The Middle Parts of Fortune Frederic Manning, 1990 **The Middle Parts of Fortune** Frederic Manning, 1929

The Middle Parts of Fortune Somme and Ancre Frederic Manning, 2007-04 War is waged by men not by beasts or by gods It is a peculiarly human activity To call it a crime against mankind is to miss at least half its significance it is also the punishment of a crime That raises a moral question the kind of problem with which the present age is disinclined to deal Perhaps some future attempt to provide a solution for it may prove to be even more astonishing than the last While this book is a record of experience on the Somme and Ancre fronts with an interval behind the lines during the latter half of the year 1916 and the events described in it actually happened the characters are fictitious It is true that in recording the conversations the men seemed at times to hear the voices of ghosts Their judgments were necessarily partial and prejudiced but prejudices and partialities provide most of the driving power of life The Middle Parts of Fortune Somme and Ancre 1916 Frederic Manning, 2004-06-01 The world seemed extraordinarily empty of men though he knew the ground was alive with them He was breathing with difficulty his mouth and throat seemed to be cracking with dryness and his water bottle was empty Coming to a dugout he groped his way down feeling for the steps with his feet a piece of Wilson canvas hung across the passage but twisted aside rasped his cheek and a few steps lower his face was enveloped suddenly in the musty folds of a blanket The dugout was empty For the moment he collapsed there indifferent to everything *The Middle Parts Of Fortune* Frederic Manning, 2012-04-26 Hailed by Eliot Pound Lawrence and Hemingway and based on the author's own experiences *The Middle Parts of Fortune* is a breathtaking account of the Great War and the men who fought it *On The War-path* Peter Pierce, Robin Gerster, 2016-10-18 This important anthology reveals the many ways in which going to war has formed a cultural bridge between Australia and the world From the Sudan in 1885 to Afghanistan in 2001 the connection of war to travel is illustrated in the observations of writers as varied as Banjo Paterson George Johnston Nancy Wake John Pilger Lily Brett and Peter Weir Selecting writings from combatants abroad as well as the reflections of sightseers who travel to foreign battlefields and war sites Robin Gerster and Peter Pierce reveal how the experience of war has both broadened and refined and sometimes distorted Australian views of the world Their lively collection crosses the boundaries between literature literary criticism travel writing war writing and cultural commentary **The Joseph M. Brucoli Great War Collection at the University of South Carolina** Elizabeth A. Sudduth, 2005 Brucoli Great War Collection at the University of South Carolina An Illustrated Catalogue provides a reference tool for the study of one of the great watershed moments in history on both sides of the Atlantic serving historians researchers and collectors **American Gadget** Ronald R. Gray, 2019-09-27 The American cultural historian literary and social critic and college professor Paul Fussell 1924 2012 is primarily noted for his famous work *The Great War and Modern Memory* but he also wrote and edited 21 books on a wide

variety of topics ranging from 18th century British literature to works on World War II and sardonic critiques of American society and culture This book offers a thorough introduction to his writings and thought and argues for Fussell s importance and relevancy Covering Fussell s traumatic experience in World War II and the important influence it had on his life and outlook this intellectual biography puts in context Fussell s perspectives on ethics the human experience war and literature as an evaluative and critical endeavor

War and the Rise of the State Bruce D. Porter, 2002-02-01 States make war but war also makes states As Publishers Weekly notes Porter a political scientist at Brigham Young University demonstrates that wars have been catalysts for increasing the size and power of Western governments since the Renaissance The state s monopoly of effective violence has diminished not only individual rights and liberties but also the ability of local communities and private associates to challenge the centralization of authority Porter s originality lies in his thesis that war breaking down barriers of class gender ethnicity and ideology also contributes to meritocracy mobility and above all democratization Porter also posits the emergence of the Scientific Warfare State a political system in which advanced technology would render obsolete mass participation in war This provocative study merits wide circulation and serious discussion
