The Middle Babylonian Legal And Economic Texts From Ur:

The Middle Babylonian Legal and Economic Texts from Ur Oliver Robert Gurney, 1983 A full edition on the 72 tablets found during 1926 to 1927 Middle Babylonian Texts in the Cornell Collections, Part II Elena Devecchi, 2020-12-11 This volume completes the publication of Middle Babylonian texts from the Rosen Collection that date to the Kassite period a project that was initiated by Wilfred H van Soldt with CUSAS 30 in 2015 In this book Elena Devecchi provides full transliterations translations and extended commentaries of 338 previously unpublished cuneiform tablets from Kassite Babylonia ca 1475 1155 BCE Most of the texts are dated to the reigns of Nazi Marutta and Kada man Turgu but the collection also includes one tablet dating to the reign of Burna Buria II and a few documents from the reigns of Kada man Enlil II Kudur Enlil and agarakti uria as well as some that are not dated The tablets published here are largely administrative records dealing with the income storage and redistribution of agricultural products and byproducts animal husbandry and textile production while legal documents and letters comprise a smaller portion of the collection Evidence suggests that these documents originated from an administrative center that interacted closely with the provincial capital Nippur and must have been located in its vicinity They thus expand significantly our previous knowledge of the Nippur region under Kassite rule hitherto almost exclusively based on sources that came from Nippur itself and provide substantial new data for the study of central aspects of society economy and administration that traditionally lie at the core of research about Kassite Babylonia
