Stories Of Family Caregiving:

Stories of Family Caregiving Suzanne Poirier, Lioness Ayres, 2002-01-01 This interdisciplinary book explores the experiences of women and men who provide long term life sustaining care to family members Family caregiving has historically been perceived as the overwhelming and frequently onerous duty of beleaguered and or saintly women Although this portrait may apply to some situations overall this predominately upper middle class white image of the angel in the house is limited and dangerously stereotypical This book brings a narrative approach to the subject through stories from fiction and autobiography and from interviews with the family caregivers that explore their experiences in all their contradictions hopes and fears The authors examine the narratives of family caregiving as related in literary accounts and interviews and the theories of care in feminism and nursing They also consider the foundations on which these theories rest and challenge health professionals to think contextually about both theories and stories Chicken Soup for the Soul: Family Caregivers Joan Lunden, Amy Newmark, 2012-03-13 Readers caring for an ailing family member will find support and encouragement in these stories by others like them Chicken Soup for the Soul Family Caregivers will inspire and uplift family members who are making sacrifices to make sure their loved ones are well cared for Do you have a family member who requires constant care You are not alone This collection offers support and encouragement in its 101 stories for family caregivers of all ages including the sandwich generation caring for a family member while raising their children With stories by those on the receiving end of the care too These stories of love sacrifice and lessons will inspire and uplift family members making sacrifices to make sure their loved ones are well cared for whether in their own homes or elsewhere **Mental Illness, Dementia and Family in China** Guy Ramsay, 2013-03-12 With rapid economic progress and increasing life expectancy in East Asian societies more attention is being paid by their governments the media and the academy to mental illness and dementia While clinical research on mental illness and dementia in Chinese societies acknowledges the importance of culture in shaping people s experiences of these illnesses how Chinese culture shapes people s understandings of and responses to mental illness and dementia has yet to be interrogated to any depth Mental Illness Dementia and Family in China breaks new ground in exploring how Chinese culture namely the understandings norms values and scripts that people acquire through being members of a Chinese community shapes contemporary stories of mental illness dementia and family care giving This book is innovative in examining and comparing stories which have been drawn from both real life life stories as well as from film and television productions filmic stories These two forms effectively complement each other with life stories generally presenting an insider s account and filmic stories generally presenting an outsider s account What remains unvoiced in one kind of story may be voiced in the other kind Drawing on the perspectives and analytic approaches of narrative analysis and cultural studies Guy Ramsay uncovers culturally shaped continuities and departures in representations of time identity and cause of illness as well as in the language employed in contemporary stories of mental
