The Mind And Body Shop:

The Body Shop Book of Wellbeing Vicci Bentley, 1998 It is said that beauty is not only skin deep and that to feel really good one needs to nurture mind and soul as well as body Divided into three main sections this book offers information and exercises which combine to provide a practical guide to achieving well being **Mind, Body and Soul** Random House, 1998-10-31 **Value and the Humanities** Zoe Hope Bulaitis, 2020-06-29 Tracing the shift from liberal to neoliberal education from the nineteenth century to the present day this open access book provides a rich and previously underdeveloped narrative of value in higher education in England Value and the Humanities draws upon historical financial and critical debates concerning educational and cultural policy Rather than writing a singular defence of the humanities against economic rationalism Zoe Hope Bulaitis constructs a nuanced map of the intersections of value in the humanities encompassing an exploration of policy engagement scientific discourses fictional representation and the humanities in public life The book articulates a kaleidoscopic range of humanities practices which demonstrate that although recent policy encourages higher education to be entirely motivated by outcomes fiscal targets and the acquisition of employability skills the humanities continue to inspire and aspire beyond these limits This book is a historically grounded and theoretically informed analysis of the value of the humanities within the context of the market [The Campus Novel](#) , 2019-01-04 The Campus Novel Regional or Global presents innovative scholarship in the field of academic fiction Whereas the campus novel is traditionally considered a product of the Anglo American world the present study opens a new perspective it elucidates the intercultural exchange between the well established Western canon of British and American academic fiction and its more recent regional response outside the Anglo American territory *The Academic Novel* Merritt Moseley, 2007 A collection of the most illuminating commentary written on the English language academic novel during the last forty years together with new essays especially commissioned for this volume As well as general thematic essays there are discussions of a number of individual novelists Vladimir Nabokov Randall Jarrell Mary McCarthy Kingsley Amis Alison Lurie Robertson Davies David Lodge Howard Jacobson Contributors are Adam Begley Ian Carter Benjamin DeMott Aida Edemariam Leslie Fiedler Philip Hobsbaum J P Kenyon David Lodge Merritt Moseley Dale Salwak Samuel Schuman J A Sutherland Glyn Turton Chris Walsh Susan Watkins George Watson **Mind, Body & Soul** , 1998 **Deeply Responsible Business** Geoffrey Jones, 2023-03-21 Corporate social responsibility has entered the mainstream but what does it take to run a successful purpose driven business A Harvard Business School professor examines leaders who put values alongside profits to showcase the challenges and upside of deeply responsible business For decades CEOs have been told that their only responsibility is to the bottom line But consensus is that companies and their leaders must engage with their social and environmental contexts The man behind one of Harvard Business School s most popular courses Geoffrey Jones distinguishes deep responsibility which can deliver radical social and ecological responses from corporate social responsibility which is often little more than window dressing Deeply

Responsible Business offers an invaluable historical perspective going back to the Quaker capitalism of George Cadbury and the worker solidarity of Edward Filene Through a series of in depth profiles of business leaders and their companies it carries us from India to Japan and from the turmoil of the nineteenth century to the latest developments in impact investing and the B corps Jones profiles business leaders from around the world who combined profits with social purpose to confront inequality inner city blight and ecological degradation while navigating restrictive laws and authoritarian regimes He found that these leaders were motivated by bedrock values and sometimes but not always driven by faith They chose to operate in socially productive fields interacted with humility with stakeholders and felt a duty to support their communities While far from perfect some combined visionary practices with vital flaws each one showed that profit and purpose could be reconciled Many of their businesses were highly successful though financial success was not their only metric of achievement As companies seek to coopt ethically sensitized consumers Jones gives us a new perspective to tackle tough questions Inspired by these passionate and pragmatic business leaders he envisions a future in which companies and entrepreneurs can play a key role in healing our communities and protecting the natural world
