Sky Stories Roger Ptak,1998 Most of the constellations the patterns of stars found in the night sky are connected with the ancient myths which people developed to give meaning to what they saw in the sky based on the

experience of their culture The ideas of modern astronomy play a similar role for us today They are stories which help us understand the phenomena we discover when we look deeper into the sky than is possible with eyes alone In this book the ancient sky stories and those of modern astronomy are woven together in a unique way Coverage includes twenty four important constellations as well as the sun and the moon and the sky as a whole For each of these one of the old stories is tied together with the astronomical understanding of a key feature in that part of the sky allowing one story to serve as a reminder for the other

Astrology The Myths, Astrology Today, Your Star Sign Marcia Etren, 2021-03-09 Most of us will read the daily or weekly horoscopes provide by newspapers and magazines They are viewed in the main as light entertainment Serious readers of charts and planetary influence dismiss them as cheap fodder The same can't be said of character similarities they can be rather accurate at times and deserve more credit than is currently given

Psychological Astrology and the Twelve House Noel Eastwood, 2015-06-23

Psychological Astrology and the Twelve Houses will surprise you whether you are a complete beginner or a seasoned professional Noel Eastwood is an astrologer tarotist and has recently retired from his psychology practice He approaches astrology as an altered state of consciousness He walks you through the houses of the natal chart like a good travel guide who knows that sightseeing is not enough to make a journey memorable you need to experience the place for yourself meet the locals in small cafés discover hidden fountains and secret gardens This is a practice oriented work Noel takes every opportunity to demonstrate how astrological symbolism translates into the personality of an individual He picked four well known figures to illustrate the process of analysis on their charts What makes this book truly unique however is an invitation to meet your astrological archetypes To show where such an inner journey can take you Noel shares his personal meditations as if you were reading his private travel diary Also available as an audiobook Reviews Comprehensive and concise with great meditations and stories Lots of interesting insights The author is an excellent reader B I was very excited to read his book because it takes on some intensely personal subject matter from a psychological perspective which Noel is uniquely qualified to write about since he is that rare combination that I wish we had more of in the astrological world a practicing psychologist and astrologer His areas of expertise are Jungian and archetypal psychology astrology Tarot and Taoist meditation so he is well versed in the realms of the psyche My first impression once I got started reading is that this book is an ideal blend of serious subject matter handled with respect for the reader with just enough astrologese for the basic to medium advanced astrology student Noel does not overwhelm you with the level of detail that is automatically off putting for the beginner You won't be scared picking up this book in other words if you aren't an astrology expert This book is for the person who in my opinion would be dissatisfied with the superficial or cookbook style astrology book and is looking for something that goes deeper that explains the pieces of the self we don't usually discuss even in the astrological world but most people who want

to understand their own and others psychology wish could be discussed with some depth and understanding of what's really going on in our psyches as expressed through our natal charts Speaking as a professional astrologer I personally got the most out of the very end of the book where Noel discusses houses as psychological defenses If you read this book for nothing else get it for the series of meditations Noel asks you to do those on their own are very valuable and I would suggest keeping a journal as you go to capture your responses A valuable book for the person looking for psychological self awareness AG I have studied astrology for years and buy a new book every now and then to enhance my understanding This book is the first in a long time that really had me intrigued and learning had my highlighter out Eastwood's combination of astrology and psychology knowledge experience makes the content easier to follow and provides a much deeper foundation on how to interpret the 12 houses what's in them and what's NOT and other key influences Looking forward to the next two books in this series J This book is exactly what I was looking for Excellent information presented in an entertaining and logical way For the serious student only I would advise I've been on the metaphysical road pretty much since birth have studied astrology charts for over 25 years This book truly helped me synthesize an enormous amount of facts and data that constantly swim around in my head Noel Eastwood Thank you sir for taking the time and making the effort to help students like me on our sometimes strange and difficult yet always amazing personal journeys For me healing is the goal knowledge is the path and application practice are the keys This book makes a great contribution and I look forward to more from this author teacher AS
