The Media are American Jeremy Tunstall,1977 The Oxford Handbook of American Public Opinion and the Media

Robert Y. Shapiro, Lawrence R. Jacobs, 2013-05-23 With engaging new contributions from the major figures in the fields of the media and public opinion The Oxford Handbook of American Public Opinion and the Media is a key point of reference for anyone working in American politics today **Breaking The News** James Fallows, 1997-01-14 Why do Americans mistrust the news media It may be because show like The McLaughlin Group reduce participating journalists to so many shouting heads Or because increasingly the profession treats issues as complex as health care reform and foreign policy as exercises in political gamesmanship These are just a few of the arguments that have made Breaking the News so controversial and so widely acclaimed Drawing on his own experience as a National Book Award winning journalist and on the gaffes of colleagues from George Will to Cokie Roberts Fallows shows why the media have not only lost our respect but alienated us from our public life Important and lucid It moves smartly beyond the usual attacks on sensationalism and bias to the more profound problems in modern American journalism dead on Newsweek Asian Americans and the Media Kent A.

Ono, Vincent N. Pham, 2009 This volume provides an overview of the complex relationship between Asian Americans and the media It looks at the involvement of Asian Americans in the media industries and how alternative and independent media counteract traditional stereotypes **The Media in Britain** Jeremy Tunstall, 1983 British newspapers The Times The Guardian Daily Telegraph and Financial Times have long been considered among the best in the world and the BBC has become the world s most venerated television and radio organization In this book Jeremy Tunstall author of The Media are American surveys British media since 1945 including television radio films newspapers and magazines with the purpose of studying how they operate and what the future holds for them In the course of the book he discusses such issues as the relationship of politics to the media media audiences media biases control of the media by conglomerates and policies for the future Why Americans Hate the News Media and How It Matters Jonathan M. Ladd, 2012 As recently as the early 1970s the news media was one of the most respected institutions in the United States Yet by the 1990s this trust had all but evaporated Why has confidence in the press declined so dramatically over the past 40 years And has this change shaped the public s political behavior This book examines waning public trust in the institutional news media within the context of the American political system and looks at how this lack of confidence has altered the ways people acquire political information and form electoral preferences Jonathan Ladd argues that in the 1950s 60s and early 70s competition in American party politics and the media industry reached historic lows When competition later intensified in both of these realms the public s distrust of the institutional media grew leading the public to resist the mainstream press s information about policy outcomes and turn toward alternative partisan media outlets As a result public beliefs and voting behavior are now increasingly shaped

by partisan predispositions Ladd contends that it is not realistic or desirable to suppress party and media competition to the levels of the mid twentieth century rather in the contemporary media environment new ways to augment the public s knowledgeability and responsiveness must be explored Drawing on historical evidence experiments and public opinion surveys this book shows that in a world of endless news sources citizens trust in institutional media is more important than ever before
