The Media And Foreign Policy

James F. Larson

The Media And Foreign Policy:

News Media and Foreign Relations Abbas Malek, 1997 The first section of the book addresses theoretical issues and lays a foundation for analysis of the role of the media in foreign relations The second part provides empirical studies demonstrating some of these relationships Annotation copyrighted by Book News Inc Portland OR *The Media and Foreign Policy* Simon Serfaty, 2014-01-14 In this volume journalists and officials as well as academic experts analyze the respective roles of the press and the government in the formulation and implementation of American foreign policy It examines the influence of the media on issues such as the US involvement in Vietnam *Foreign Policy and the Media* Jarno S. Lang, 2016-09-27 This book analyzes the response of the Indonesian press to American foreign policy during the administrations of Presidents Bush and Obama Situated in Southeast Asia Indonesia is the world's fourth most populous country and the largest Muslim nation and as such is a potentially vital economic and strategic partner to the US in the 21st century Ever since Indonesian independence post World War II relations to the US have been marked by ups and downs The author argues that the way the Indonesian public perceives the world has an impact on the national self image that again heavily influences national foreign affairs For both the US and Indonesia this is a crucial moment in bilateral relations This study explores Indonesian media responses to American foreign policy by analyzing more than 400 press articles In the context of President Obama's declared pivot to Asia both countries need to find a way to foster better relations *The Media and Foreign Policy* Simon Serfaty, 1990 **The Internet and Foreign Policy** James F. Larson, 2004 This headline series explores the competing views and complexities of a changing relationship between the media and foreign policy **The News Media and Foreign Policy** Brian Buckley, Dalhousie University. Centre for Foreign Policy Studies, 1998 *Media Pressure on Foreign Policy* Derek Miller, 2007-07-09 This study offers an explicit theory of media pressure what it is how it works how it can be measured based in part on the positioning theory in discursive psychology This offers the first independent and comparative history and analysis of media pressure vs coverage through the lens of the insurrection against Saddam Hussein in 1991 **The Oxford Handbook of American Public Opinion and the Media** Robert Y. Shapiro, Lawrence R. Jacobs, 2013-05-23 With engaging new contributions from the major figures in the fields of the media and public opinion The Oxford Handbook of American Public Opinion and the Media is a key point of reference for anyone working in American politics today *Global Television And The Politics Of The Seoul Olympics* James F. Larson, Heung-soo Park, 1993-12-28 **Chinese Authoritarianism in the Information Age** Suisheng Zhao, 2019-06-24 This book examines information and public opinion control by the authoritarian state in response to popular access to information and upgraded political communication channels among the citizens in contemporary China Empowered by mass media particularly social media and other information technology Chinese citizens' access to information has been expanded Publicly focusing events and opinions have served as catalysts to shape the agenda for policy making and law making narrow down the set of policy

options and change the pace of policy implementation Yet the authoritarian state remains in tight control of media including social media to deny the free flow of information and shape public opinion through a centralized institutional framework for propaganda and information technologies The evolving process of media control and public opinion manipulation has constrained citizen s political participation and strengthened Chinese authoritarianism in the information age The chapters originally published as articles in the Journal of Contemporary China
