The Mastery Of Submission Inventions Of Masochism Cornell Studies In The History Of Psychiatry

Richard H. Armstrong

The Mastery Of Submission Inventions Of Masochism Cornell Studies In The History Of Psychiatry:

The Mastery of Submission John K. Noyes, 2018-09-05 Individuals sometimes derive sexual pleasure from submission to cruel discipline While that predilection was noted as early as the sixteenth century masochism was not codified as a concept until 1890 According to John K Noyes its invention reflected a crisis in the liberal understanding of subjectivity and sexuality which continues to inform discussions of masochism today In essence it remains a political concept Viennese physician Richard von Krafft Ebing coined the term masochism based on the work of Leopold von Sacher Masoch Noyes analyzes the social and political problems that inspired the concept suggesting for example that the triumphant expansion of European colonialism was in part animated by an ambivalence in masculine sexuality Noyes documents the evolution of the concept of masochism with scenes in literature from John Cleland s *Fanny Hill* through Sacher Masoch s *Venus in Furs* and Pauline Reage s *Story of O* Analysis of Freud s vastly influential rereading of masochism precedes an exploration of the work of his successors including Wilhem Reich Theodor Reik Helene Deutsch and Karen Horney Noyes suggests that the thematics of feminine masochism emerged only gradually from an exclusively male concept

Clinical Psychiatry in Imperial Germany Eric J. Engstrom, 2018-07-05 The psychiatric profession in Germany changed radically from the mid nineteenth century to the beginning of World War I In a book that demonstrates his extensive archival knowledge and an impressive command of the primary literature Eric J Engstrom investigates the history of university psychiatric clinics in Imperial Germany from 1867 to 1914 emphasizing the clinical practices and professional debates surrounding the development of these institutions and their impact on the course of German psychiatry The rise of university psychiatric clinics reflects Engstrom tells us a shift not only in asylum culture but also in the ways in which social political and economic issues deeply influenced the practice of psychiatry Equally convincing is Engstrom s argument that psychiatrists were responding to and working to shape the rapidly changing perceptions of madness in Imperial Germany In a series of case studies the book focuses on a number of important clinical spaces such as the laboratory the ward the lecture hall and the polyclinic Engstrom argues that within these spaces clinics developed their own disciplinary economies and that their emergence was inseparably intertwined with jurisdictional contests between competing scientific administrative didactic and sociopolitical agendas

Colonial frontiers Lynette Russell, 2017-03-01 Cross cultural encounters produce boundaries and frontiers This book explores the formation structure and maintenance of boundaries and frontiers in settler colonies The southern nations of Australia New Zealand and South Africa have a common military heritage as all three united to fight for the British Empire during the Boer and First World Wars The book focuses on the southern latitudes and especially Australia and Australian historiography Looking at cross cultural interactions in the settler colonies the book illuminates the formation of new boundaries and the interaction between settler societies and indigenous groups It contends that the frontier zone is a hybrid space a place where both indigene and invader come together on land that each one believes to be their own The best way to

approach the northern Cape frontier zone is via an understanding of the significance of the frontier in South African history The book explores some ways in which discourses of a natural prehistoric Aboriginality inform colonial representations of the Australian landscape and its inhabitants both indigenous and immigrant The missions of the London Missionary Society LMS in Polynesia and Australia are examined to explore the ways in which frontiers between British and antipodean cultures were negotiated in colonial textuality The role of the Treaty of Waitangi in New Zealand society is possibly the most important and controversial issue facing modern New Zealanders The book also presents valuable insights into sexual politics Aboriginal sovereignty economics of Torres Strait maritime and nomadism

A Compulsion for Antiquity Richard H. Armstrong, 2006 If psychoanalysis is the return of repressed antiquity distorted to be sure by modern desire yet still bearing the telltale traces of the ancient archive then would not our growing distance from the archive of antiquity also imply that we are in the process of losing our grip on psychoanalysis itself as Freud conceived it from Chapter 1 As he developed his striking new science of the mind Sigmund Freud had frequent recourse to ancient culture and the historical disciplines that draw on it A Compulsion for Antiquity fully explores how Freud appropriated figures and themes from classical mythology and how the theory and practice of psychoanalysis paralleled contemporary developments in historiography archaeology philology and the history of religions Drawing extensively from Freud's private correspondence and other notes and documents Richard H Armstrong touches on Freud's indebtedness to Sophocles and the Oedipus complex his interest in Moses and the Jewish religion and his travels to Athens and Rome Armstrong shows how Freud turned to the ancient world to deal with the challenges posed by his own scientific ambitions and how these lessons influenced the way he handled psychic evidence and formulated the universal application of what were initially isolated clinical truths Freud's narrative reconstructions of the past also related to his sense of Jewishness linking the historical trajectory of psychoanalysis with contemporary central European Jewish culture Ranging across the breadth of Freud's work A Compulsion for Antiquity offers fresh insights into the roots of psychoanalysis and fin de siècle European culture and makes an important contribution to the burgeoning discipline of mnemohistory

Performances of Masculinity in the Avant-garde and Performance Art Tate Austin Davis, 2001 **Pain J.**

Moscato, 2012-09-10 Halfway between history and philosophy this book deals with the historical forms that have permitted the understanding of human suffering from the Renaissance to the present Representation sympathy imitation coherence and narrativity are but a few of the rhetorical recourses that men and women have employed in order to feel our pain

Sublime Surrender Suzanne Stewart-Steinberg, 2018-05-31 When Heinrich Heine left his sick bed in 1848 and stumbled to the Louvre to fall before a statue of the goddess of beauty and lie in the pitying cold glance she seemed to cast on his prostrate body he defined a recurring motif of the second half of the nineteenth century according to Suzanne R Stewart Directing her attention to the voice of the shriveled male body at beauty's feet she investigates the discourse by and about men that took hold in the German speaking world between 1870 and 1940 and that articulated masculinity as and through its

own marginalization Male masochism she suggests was a rhetorical strategy through which men asserted their cultural and political authority paradoxically by embracing the notion that they were and always had been wounded and suffering Stewart demonstrates and develops her contentions through close readings of the work of Leopold von Sacher Masoch Richard Wagner and Sigmund Freud in each case showing that the very act through which men sacrificed themselves to women comprised the essence of the new male subject deeply penetrated by relations of political and sexual power Masochistic scenarios whether in literature music the visual arts or medicalized diagnoses of the fin de siècle malaise stage the male as one who submits as Stewart explains to an aestheticized and eroticized gaze and voice

The Representation of Masochism and Queer Desire in Film and Literature B. Mennel, 2016-04-30 Defining masochism as literary perversion this book probes the productivity of masochistic aesthetics in the literature of Leopold von Sacher Masoch and contemporary queer films analysing radical accounts of desire gender and sexuality

The Soft City Terry Williams, 2022-04-13 There is no rawer human experience than sex and in a city as diverse as New York sexual experiences come in many forms In the pre Giuliani days temptation flooded Times Square on theater marquees and neon signs Behind unmarked doors downtown more adventurous experiences awaited for those in the know In *The Soft City* the ethnographer Terry Williams with the help of accomplices and informants ventures deep into the underground world of sex in New York The book explores different aspects of the perverse space of the city porn theaters sex shops peep shows restroom cruising sadomasochism clubs swingers events and many more Featuring field notes taken between 1975 and the present *The Soft City* documents the ways that New Yorkers on the social periphery have thought about and pursued sex whether for recreation or to make a living It also presents an unconventional account of New York City's many transformations showing how the soft city its people and their unique character evolved in response to official and social pressures Featuring Williams's unmistakable portraits of the demimonde as well as the accounts of other ethnographers challenging themselves to dive into the city's hidden crannies *The Soft City* is as irreproducible as it is provocative

A history of the case study Birgit Lang, Joy Damousi, Alison Lewis, 2017-03-31 This collection tells the story of the case study genre at a time when it became the genre par excellence for discussing human sexuality across the humanities and life sciences It is a transcontinental journey from the imperial world of fin de siècle Central Europe to the interwar metropolises of Weimar Germany and to the United States of America in the post war years Foregrounding the figures of case study pioneers and highlighting their often radical engagements with the genre the book scrutinises the case writing practices of Sigmund Freud and his predecessor sexologist Richard von Krafft Ebing writers including Leopold von Sacher Masoch and Alfred Döblin Weimar intellectuals such as Erich Wulffen and psychoanalyst Viola Bernard The results are important new insights into the continuing legacy of such writers and into the agency increasingly claimed by the readerships that emerged with the development of modernity An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence
