The Middle East In World Affairs:

The Middle East in World Affairs George Lenczowski,1980 **The Middle East in World Affairs** George Lenczowski,1953 **The Middle East in International Relations** Fred Halliday,2005-01-24 The international relations of the Middle East have long been dominated by uncertainty and conflict External intervention interstate war political upheaval and interethnic violence are compounded by the vagaries of oil prices and the claims of military nationalist and religious movements The purpose of this book is to set this region and its conflicts in context providing on the one hand a historical introduction to its character and problems and on the other a reasoned analysis of its politics In an engagement with both the study of the Middle East and the theoretical analysis of international relations the author who is one of the best known and most authoritative scholars writing on the region today offers a compelling and original interpretation Written in a clear accessible and interactive style the book is designed for students policymakers and the general reader *The Middle East in World Affairs ... Third Edition. [With a Map.].* George Lenczowski,1962 **The Gulf And The Search For Strategic Stability** Anthony H. Cordesman,2019-09-06 This book provides an extensive military and strategic analysis of the Gulf and the Arabian Peninsula assessing the regional military balance the internal security and stability of each Gulf nation the evolution of each nation s forces from 1969 into 1983 and the impact of defense spending and Western and Soviet bloc arms sales in the region Comprehensive statistics are provided on arms transfers to each country since 1969 and on the forces each nation is capable of deploying in the Gulf **The Middle East in World Affairs** Abba Solomon Eban,1952 *The Middle East* Institute of World Affairs,University of Southern California,1973-01-01 In many respects this book represents a considerable departure from traditional works on international relations in the Middle East Instead of offering partial explanations based on conventional approaches this book attempts to incorporate studies with different methodological approaches and with the Middle East Foreign affairs specialists offer balanced and linguistically neutral commentaries while marshalling empirical data to support their analyses The result is a broad synthesis which helps the reader see the larger picture despite its complexity The Middle East is considered as a subordinate system of the international political system in Part 1 The chapters in this section focus on the nations of the area and their interactions within the subsystem The papers also examine the implications of these interactions to the nations outside the Middle East In Part 2 the scope of inquiry is enlarged to treat interactions between the major world powers and the nations of the Middle East Papers in Part 3 focus upon American foreign policy in the Middle East This portion examines the roles of various special interest groups such as the oil companies Zionists the United States Congress newspapers and religious bodies as they relate to the formation of American policy for the Middle East In essence The Middle East is an international relations study of the Middle East Additionally it has new material the treatment of religious influences upon the Middle East the attitudes of some major newspapers towards the middle East conflict and the domestic position of Israel regarding the Arab Israeli conflict seldom

discussed in other works **Area Handbook for Saudi Arabia** ,1966 *The Middle East* ,1989 **Air University Quarterly Review** ,1953 **International Relations of the Middle East** Louise Fawcett,2013-03-21 Leading scholars of Middle East politics and international relations present comprehensive coverage of the international politics of the Middle East a region at the forefront of international attention **The Routledge Handbook to the Middle East and North African State and States System** Raymond Hinnebusch,Jasmine Gani,2019-11-08 Conflict and instability are built into the very fabric of the Middle East and North African MENA state and states system yet both states and states system have displayed remarkable resilience How can we explain this This handbook explores the main debates theoretical approaches and accumulated empirical research by prominent scholars in the field providing an essential context for scholars pursuing research on the MENA state and states system Contributions are grouped into four key themes Historical contexts state building and politics in MENA State actors societal context and popular activism Trans state politics the political economy and identity contexts The international politics of MENA The 26 chapters examine the evolution of the state and states system before and after independence and take the 2011 Arab uprisings as a pivotal moment that intensified trends already embedded in the system exposing the deep features of state and system specifically their built in vulnerability and their ability to survive This handbook provides comprehensive coverage of the history and role of the state in the MENA region It offers a key resource for all researchers and students interested in international relations and the Middle East and North Africa **China's Foreign Policy in the Arab World, 1955-75** Hashim S.H. Behbehani,2020-09-10 China s foreign policy in the Arab world is important because it reflects China s general foreign policy In this study first published in 1981 the author draws upon a wealth of previously unpublished and inaccessible material to analyse Chinese attitudes in three cases the two Arab liberation movements the Palestine Resistance Movement and the Popular Front for the Liberation of the Oman and the established and independent State of Kuwait Since the Arab liberation movements played a significant political role within their fields of operation it was necessary for China to decide whether these movements did actually fit in with Chinese foreign policy objectives Dr Behbehani s analysis of these two case studies provides the basis for a discussion of whether China s motives in supporting the liberation movements are theoretical or purely practical China s support for Kuwait s political internal continuity is related to the stability of the whole Gulf region The author analyses Chinese support for Kuwait and the surrounding conservative states on two main bases political and economic in the form of trade It is through these channels particularly the economic one that China has sought to establish itself in the Gulf and the Arabian peninsula **The Arms Race in the Middle East** Mohammad Eslami,Alena Vysotskaya Guedes Vieira,2023-07-28 This edited volume discusses security policy and strategic policymaking in the Middle East region Due to its unique geopolitical geoeconomic and geostrategic features the Middle East region has been confronted with challenging security issues Combined with a lack of an efficient regional security regime this has led to the formation of a full fledged arms race This book draws together

contributions from international experts to address the factors that have been contributing to the ongoing formation of an arms race in the Middle East as well as the impact of this phenomenon on the regional and global security environment The book is organized in three sections The first section outlines the contemporary dynamics of the arms race in the Middle East by focusing on its most recent dynamics and their implications for regional and international security The second section conducts systematic analysis of case studies of country specific drivers of the arms race The third and final section examines the role of external actors in the arms race evaluating both the responses of regional actors to external interventions as well as the implications of the arms race for extra regional countries

Rethinking Statehood in the Middle East and North Africa Abel Polese, Ruth Hanau Santini, 2020-05-21 Alternative forms of government and statehood exist in the Middle East and North African regions The chapters in this volume demonstrate this and explore the notion of power from a non statist perspective highlighting the limits of states and their governance Using empirical evidence from Syria Libya Lebanon Tunisia Iraq Yemen and Mali the authors explore non standard cases where power may be retained by a state but must be shared with a number of local actors resulting in limited statehood and hybrid governance which leads to competition and sharing of symbolic and political power within a state This book is intended to prompt a critical reflection on the meaning of governance It will illuminate informal structures which deserve attention when studying governance and power dynamics within a state or a region This book was originally published as a special issue of Small Wars Insurgencies

Saudi Arabia in the Oil Era Pbdirect Mordechai Abir, 2020-07-26 Saudi Arabia has undergone a rapid social and economic transformation When Ibn Saud declared the nation a unified kingdom in 1932 the majority of its population was nomadic and lived in a state of poverty or semi poverty Now the processes of modernisation financed by the exploitation of the country's vast oil reserves have produced a prosperous and predominantly urban population However this social change has not been without its tensions the emergence of a rising middle class has called into question the monopoly of power of the House of Saud its involvement in the kingdom's economy and its oil and foreign policy while the rapid urbanisation of the rural population has eroded the traditional social structures and has not solved but in some cases promoted social division This book first published in 1988 explores the recent history of the Saudi oil state in an analysis of the struggle for social and political power in modern Saudi Arabia

The Quest for Hegemony in the Arab World Podeh, 2022-02-22 The struggle between Egypt and Iraq over Arab hegemony constitutes the main theme of this study

Focussing on the struggle over Middle Eastern defense between 1945-58 and culminating in the conflict over the Baghdad Pact 1955-58 it sheds new light on Arab politics during the period under review. This research concentrates predominantly on the regional actors. The underlying assumption is that policies were not necessarily formulated in Washington and London and that often enough major decisions taken in Ankara, Cairo, Baghdad, Damascus, Amman and other Arab capitals affected decision makers in Western capitals. The Quest for Hegemony in the Arab World is based on newly released British, American and Israeli documents as well as on all available Arab sources. The study's value rests upon its discussion of the Baghdad Pact, a significant event which was hitherto neglected yet marked a watershed in modern Arab history. This study's approach offers an analytical framework with which the present struggle for hegemony in the Arab world may be examined.
