Montana: A Cultural Medley Robert R. Swartout, Jr., 2015-07-15 The whole is greater than the sum of the parts when Montana historian Robert Swartout gathers the fascinating stories of the state's surprisingly diverse ethnic groups into this thought provoking collection of essays. Fourteen chapters showcase an African American nightclub in Great Falls, a Japanese American war hero, the founding of a Métis community, Jewish merchants and Dutch settlement in the Gallatin Valley, as well as stories of Irish Scots, Chinese, Finns, Mexican Americans, European war brides and more. *Montana Legacy* Harry W. Fritz, Mary Murphy, Robert R. Swartout, 2002 A rich and varied tapestry, *Montana Legacy* looks at the people, cultures, places and events that shaped present day Montana from Plentywood to Butte, Great Falls to Virginia City and Billings to Browning. Designed to make you think about Montana history in a new way, this anthology features sixteen essays chosen for their relevance, readability and scholarship. The volume's editors carefully selected topics that range across two centuries from the fur trade to power deregulation and expose Montana's cultural and geographical diversity. Join them in this exploration of Montana's past and gain a better understanding of Montana's future. 6 x 9, 392 pages, b/w photos. *Many Wests* David M. Wrobel, Michael C. Steiner, 1997 What does it mean to live in the West today? Do people tend to identify with states, with regions or with the larger West? This book examines the development of regional identity in the American West, demonstrating that it is a regionally diverse entity made up of many different wests: Great Plains, Southwest, Rocky Mountains and more, in which American regionalism finds its fullest expression. These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them. Wrobel and Steiner first offer a compelling overview of the West's regional nature, then thirteen other rising or renowned scholars from history, American Studies, geography and literature tell how regional consciousness formed among inhabitants of particular regions. All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities. Some focus on race and culture as the primary influences on regional consciousness, while others emphasize environmental and economic factors or the influence of literature. Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived. Each of the contributors believes that where a people live helps determine what they are, and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists. Many books speak of the West as a place, but few others deal with the West's different places. *Many Wests* presents a vision of the West that reflects both the common heritage and unique character of each major subregion, building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields. It is a book for everyone who lives in

studies or loves the West for it confirms that it is home to very different peoples economies histories and regions *The Bureau of Reclamation* Brit Allan Storey,2008 **Hope and Dread in Montana Literature** Ken Egan,2003 The rich literary tradition of Montana contends author Ken Egan Jr reflects a catastrophic vision of the West that shows the horrors of domination and the foolish and destructive habits of the imperial heart Since the 1860s Montana s writers have depicted struggles for survival in the state s dramatically beautiful but heartbreaking landscape and for decency in a region characterized by the headlong exploitation of both natural and human resources So too has Montana s political culture reflected the strife between the state s utopian potential and its often apocalyptic realities Egan s objective in this intellectually provocative and deeply perceptive survey of Montana s literary history is to demonstrate the roots of the state s literature in its conflicted history and complex mixture of racial and ethnic traditions and at the same time to offer the possibility of thoughtful solutions to the West s daunting social and environmental dilemmas through the insights of some of the state s best writers From the narratives of early explorers and ranchers Native Americans and settler women through the works of such major twentieth century luminaries as A B Guthrie and Ivan Doig Egan traces the evolution of Montanans early fantastic dreams of economic religious and cultural success into failure and despair violence and tragedy Yet side by side with these tales of woe are tales of endurance and even triumph evidence of the strength and creative potential of the state s people **Bone Deep in Landscape** Mary Clearman Blew,2000-09-01 Blew s reflections on a woman s life in the Rocky Mountain West immerse readers in the landscape of mountains and prairies and of blizzards and scorching sun Blew again demonstrates her artistry and strong connection to the Western terrain of her past and present homes in Montana and Idaho Publishers Weekly 9 illustrations [Big Sky Rivers](#) Robert Kelley Schneiders,2003 To frame his story Schneiders goes back to the nineteenth century journals of fur traders and settlers and in the record of flora fauna floods and human activity he finds evidence of rapid and disruptive change Bison once had the greatest influence on the land and Schneiders depicts an original bison and Indian trail networks on which were overlaid the first torts and towns and then the railroads highways and reservoirs that reconfigured the region forever
