

WHAT IS SEXUALITY?

Sexuality is how people experience and express themselves as human beings. It involves values, thoughts, feelings and relationships.

The most important thing to understand about **sexuality** is that it is self-defined; that is, that every person is allowed to talk about their own sexuality in their own way that makes sense to them.

World Health Organization defines sexuality as "...a central aspect of being human throughout life encompasses sex, gender identities and roles, sexual orientation, eroticism, pleasure, intimacy and reproduction".

The Meaning of Sex Dennis P. Hollinger, 2009-06-01 Our culture is not only sex crazed but also deeply confused about sex and sexual ethics Unfortunately Christians seem equally confused and the church has tended to respond with simplistic answers The reason for this confusion is that the meaning of sex has been largely lost Dennis Hollinger argues that there is indeed a God given meaning to sex This meaning found in the Christian worldview provides a framework for a biblical sexual ethic that adequately addresses the many contemporary moral issues The Meaning of Sex provides a good balance between accessible theology and engaging discussion of the practical issues Christians are facing including premarital sex sex within marriage homosexuality reproductive technologies and faithful living in a sex obsessed world
