The Merchant Of Menace:

The Merchant of Menace Kenneth Bedford,1968 The Merchant of Menace John Stevenson,1980 The Traitorous Templar Richard T. Ryan,2024-09-23 Early one morning the curator of the Wallace Collection calls upon Sherlock Holmes requesting the Great Detective s assistance Over the past few weeks someone has been paying nocturnal visits to the gallery and apparently spending a great deal of time in one of the rooms devoted to medieval arms and armour Although nothing appears to have been taken the curator wants to know who is visiting after hours and why When Holmes inspects the room he makes a startling discovery that sets in motion a chain of events which ends up pitting Holmes against a modern day Templar As he follows the clues he finds himself exploring an underground storeroom that dates from the Middle Ages and traveling to Cornwall to examine the vestiges of buildings erected by the Templars centuries earlier All the while he is being shadowed by an adversary who seems at least equal to Holmes if not one step ahead It s a cat and mouse game that can have only one winner unfortunately no one not even Holmes knows what the prize is *The Druid of Death* Richard T. Ryan,2018-07-31 On the morning of the vernal equinox in 1899 Holmes is roused from his bed by Lestrade The inspector has received a report of a girl brutally murdered at Stonehenge Upon arriving at the famed site Holmes discovers the body of a young woman On her forehead painted in blood is a druidic symbol On her side also in blood is a message written in a strange language that neither Holmes nor Lestrade can decipher The girl was also eviscerated and her organs placed around her body As a final touch branches from yew trees had been artistically arranged around the corpse Holmes senses a malevolent force at work but without data he is powerless As the weeks pass he slowly gathers information about the ancient druids and Celtic mythology and begins to assemble a small army of experts to assist him Expecting the killer to strike again on the summer solstice Holmes and Watson travel to the Nine Ladies in Derbyshire the site of another stone circle that harkens to druidic times While they are holding their vigil Lestrade and his men are off keeping watch over the stone circles at Avebury and several other locations The Great Detective s worst fears are realized when on the morning of the summer solstice he learns that the body of a young man has been discovered in the eye of the White Horse of Uffington Like the first victim he too has been marked with a druidic symbol and his body bears a message Aside from the symbol and the message the only other difference appears to be that his body and organs have been surrounded by willow branches Realizing full well that a maniac reminiscent of the Ripper is on the loose Holmes and Watson find themselves in a race against time as they try to locate the cult identify the killer and prevent another tragedy **Explorations in New Cinema History** Richard Maltby,Daniel Biltereyst,Philippe Meers,2011-05-06 Explorations in New Cinema History brings together cutting edge research by the leading scholars in the field to identify new approaches to writing and understanding the social and cultural history of cinema focusing on cinema s audiences the experience of cinema and the cinema as a site of social and cultural exchange Includes contributions from Robert Allen Annette Kuhn John Sedwick Mark Jancovich Peter Sanfield and Kathryn
