Ethical, Legal, and Public Policy Implications

EDITED BY ROBERT F. WEIR

Stored Tissue Samples Ethical Legal And Public Policy Implications

Robert F. Weir

Stored Tissue Samples Ethical Legal And Public Policy Implications:

Stored Tissue Samples Robert F. Weir, 1998 Focusing on the debate over informed consent versus the needs of researchers the first essays analyze the implications of stored tissue samples in clinical settings for example obstetrics and pediatrics and research settings such as the international Human Genome Diversity Project Next professionals in medical history medicine and biomedical research philosophy biomedical ethics and law provide multidisciplinary perspectives Additional essays discuss special issues in the use of stored tissue samples in forensic and military settings two of these are written by professionals who helped establish the DNA registries at the FBI and the Department of Defense

Stored Tissue Samples Robert F. Weir, 1998 **The Stored Tissue Issue** Robert F. Weir, Robert S. Olick, Jeffrey C.

Murray, 2004-05-20 This book provides a thorough well balanced analysis of common research practices with banked tissues DNA and genetic data Describing many examples of beneficial tissue research the authors focus on problematic research practices controversial cases and federal and institutional policies that limit the informed choices of patients and research participants They offer a series of recommendations to help overcome these problems

Research Involving Human Biological Materials United States. National Bioethics Advisory Commission, 1999 Research Involving Human Biological

Materials: Commissioned papers United States. National Bioethics Advisory Commission, 1999 **Research Involving**

Human Biological Materials: Commissioned papers. Privacy and the analysis of stored tissues United States.

National Bioethics Advisory Commission, 1999 *Cells and Surveys* National Research Council, Commission on Behavioral

and Social Sciences and Education, Committee on Population, 2001-01-19 What can social science and demography in particular reasonably expect to learn from biological information There is increasing pressure for multipurpose household surveys to collect biological data along with the more familiar interviewer respondent information Given that recent technical developments have made it more feasible to collect biological information in non clinical settings those who fund design and analyze survey data need to think through the rationale and potential consequences This is a concern that transcends national boundaries *Cells and Surveys* addresses issues such as which biologic genetic data should be collected in order to be most useful to a range of social scientists and whether amassing biological data has unintended side effects The book also takes a look at the various ethical and legal concerns that such data collection entails

Research Involving Human Biological Materials: Commissioned papers. Privacy and the analysis of stored tissues, 1999 *Genetic Databases*

Oonagh Corrigan, Richard Tutton, 2004 *Genetic Databases* offers a timely analysis of the underlying tensions contradictions and limitations of the current regulatory frameworks for and policy debates about genetic databases Drawing on original empirical research and theoretical debates in the fields of sociology anthropology and legal studies the contributors to this book challenge the prevailing orthodoxy of informed consent and explore the relationship between personal privacy and the public good They also consider the multiple meanings attached to human tissue and the role of public consultations and

commercial involvement in the creation and use of genetic databases The authors argue that policy and regulatory frameworks produce a representation of participation that is often at odds with the experiences and understandings of those taking part The findings present a serious challenge for public policy to provide mechanisms to safeguard the welfare of individuals participating in genetic databases Tissue Economies Cathy Waldby, Robert Mitchell, 2006-03-20 DIVA cultural studies account of how the bio value of blood stem cells organs and cell lines moves back and forth between gift and commodity div
