Stories Of Our Mormon Hymns:

Stories of Our Mormon Hymns J. Spencer Cornwall, 1963 **Stories of Our Mormon Hymns** Joseph Spencer Cornwall, 1980 *A Selected List of References on Mormon Folklore and Folksong*, 1970 **Christian Hymnody in Twentieth-Century Britain and America** David Music, 2001-07-30 The 20th century especially the latter decades was a time of explosive growth and importance in hymnody and yet published material about the hymnody of this period has been scattered and difficult to come by The present volume catalogues and categorizes the available writings to guide students and scholars in their research Furthermore this reference does not depend primarily on the view of the author compiler but guides users toward a broad spectrum of viewpoints about 20th century hymnody Listing the principal writings on the repertory language practice and people of hymnody during the last century this annotated bibliography offers students and researchers alike a handy reference for a vast and varied field Beginning with a unique introduction to and summary of hymnody in the 20th century Music arranges the entries by topic dividing each chapter by helpful subject headings The repertory of the twentieth century and language issues are discussed Practical elements of hymnody are covered while the final chapter lists writings about individual hymn writers and other influential persons in the field Music provides a brief annotation for each entry and uses numerous cross references guiding the reader to relevant material in other sections of the book A comprehensive index concludes this essential reference **The A to Z of Sacred Music** Joseph P. Swain, 2010-04-09 Nearly all religious traditions have reserved a special place for sacred music Whether it is music accompanying a ritual or purely for devotional purposes music composed for entire congregations or for the trained soloist or music set to holy words or purely instrumental in some form or another music is present In fact in some traditions the relation between the music and the ritual is so intimate that to distinguish between them would be inaccurate The A to Z of Sacred Music covers the most important aspects of the sacred music of Buddhism Christianity Confucianism Hinduism Islam Judaism and other smaller religious groups It provides useful information on all the significant traditions of this music through the use of a chronology an introductory essay a bibliography appendixes and hundreds of cross referenced dictionary entries on major types of music composers key religious figures specialized positions genres of composition technical terms instruments fundamental documents and sources significant places and important musical compositions 19th Century Love Affair of Joseph Smith & Emma Hale Annette Bolton, 2017-12-14 The 19th Century Love Affair of Joseph Smith and Emma Hale was born out of the author s study of LDS polygamy polyandry and child marriage within the early days of the LDS Church The author s grandfather was a polygamist and could first hand see the strain on the last wife of her grandfather Grandma Cleo worked and cooked for 45 children during family gatherings I never saw her tire but I was always sorry for her I tried to stay out of the way and not get into trouble so I minded my business as was the discipline at that time My father did not want anything to do with polygamy so our immediate family was spared the pain of that God forsaken lifestyle

Historical Dictionary of Sacred Music Joseph P. Swain, 2016-10-11 Sacred music is a universal phenomenon of humanity Where there is faith there is music to express it Every major religious tradition and most minor ones have music and have it in abundance and variety There is music to accompany ritual and music purely for devotion music for large congregations and music for trained soloists music that sets holy words and music without words at all In some traditions Islamic and many Native American to name just two the relation between music and religious ritual is so intimate that it is inaccurate to speak of the music accompanying the ritual Rather to perform the ritual is to sing and to sing the ritual is to perform it This second edition of *Historical Dictionary of Sacred Music* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 800 cross referenced entries on major types of music composers key religious figures specialized positions genres of composition technical terms instruments fundamental documents and sources significant places and important musical compositions This book is an excellent access point for students researchers and anyone wanting to know more about sacred music
