatically as a result of the Stonehenge Riverside Project 2003 2009 led by Mike Parker Pearson and included not only Stonehenge itself but also the nearby great henge enclosure of Durrington Walls This book is about the people who built Stonehenge and its relationship to the surrounding landscape The book explores the theory that the people of Durrington Walls built both Stonehenge and Durrington Walls and that the choice of stone for constructing Stonehenge has a significance so far undiscovered namely that stone was used for monuments to the dead Through years of thorough and extensive work at the site Parker Pearson and his team unearthed evidence of the Neolithic inhabitants and builders which connected the settlement at Durrington Walls with the henge and contextualised Stonehenge within the larger site complex linked by the River Avon as well as in terms of its relationship with the rest of the British Isles Parker Pearson's book changes the way that we think about Stonehenge correcting previously erroneous chronology and dating filling in gaps in our knowledge about its people and how they lived identifying a previously unknown type of Neolithic building discovering

Bluestonehenge a circle of 25 blue stones from western Wales and confirming what started as a hypothesis that Stonehenge was a place of the dead through more than 64 cremation burials unearthed there which span the monument's use during the third millennium BC In lively and engaging prose Parker Pearson brings to life the imposing ancient monument that continues to hold a fascination for everyone

Stonehenge - A New Understanding: Solving the Mysteries of the Greatest Stone Age Monument Mike Parker Pearson, 2014-03-25 The most authoritative important book on Stonehenge to date Kirkus starred review Stonehenge stands as an enduring link to our prehistoric ancestors yet the secrets it has guarded for thousands of years have long eluded us Until now the millions of enthusiasts who flock to the iconic site have made do with mere speculation about Stonehenge's celestial significance human sacrifice and even aliens and druids One would think that the numerous research expeditions at Stonehenge had left no stone unturned Yet before the Stonehenge Riverside Project a hugely ambitious seven year dig by today's top archaeologists all previous digs combined had only investigated a fraction of the monument and many records from those earlier expeditions are either inaccurate or incomplete Stonehenge A New Understanding rewrites the story From 2003 to 2009 author Mike Parker Pearson led the Stonehenge Riverside Project the most comprehensive excavation ever conducted around Stonehenge The project unearthed a wealth of fresh evidence that had gone untouched since prehistory Parker Pearson uses that evidence to present a paradigm shifting theory of the true significance that Stonehenge held for its builders and mines his field notes to give you a you are there view of the dirt drama and thrilling discoveries of this history changing archaeological dig
