Historical Dictionary of the Lesbian and Gay Liberation Movements JoAnne Myers, 2013-09-19 Not so long ago hardly anything was said of the Lesbian Liberation Movement and the Gay Liberation Movement indeed the terms gay and lesbian were not even used if some other expression could be found Today by contrast hardly a day passes when something important does not occur and is carried by the major media and disseminated on more personal levels through blogs and the social media If anything there is perhaps too much news and not enough information Obviously a book like this cannot keep up with the news but it can do something equally important when it comes to information by reminding us of the past and what has been going and just how fast events are moving The Historical Dictionary of the Lesbian and Gay Liberation Movements covers the history of this movement through a cross referenced dictionary with over 1000 entries on specific countries and regions influential historical figures laws that criminalized same sex sexuality various historical terms that have been used to refer to aspects of same sex love and contemporary events and legal decisions Including a comprehensive chronology and bibliography this book is an excellent access point for students researchers and anyone interested in learning more about the struggle for equality

The Culture of Queers Richard Dyer, 2005-08-18 For around a hundred years up to the Stonewall riots the word used for gay men was queers In The Culture of Queers Richard Dyer traces the contours of queer culture examining the differences and continuities with the gay culture which succeeded it Opening with a discussion of the very concept of queers Dyer asks what it means to speak of a sexual grouping having a culture and addresses issues such as gay attitudes to women and the notion of camp From screaming queens to sensitive vampires and sad young men and from pulp novels to pornography to the films of Fassbinder The Culture of Queers explores the history of queer arts and media

The A to Z of the Lesbian Liberation Movement JoAnne Myers, 2009-08-20 The Lesbian Liberation Movement is both a movement that encompasses liberating a sexual practice from stigmatization and a political movement challenging the dual oppression of women by the patriarchy's assumption of male supremacy and heterosexuality Over the years much has been written on homosexuality and the Gay Liberation Movement yet much of the focus has been on male homosexuals especially male homosexual activity and the politics that activity raises The A to Z of the Lesbian Liberation Movement Still the Rage is a comprehensive overview and resource guide for one of the most invisible social political movements the Lesbian Liberation Movement This book helps to make the still active movement visible the history successes setbacks controversies and issues This book is a good resource for those studying this social political movement containing a chronology contextual overview dictionary entries that cover persons laws terminology issues and countries and an extensive bibliography of primary resources and current work

Queer Fictions of the Past Scott Bravmann, 1997-10-09 In Queer Fictions of the Past Scott Bravmann explores the

complexity of lesbian and gay engagement with history and considers how historical discourses animate the present Characterising historical representations as dynamic conversations between then and now he demonstrates their powerful role in constructing present identities differences politics and communities In particular his is the first book to explore the ways in which lesbians and gay men have used history to define themselves as social cultural and political subjects

Women and Scottish Society, 1700-2000 W.W.J. Knox,2021-05-03 This book attempts to cover all the important aspects of a woman s life in Scotland examining how and why it changed over the last 300 years It walks us through the day to day existence of Scottish women and in doing so covers areas such as family and household education work and politics religion and sexuality crime and punishment While sensitive to the differences among women regarding colour class and sexuality the book seeks to establish a close and reciprocal relationship between women s history and gender history the first delineating the struggles of women for parity with men in economic legal and political spheres the second as means of unravelling the continuing ways in which power is unequally distributed within the home the workplace and in institutions and in contesting the male centred narratives of the past NGOs in Contemporary Britain N. Crowson,M. Hilton,J. McKay,2009-04-22

Examining the history of social movements and non state socio political action this volume shows how Non Governmental Organisations NGOs have proliferated in Britain since 1945 and how they have raised new political agendas revived associational life and arguably re politicized generations disillusioned with the politics of the ballot box **Sapphists and Sexologists; Histories of Sexualities** Mary McAuliffe,Sonja Tiernan,2009-03-26 Sapphists and Sexologists Histories of Sexualities Volume II contributes to the ever evolving debates on lesbian lives and histories This volume includes a mixture of engaging essays from established and young scholars and opens with a succinct incisive and often comical take on lesbian lives relationships and cats by internationally esteemed scholar Sally R Munt Unique essays include the personal reflections on writing historical fiction by the celebrated author Emma Donoghue and an exclusive conversational record from Joan Nestle on her life loves and activism The scope of this collection is truly international a collaborative work of scholars from many different disciplines universities and countries The central theme of the book continues from the first volume Tribades Tommies and Transgressives Histories of Sexualities in its questioning of established histories of sexualities methodologies and theoretical practices *Modern Criticism and Theory* Nigel Wood,David Lodge,2014-06-11 This third edition of Modern Criticism and Theory represents a major expansion on its previous incarnations with some twenty five new pieces or essays included This expansion has two principal purposes Firstly in keeping with the collection s aim to reflect contemporary preoccupations the reader has expanded forward to include such newly emergent considerations as ecocriticism and post theory Secondly with the aim of presenting as broad an account of modern theory as possible the reader expands backwards to to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx Freud and Virginia Woolf This radical expansion of content is prefaced by a wide ranging introduction which provides a

rationale for the collection and demonstrates how connections can be made between competing theories and critical schools. The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate. It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding. Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references. The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories. *Modern Criticism and Theory* has long been regarded as a necessary collection. Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today. *Social Movements and Sexual Citizenship in Southern Europe* A. Santos, 2012-11-28. This book explores the relationship between social movements, sexual citizenship and change in Southern Europe. Providing a comparative analysis about LGBT issues in Italy, Spain and Portugal, it discusses how activism can generate legal, political and cultural impact in post dictatorial Catholic and EU focused countries.
