The Martian Race:

The Martian Race Gregory Benford, 2024-09-24 The Nebula Award winning author's classic hard SF thriller of a race to Mars and the strange and beautiful things encountered on the Red Planet Publishers Weekly In the early twenty first century a 30 billion dollar prize will be awarded to the private organization that successfully lands a spaceship on Mars Eccentric billionaire John Axelrod believes he can accomplish the impossible challenge But following closely behind his Consortium is a joint venture mounted by China and Europe The race to the Red Planet is on but getting there is just the beginning *The Martian Race* Gregory Benford, 2014-07-02 From the Nebula Award winning author of Timescape and Foundation's Fear comes a hard science thriller about the race to Mars that will tie into NASA's upcoming landing on the planet

Destination Mars Andrew May, 2017-07-06 Mars is back Suddenly everyone from Elon Musk to Ridley Scott to Donald Trump is talking about going to the Red Planet When the Apollo astronauts walked on the Moon in 1969 many people imagined Mars would be next However NASA's Viking 1 which landed in 1976 was just a robot The much anticipated crewed mission failed to materialise defeated by a combination of technological and political challenges Four decades after Viking and almost half a century after Apollo technology has improved beyond recognition as has politics As private ventures like SpaceX seize centre stage from NASA Mars has undergone a seismic shift it's become the prime destination for future human expansion and colonisation But what's it really like on Mars and why should anyone want to go there How do you get there and what are the risks Astrophysicist and science writer Andrew May answers these questions and more as he traces the history of our fascination with the Red Planet [Empire of Mars](#) Stephen Darnell, 2023-01-06 On Mars some 65 million years ago two civilisations live uneasily side by side When a good friend of antagonist Aka des is conscripted into the service of the god Emperor he has no option but to try and find him unearthing unimaginable horrors at the seat of imperial power in the process Outside the Martian city the insectoid Antis imperilled by the continued expansion of the humanoid Martians into their tribal lands have to make a choice Can war between the two races be averted and can Aka des prove to a disbelieving world what is really happening in their name Meanwhile in the near future explorers from Earth make startling discoveries on the Red Planet which provide a link with its distant past What they uncover will change people's view of Mars forever and pose a growing threat to the mission and the lives of the isolated band of pioneers themselves [The Haunted States of America](#) James Morgart, 2022-05-15 The study highlights several writers who have not received much if any attention among Gothic scholars This allows readers exposure to writers they may have never encountered before or may realize dimensions to the authors works they have never considered The study reconsiders scholarship's understanding of post war American literature This gives readers students and scholars a new approach to discussing post war fiction that is not delimited to widely accepted understanding of how Cold War anxieties were manifested in fiction The study contextualizes the fiction it examines within each work's respective region This allows readers a new way of approaching not just post war Gothic fiction

but Gothic fiction in general The Subject of Race in American Science Fiction Sharon DeGraw,2006-12-19 While the connections between science fiction and race have largely been neglected by scholars racial identity is a key element of the subjectivity constructed in American SF In his Mars series Edgar Rice Burroughs primarily supported essentialist constructions of racial identity but also included a few elements of racial egalitarianism Writing in the 1930s George S Schuyler revised Burroughs normative SF triangle of white author white audience and white protagonist and promoted an individualistic highly variable concept of race instead While both Burroughs and Schuyler wrote SF focusing on racial identity the largely separate genres of science fiction and African American literature prevented the similarities between the two authors from being adequately acknowledged and explored Beginning in the 1960s Samuel R Delany more fully joined SF and African American literature Delany expands on Schuyler s racial constructionist approach to identity including gender and sexuality in addition to race Critically intertwining the genres of SF and African American literature allows a critique of the racism in the science fiction and a more accurate and positive portrayal of the scientific connections in the African American literature Connecting the popular fiction of Burroughs the controversial career of Schuyler and the postmodern texts of Delany illuminates a gradual change from a stable essentialist construction of racial identity at the turn of the century to the variable social construction of poststructuralist subjectivity today *Orbital 2100* Paul Elliott,2016-09-25 *Orbital 2100* is a science fiction setting for Cepheus Engine and other Classic 2D6 SF RPGs It has realistic TL 9 feel that is set within our own solar system The Earth is locked in a Cold War with the people of Luna Both face off 400 000 km apart threatening mutual annihilation whilst they compete to colonise the moons of Jupiter and Saturn Older colonies such as Mars and Mercury are independent and caught up in this struggle for solar system supremacy Spacecraft use nuclear thermal rockets and create gravity by spinning pods or centrifuges this is spaceflight as envisaged today In keeping with the near future and hard science fiction themes role playing campaigns focus on real people doing real jobs The game has rules technology and advice to allow scenarios based around deep space haulage asteroid mining salvage rescue and exploration Colour cover with B W interior Claim a free copy of the full colour PDF by contacting Zozer <https://www.pauelliottbooks.com/contact.html> Dying Planet Robert Markley,2005-09-08 For more than a century Mars has been at the center of debates about humanity s place in the cosmos Focusing on perceptions of the red planet in scientific works and science fiction *Dying Planet* analyzes the ways Mars has served as a screen onto which humankind has projected both its hopes for the future and its fears of ecological devastation on Earth Robert Markley draws on planetary astronomy the history and cultural study of science science fiction literary and cultural criticism ecology and astrobiology to offer a cross disciplinary investigation of the cultural and scientific dynamics that have kept Mars on front pages since the 1800s Markley interweaves chapters on science and science fiction enabling him to illuminate each arena and to explore the ways their concerns overlap and influence one another He tracks all the major scientific developments from observations through primitive telescopes in the seventeenth

century to data returned by the rovers that landed on Mars in 2004 Markley describes how major science fiction writers H G Wells Kim Stanley Robinson Philip K Dick Edgar Rice Burroughs Ray Bradbury Robert Heinlein and Judith Merrill responded to new theories and new controversies He also considers representations of Mars in film on the radio and in the popular press In its comprehensive study of both science and science fiction *Dying Planet* reveals how changing conceptions of Mars have had crucial consequences for understanding ecology on Earth
